

720 PEAR BOXES REQUIRED IN CAR FOR CHEAP RATE

Saving of Nine Cents Per Box Possible in Freight Under New Ruling—Half of Crop Will Be Affected

In order for peargrowers to take advantage of the reduction in freight rates, as announced by the Traffic Association Monday, they must ship 720 boxes of pears to the car, it was explained by Paul Scherer, manager of the Southern Oregon Sales corporation today.

"The reduction is a step in the right direction," Scherer said, "but we will have further reductions before we are materially benefited. The reduction from \$1.75 a hundred to \$1.55 a hundred will help—at least it will help those who can take advantage of it."

Only about half of the pears in the valley can be shipped under the reduction, Scherer explained, because in order to ship 720 boxes to the car the pears must be either pre-cooled or stored here before they are shipped. Scherer pointed out that there were facilities here to pre-cool or store only about half of the normal crop of the valley, and all the pears that weren't pre-cooled would have to go in the old 520 car, at \$1.75 a hundred.

The problem of who will ship under the 720 box load and who won't will be decided by the growers before shipping, Scherer said, as many growers do not like to pre-cool pears. The pre-cooling will practically wipe out the benefits gained through the reduction, although many growers are pre-cooling as a matter of practicality, even with the 520 box load.

Labor—Miss Frances Perkins of New York. Changes Yet To Be Made. However reliable this slate may be as to the present intentions of the president elect, it is realized that several shifts and adjustments remain to be made.

These probably will be completed within a few days, although no public announcement is expected for some time. Much is believed in Washington to depend on today's conference between Mr. Roosevelt and Senator Hull at Warm Springs.

Those who say Hull has been offered the secretaryship of state believe his selection was based on the expectation that economic problems will predominate during the next four years in American diplomacy.

Hull is considered one of the outstanding economic authorities in congress. Dern Surprise. Predictions that former Governor Dern will become secretary of war have caused some surprise in Washington. Previously he had been mentioned prominently for secretary of the interior.

John B. Elliott, who may get the interior secretaryship if Senator Cutting does not, is a political ally of William G. McAdoo, formerly a Washington newspaperman, he was collector of customs at Los Angeles under President Wilson.

Those definitely in the cabinet, according to the reports reaching Washington, are Farley, Miss Perkins, Dern, Walsh, and Glas—although not all of them have accepted.

Ralph Smith, 25, former resident, who underwent an operation during the holidays in Ashland, died last night at Roseburg, where his parents live, according to word received here today.

Smith never fully recovered following the operation, and had been ill at home since.

The funeral will be held Thursday afternoon in Roseburg.

Society to Dine At Church Friday

Many local folk are making plans to attend the "States" banquet at the First Methodist Episcopal church Friday evening, where a turkey dinner will be followed by a splendid program. The annual affair, as usual, will be open to the public with a small charge for dinner and the committee is anticipating the presence of former residents of all states in the union.

Dinner will be served at 6:30 in a festive setting, with each table decorated in the favorite flowers and symbols of the various states.

George Coddling will preside as toastmaster for the evening and chairman will be Mrs. F. M. Corlies, Mrs. J. W. Smylie, Mrs. A. G. Bennett and Mr. Arthur Short, from whom tickets for the banquet can be received.

Mrs. Short's telephone number is 821-J, and anyone who has not made reservations for the banquet is asked to call her. Hostesses who will preside at the tables tomorrow evening will be Mesdames Holloway, Humphreys, Nichols, Scheffel, Coddling, Hall, LeClerc, Koppes, Campbell, Roseborough, Mortson, Gallock, Thayer, Sleeter, Van Dyke, Walker, Pipes and Redden.

Altar Society Party Scheduled for Tonight Many card fans will gather at parson hall this evening for the card party to be sponsored by St. Ann's Altar society. Playing will begin at 8 o'clock with contract and auction bridge and 500 on the calendar.

Mrs. Everett Brayton is chairman for the evening and will be assisted in entertaining by Mrs. C. M. Brewer, Mrs. J. C. Boyle, Mrs. Walter Bailey and Mrs. Bigelow, acting as hostesses.

OREGON PRODUCTS BANQUET PLANNED AT JOINT CONFAB

Preliminary plans for the sixth annual Oregon Products banquet were drafted this morning at a conference between committees of the Women's Greater Oregon association and the Medford Chamber of Commerce, under whose direction the banquet will be given.

It is probable that the Oregon Products banquet will be held during the third week of April this year. It was announced following this morning's conference, and arrangements were under the direction of Mrs. T. I. Deck, president of the Medford unit of the Women's Greater Oregon association, who will have direct charge of the preparations for the event.

For the past five years, the annual meeting of the Medford Chamber of Commerce has been an Oregon Products banquet, and last year arrangements were under the direction of Mrs. Glen Fabrick, then president of the Women's Greater Oregon association. The event has come to be one of the outstanding civic functions of the year, and, according to present indications, this year's event will eclipse anything of the like nature attempted before in Medford.

fire-arms already listed. It will also be added emphatically to the clause prohibiting the carrying of firearms by aliens and convicts.

One timid solon expressed a whispered regret that such "gangster terminology" should be inserted in Oregon's peaceful sounding law code. "This isn't Chicago," he said.

Mr. Beckman explained that he introduced this act after a conference with the district attorney of Multnomah county, who deemed it tremendously important. It is a preparedness measure, according to Representative Beckman—a proposed law to take care of the gangster before he even gets to Oregon.

The act offers the following definition: The word "machine gun" shall be construed to apply to and include any automatic rifle or automatic pistol having a barrel less than 30 inches in length, operated by gas or recoil, and carrying in its magazine or chamber more than nine cartridges of any caliber whatsoever.

VICTORIA, B. C., Feb. 1.—(AP)—A brave tale came down from the north today, of how an unarmed Indian rescued a 22-year-old white girl from death by freezing, and carried her seven miles to safety through sub-zero weather. Anna May Unlman, whose parents were believed to live at Napa, Calif., was reported missing Saturday from a point seven miles from the little settlement of Telegraph creek. The Indian took the trail, and found her in the snow, hands and feet severely frozen.

...And all about What to Drink TOO! MOST women like to find out new ways of cooking. This year you'll not only learn about dishes but about drinks too. Delicious and appetizing drinks made with Canada Dry — The Champagne of Ginger Ales. For this fine old beverage can be made the base of tempting punches; of cool, tangy iced tea; of long tall glasses shimmering with creme de menthe green or grenadine red. No other ginger ale mixes so well as Canada Dry, for none has its sparkle, its inimitable flavor, or its charm. Yet Canada Dry — The Champagne of Ginger Ales — costs no more today than ordinary ginger ales. Sold everywhere in two handy sizes.

Man's work is From sun to sun But woman's work Is never done... When Our Mothers Were Brides

The above saying was literally true. Electricity has changed all that. Today the average family in Medford lights the home, cooks, heats the water, operates a refrigerator, washer, iron, vacuum cleaner, radio, sun lamp, percolator, toaster, waffle iron, food mixer and other appliances at an average cost of 32 cents a day. The average electric bill, for complete equipment, is only \$9.50 a month. Electricity is cheap in Medford, less than half the national average. (Average domestic rate per k.w.h. for the United States in 1931 was 5.7 cents... the average for the Medford district was 2.38 cents per k.w.h.)

THE Mysterious Rope EXPLANATION: The chair's rear left leg is made of tubing. A hole is bored in the stage and the chair is placed so that the tube leg is over it. An assistant pushes the rope up through the chair leg under the victim's coat.

ILLUSION: Some member of the audience is politely requested to sit down on a chair. The magician tells him that his coat seems to be bunched up in the back, and offers to correct it. Whereupon he pulls out a big coil of rope.
