COAST RAILROAD RUMOR REVIVED IN EUREKA PAPER

The ancient "rumor" of the building of a railroad "from this city to the coast" was revived last week by the Humboldt Times of Eureka, Cal., but, according to the Del Norte Triplet, "failed to create a ripple of excitement in Crescent City" and "regarded as just another joke."

Last summer a fire of rail building arose in this city when it was proposed to borrow money from the Reconstruction Finance Corporation to build the railroad.

The latest report says "Influential Los Angeles men back the project," but contracts for feeding the work start next week, that \$30,000,000 and two years' time will be required, and that "it is hinted the Great Northern is back of the move."

K. C. Busch and Jack Russell are conducting the preliminary plans and "rushing action."

The Del Norte Triplet places no credence in the "wild rumors" and further says:

"Local people ridiculed the rumor from the very first, and have been wanting to keep the story from being circulated for fear it will result in attracting a large number of unemployed men to this section, who may later become wards of the county."

For the past ten days there has been "street talk" here that "another railroad was in the air, along with new gold discoveries."

12 CARS TURKEYS FOR CALIFORNIA

PORTLAND, Dec. 14.—(AP)—Twelve carloads of Oregon Turkeys are scheduled to go to California this week, shippers here said today.

Weather conditions during the past week or so have limited the movement of birds from practically all leading producing points of Oregon and Idaho. Last week, with better conditions, around 23 carloads were shipped from Oregon to eastern markets, and four to California. Eastern shipments by freight have ceased.

Because of the cold weather many turkeys received here have arrived frozen making reshipment practically impossible. As a result of the cold weather many growers are talking of delaying killing. The trade here believes this would result in a grave situation, inasmuch as it would throw the great bulk of birds upon an already oversupplied local trade.

NEW YORK, Dec. 4.—(AP)—A rather brisk rally developed late in today's stock market after a little earlier hesitancy in response to the refusal of the French chamber to approve payment of tomorrow's debt installment.

The upturn carried several issues up 1/2 to 2 points, and the closing tone was firm. Transfers approximated a million shares.

Today's closing prices for 30 selected stocks follow:
