

TAX COMMITTEE WINS PRAISE OF CHAMBER BOARD

The board of directors of the Medford Chamber of Commerce, at its regular weekly meeting held at the Hotel Jackson today noon, received and approved reports from a number of chamber committees, and especially praised the taxation committee, under the direction of W. H. Gore, for its work in promoting reductions in county taxes.

had been most considerate of the recommendations made by the chamber's committee, and that it is the belief of the committee that the public generally will approve of the final action taken on removing from the 1933 proposed budget a major part of the proposed levy to cover tax delinquency.

In its presentation to the county court and the budget committee, Mr. Gore's group emphasized particularly the need for a reduced budget during the coming year, and urged that all levies for anticipated delinquency be removed. In the final opinion of the budget committee, however, this was not deemed practical, although a major part of this proposed levy was eliminated.

A discussion of action to be taken by the Chamber of Commerce in aiding in the establishment of markets for food products of the valley, other than fruits, was referred to the agricultural committee for immediate attention. It was proposed at today's session that this project be given a

major part of the chamber's attention during the coming months, as it was contended by a number of members of the board that it is one of the most feasible plans for bringing about the necessary economic readjustment here.

C. L. MacDonald, chairman of the chamber's publicity committee, reported today that progress is being made in the preparation for the proposed Diamond Jubilee celebration in 1934, and stated that invitations will be sent out within the week. Tom Cunningham, field representative of the Shasta Wonderland association, spoke to the directors on the objects and purposes of his organization, and received the endorsement and approval of the Chamber of Commerce for the work of the tourist promotion group.

Routine business occupied the remainder of the session.
