RELIEF WORKERS REPORT EFFORTS; NEED MORE COIN

(Continued from Page One)

div organizations in financing the Community Relief kitchen, sponsored by the Lions club, was introduced by Lions Leland Brophy and George Prescott. The work of the organization was endorsed by the Allied Welfare association, which President John C. Mann stated will do everything possible to aid financing of the worthy project. The report given by Lion Prescott showed that between November 7th and January 15th 3219 meals were served at the relief kitchen and from December 7th to January 15th, 1940 persons were given sleeping quarters. Other clubs will be asked by the Lions to buy meal ticket books by way of helping out the project. These meal tickets may be given out by individuals in exchange for labor or for labor to be done at the shelter. A signature on the back of the ticket will sell the story.

The Lions ended their report by inviting all persons present to luncheon at the relief kitchen next Tuesday, at which time the Lions club will meet there, pay the regular luncheon fare, and dine on mulligan, thus increasing the kitchen fund. Report of Miss Lillian Roberts, secretary of the Jackson County Red Cross chapter, showed that much has been accomplished in spite of the shortage of funds. During the month of December from the cotton supply forwarded from national headquarters 2468 garments were given out by the local chapter. Already this month 114 sacks of flour have been distributed through the Medford office alone to 507 families. This total does not include Rogue River and Ashland.

Progress of the Welfare Exchange was outlined by Mrs. Charles Glenn Smith, representing Miss Helen Carlton, manager. A need for cash and clothing was reported by Mrs. Smith, who stated that the sewing room is constantly filled, the machines always going, and contributions rapidly diminishing.

Hamilton Patton, manager of all relief activities in Jackson county, reported that he does not intend to discourage any charitable organization, now carrying on, and will be glad to co-operate with the different groups in supplying their needs. The county, through the present relief program, he stated, is advancing credit to the needy until such time as work will be available to repay the county for amounts fed. He reported 974 families being given. Mrs. Edwina Welshar reported on activities of the Welfare and Professional Women's club; Mrs. H. G. Wilson on the Y. W. C. A.; Mrs. G. R. Satchwell on the Greater Medford club; Mrs. J. Heyland on Parents-Teacher association; Mrs. R. E. Green on Girl Scout work; Mrs. Edwin L. Knapp on work of the governor's relief committee, representing Mrs. A. E. Reames, and for Women of Rotary and Larry Schade for Boy Scouts; Miss Mildred Carlisle reported an important shortage in receipts on tuberculosis seal sales for the Jackson County Public Health association, and C. R. Bowman, county school superintendent, and Mrs. Mabel Mack, home demonstration agent, outlined work going on in other parts of the county. Mr. Bowman emphasized his willingness to co-operate with the relief groups and Mrs. Mack stated there are 15 groups carrying on work through her office in the county. Mrs. Carol J. Parker, secretary of the association, reported for the local Legion post and auxiliary.

to be \$1,657,000 under amounts asked by the budget.

The budget request of \$945,988,000 for the veterans administration was allowed in full, although attempts to reduce the amount 10 per cent had been talked of.

Vets Amount Allowed This is \$18,039,000 more than actually was appropriated for this purpose this year.

The committee proposed reappropriation of \$500,000 for the farm board against the \$1,000,000 asked, explaining its action in these words: "In view of the present agitation for the abolition of the board and of pending legislation respecting reorganization of the executive branch of the government, whereunder the president is given authority either to abolish any such independent establishment or to transfer and consolidate the same with any other part of the executive branch, the committee has decided to provide funds for the board's operation only to and including December 31, 1933, and has made \$500,000 of unexpended balance available for that purpose. Before that date the congress will have ample opportunity to make such further provision for the board as the exigencies may require." The only increase above the budget shown in the report was a \$50,000 item for the White House. That money is to be available immediately to make alterations and build a swimming tank for President-elect Roosevelt.

SNOW HALTS ALL CRATER TRAFFIC REST OF WINTER

One hundred and four inches of snow has fallen in the Crater Lake national park in the last seven days, according to reports received at the park service headquarters here today.

Total snow depth at Government Camp is now 148 inches, according to reports, and traffic in the park is completely tied up. The snow plows that last year kept the roads cleared are swamped.

Total snow fall for the month of January, to date, is 17 feet 6 inches, as compared to 9 feet 3 inches from the 1st to the 27th of January last year. During the last few days of January last year, however, a heavy snowfall increased the depth for the month to 15 feet.

Total snowfall last year, from October 1 to September 27, was 33 feet 8 inches, against a fall so far this year of 38 feet 4 inches. Indications now are that the almost record fall of last year will be badly beaten this year. The most snow on the ground at any time last year was 126 inches, and if the present storm continues until the end of the month the record will be broken even before the heavy snow season sets in. Heavy snows usually fall in the park during February and March, officials said.

Snow at the lake and all through the mountains, for that matter, is packed hard this year due to the damp snows and occasional rains. Irrigationists are jubilant, as the heavy snowfall practically guarantees ample water for all the ditches next summer.

Reports received by the forest service today state that there is six feet of snow at Union Creek, five feet at Lake o' the Woods and 16 inches at Butte Falls. An all-day rain yesterday packed the snow there.

Schools were not open at the Mt. Pitt and Gippert schools, due to the heavy snows and the inability of the school buses to buck the drifts.

With more snow predicted for the coast, it is possible that records of long standing will be broken, officials said.

'BIRD OF PARADISE' AT STUDIO THEATER The Studio theater is featuring "The Bird of Paradise," brought to the screen with all of its haunting melody and primitive drama. Dolores Del Rio, Joel McCrea and John Halliday are featured in the large cast in this soul-stirring romance.

FEDERAL AIRWAY INSPECTOR BOGGS KILLED IN CRASH

(Continued from Page One)

former head of the old Century Pacific Airlines. They took off from the Burbank airport at 7 p. m.

Apparently, it was the intention of Boggs to set the plane down on the emergency field at the Lake Norman club, a mile and a half from the Puller ranch. It was believed, however, that Boggs mistook a grain field for the emergency field and was circling preparatory to landing when he struck a group of ucalypsus trees and the power line. The plane did not catch fire.

The three occupants of the plane were to have been guests at a social gathering at the Puller ranch, and a number of the guests who were at the emergency field awaiting them, were present when the plane crashed nearby. They rushed to the plane and pulled the injured from the wreckage.

M. S. Boggs was well known in the city of Medford, through contacts with the local airport and city officials. It was learned today, he had much to do with installation of radio stations through this section and made periodic inspection of airways lighting and communication at the Medford airport. He was in this city a very short time ago, Fred Scheffel, city superintendent, stated this morning. All questions regarding airway lighting and communication facing the city of Medford were taken to Inspector Boggs.

New Jersey Counts Damage By Storm

NEWARK, N. J., Jan. 27.—(AP)—Public officials and private citizens began today the task of reckoning the damage caused by a heavy wind and wild sea that lashed the entire New Jersey coast. At the same time, coast guardsmen continued their efforts to locate the bodies of three harbor pilots, lost when their yawl overturned off Long Branch.

EUGENE, Jan. 27.—(AP)—Charles W. Allen, prominent resident of Lane county and at one time affectionately

Beware the Cough or Cold that Hangs On Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified crocote that is pleasant to take. Creomulsion contains a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, crocote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to crocote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the crocote goes on to attack the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist. (Adv.)
