Happy New Year
We wish all of the Grange and all of the Grangers in the county a Happy and Prosperous New Year.

Let us hope that the year 1933 will be an outstanding one in the Grange work of Jackson county, and that here at least, we may deserve the name so often given us that we are "The Watch Dog of American Agriculture."

To achieve this each officer, each committee, each member must cooperate with the masters, each individual member and each working unit working only for the good of the other, which in the end means, the good of the members.

To belong to the only fraternal farm organization in the world, need to do our bit to carry out its program, which in the Grange is largely one of education, glad to assist in the work of bringing order out of chaos in the agriculture situation today; striving to bring the farmer from a state of almost peonage to one of equality with other large business interests of the country; working to make more pleasing the life of our country people, who our history has always told us, are the foundation of our national security; this is the work of the Grange and the Grangers.

Progress comes only through vision, vision through understanding and sympathy, understanding through education and education through application. So let us apply ourselves to this great work this year, but let there be harmony as well as progress, charity as well as aspiration. Again wishing you a happy New Year, may your labors be pleasant and your duties faithfully performed to the satisfaction of all of your fellow workers.
