MEDFORD MAIL TRIBUNE

MEDFORD MAIL TRIBUNE, MEDFORD, OREGON, FRIDAY, JANUARY 27, 1933.

Slush is now on the ground, and on the slidewalks, and in the streets, as well as where you have been find-ing it for the past three years, in all

There has been considerable cussing of the government, as constitution manner. The cussers, who as a rule are good as profanity, are incomis-tent. They lean towards the Russian form, which permits of no cussing of the government, and conclude all segments along this line with a bit of brick wall, a bit of the dawn, as and in a row. The majority are per-sently willing to act in an official space of the government they so worth the wind used to make it she this is emotional anger and not worth the wind used to make it she this is a strong of blood for a "hange." A foot, in a pair of plow pict is the strong of blood for a "hange." A foot, in a pair of plow pict is the most and the strong of blood for the most effective cure yet re-tis the most effective cure yet re-tis the minimum on the strong of a blood for a the most and the summa rayout.

Fistch Fish, the boom day tenor is again sequestered behind a fungus growth on his upper lip, that is al-leged to be a mustache, and is so-called for the lack of a better name.

The petitions for the abolishment of the state ponitentiary. "in the interests of economy," still lack names. In view of the current hys-teria, this is nothing short of dumb-tourding, why anybody with a heart and soul, would want to keep a neighbor in the Big House these times is beyond comprehension. If freed, next time, the erring brother will not get caught. It is still main-tained that the place to get signa-tures, is within the prison walks. Those thus detained know the situa-tion, and what is best for them.

FACTS-HARD AND COLD

FACTS-HARD AND COLD (Cong. Record) There have been individuals who were good farmers but only one class of real farmers-the Pennsylvania Dutch. Whether they have also been corrupted I am unable to say, but no plea for federal aid has come from Lan-caster county, Ps. Their system differed from the sverage Ameri-can system of change and ex-treme waste in three outstanding rules:

They bought land to keep 1.

They bought land to seep -not as a especulation.
 They hought nothing that could be produced at home and wasted nothing.
 They bought only when they had the money to pay. The states which have made greatest departure from these essentials are also making loudest ples for aid for farmers.

Editorial Correspondence HOLLYWOOD, California, Jan. 25 .- Congratulations to

George Roberts, Ben Harder, Ole Alenderfer, Gus Newbury, Attorney Neil Allen of Grants Pass, Colonel E. E. Kelly, Johnny Reid of Gold Hill, Raymond Reter, and other public spirited citizens of Medford and Jackson county, who according to reports just received, stood up and were counted at the recent Legion mass meeting, and with the customary initiation of personal abuse and villification, were duly elected to the News

'GANG," by its editor the next morning. Perhaps they do not realize what a large and honorable

organization this mythical gang has become. To enumerate its membership would fill more space than we have at our command. But here are a few of the members still in good standing :

President Herbert Hoover, Senator Charles L. McNary Senator Steiwer, Governor Meier, Circuit Judge Noton, Circuit Judge Brand, Circuit Judge Llewelling, in fact all the circuit judges that have held court in Jackson county in recent months, all the grand juries that have been in session in recent years except the last one; all the officers and members of the Southern Oregon Bar association; the officers and members of the Medford Legion, the Ashland Legion; the officers and members of the Traffic Association; the Fruit Growers League; all county judges and county commissioners with the exception of Judge Fehl; all attorneys in active practice with the exception of M. O. Wilkins; the mayor of Medford and his predecessors, all city councilmen, organized labor, all former employees of the News, all newspapers in Southern Oregon, but the News and Record Herald, all citizens who have tried to do something for Medford and Jackson county and have refused to be bulldozed by the morning paper-John Mann, Bill Gates, District Attorney Geo. Codding, County Clerk Carter and many othersin fact a most distinguished and extremely respectable company.

MANY names have no doubt been overlooked, and many citizens not members of the organization now, will be nominated just as soon as they dare to protest against this

attempt to ruthlessly tear Medford and Jackson county asunder, injure business, advertise the Rogue River valley, far and wide as a place where human life is not safe, where law and order have broken down, and where open violence and bloodshed are imminent.

So we congratulate the citizens mentioned above, on their courageous and public spirited action. We know why they did it. They had nothing personally to gain and everything to lose. But they felt that conditions had become so serious, the situation so intolerable, that it was time for all loyal citizens to stand up and be counted-to take a stand and a strong uncompromising stand, against this outrageous attempt to turn Southern Oregon into a veritable shambles, and to render any return to the peace and harmony and prosperity of former years impossible.

They KNEW what they would get. They knew the personal

the truth, no regard even for the common DECENCIES of life in the tirades against them; they knew NOT ONLY they would never again be safe from attack, in the public print, but that even their wives and members of their family would not be spared. But knowing all that, THEY WENT AHEAD AND DID IT. They did it because, in a time of crisis they cared more for the welfare of the community in which they live, than they did a

themselves.

.

SO WE SAY ALL PRAISE TO THEM, and may many more of the citizens of Southern Oregon, who believe in truth, in decency, in fair play, and wish to pull Jackson county out of fatal method was employed to give this mess, follow their example.

To all of which if course, the editor of the News will have his familiar squawk. The Mail Tribune is trying to destroy him-the gang is trying to destroy the sacred freedom of the press. Boo-Hoo, Boo-Hoo! "Arise, citizens, arise," etc., etc. BALOGNEY !

What is the freedom of the press, ANYWAY!

Is it freedom to distort the truth and misrepresent the facts, is it freedom to abuse and villify upright citizens, and even drag members of their families into the mire, is it freedom to misinform and mislead the people, merely to attract a following, and gratify a sense of vanity and a will-to-power, even though an entire community may be wrecked as a result!

FREEDOM OF THE PRESS INDEED! No one wishes to curtail the freedom of the press in Jackson county. But the freedom of the press, like the freedom of action or free speech, is a TRUST as well as a privilege. speech, is a TRUST as well as a privilege.

and then do everything in his power, to make that BREAK-DOWN CIMPLETE

In short let him run a newspaper, not a scandal and libel sheet; let him work for the upbuilding and betterment of Southern Oregon, not its disruption and destruction.

Let the editor of the News do this-and he will enjoy not only the gratitude of the right thinking and peace loving people of Medford and Jackson county, but he will also enjoy their respect and good will. R. W. R.

Personal Health Service By William Brady, M. D.

Signed letters pertaining to personal health and hygiene not to disease diagnosis or treatment, will be answered by Dr. Brady U a stamped, self-addressed envelope is enclosed. Letters should be brief and written in ink. Owing to the large number of letters received only a few car be answered here. No reply can be made to queries not conforming to instructions. Address Dr. William Brady in cars of The Mail Tribune.

SPECTACULAR BUT FATAL FIRST AID METHOD

One of our correspondents informs, me the data on such first aid work a that the firemen of his city are in tht eastern city, and the editor us that the firemen of his city are aught and use only the Schaefer prone-pressure method of resuscitation, but that assures me that the pulmotor is no longer in use by the police or the fire department, and that only the schaefer method is used by the second by the secon

mersion within 10 minutes and the correct prone-pressure resuscitation immediately started by the one cap-able bystander among a crowd of 200 ghoulidh persons who just crowdad and hampered the efforts of the first

s true, the police committed a grave blunder, but the physician did worse.

the police have Schaefer method is used by them and frequently and by the local electric light and use a breathing gas company first ald crews. But an machine, and so inhalator is used to supplement the machine, and so inhalator is used to supplement the does the light prone-pressure respiration. That is or power com-fine. But it doesn't deny what hap-pany serving the pened in the instance reported by city. Then the the correspondent. The editor adds correspondent that experts have criticized the po-narrates a tragic lice of the city as improperly trained instance where in the Schefer method, but he be-spectacular but lieves this deficiency is now being fatal first aid overcome. That's good, too. I here-was used: by serve notice on all first aid crews was used: by serve notice on all first aid crews A boy of 18 years of age was rescued from sub-mersion within 10 minutes and the

and other medical instructors, if any, that the time has come to call a halt on this spectacular farce and to see to it that correct first aid is given Author of the act which created are here. victims in every instance. Whenever I find any official or quasi-official body doing any funny stunts with pulmotors or lungmotors. I'm going to show them up.
