

### ROAD SUPERVISORS WILL BE SELECTED BY COUNTY COURT

The county court will meet again tomorrow to discuss the naming of an auditor for the county books, appointment of road supervisors in each of the twelve road districts of the county, and consideration of the petit jury list for the coming year. A tentative list has been picked, which is scheduled for considerable revision before formal approval.

Increase in the number of road supervisors to twelve, instead of the three now engaged, was made at the request of a number of road districts, who feel that each district should have its supervisor. The last county court reduced the number to three as an economy measure.

It is planned that the supervisors will be charged with all emergency relief work, and general road work in their districts, and that they receive pay only for the time they actually work. They will be required to make a report on the number of unemployed in their district, and relief needs.

No decision has been reached on the appointment of an auditor, the county court endeavoring to find an accounting firm qualified, and reasonable in price.
