Mr. Kerby reported that while snow has entirely disappeared from the valley floor, evidences of winter are still a fact in his section, will three inches of snow still on the ground.

GOLD PRODUCTION SHOWS INCREASE KIWANIANs TOLD

A surprising increase in gold production, which has brought a total of \$514,000 into Jackson and Josephine counties during the year 1932 was reported today to the Kiwanian club at luncheon at the Hotel Medford by George Barton of the Southern Oregon Mining association, who recently returned from the state legislature, where he appeared in the interests of mining legislation.

The bulk of gold brought from the mining regions of Jackson and Josephine counties is sold in Grants Pass, Mr. Barton explained. It is handled there through the banks and people in Jackson county are not well enough aware of the fact that Redden and Co. here also buy gold. For that reason, he stated, Grants Pass is receiving greater benefits from mining and is not facing the depression, illustrating the increase in gold production over the past four years.

Mr. Barton produced figures from the First National bank of Grants Pass, which shows for 1929, \$25,000; for 1930, \$37,000; for 1931, \$36,689, and for 1932 a total of \$59,831.27. There are around 20,000 men in Josephine county who would otherwise be members of the unemployed, now working in the production of gold, Mr. Barton stated, pointing out that Jackson county would not be feeling so many people through the local commissary if adequate mining facilities could be established here, and if the amendment to the lien bill passed in 1929 could be repealed.

"We have lots of idle ground and many idle men, who could make their own living, saving us much in what a custom mill could be placed here," the speaker added, urging members of the club to support the promotion of mining in this district. Asked the cost of such a mill, he estimated it at \$30,000 for one of 25-ton capacity. This amount would include installation and the self-supporting, Mr. Barton stated, explaining that there is enough ore in this section to supply a 100-ton capacity plant.

Turning back to the gold market, he declared: "There is no limit to the marketing of gold, always at a profit. The same old figure stands, depression or none, and gold is worth twice as much today as it was during the war."

Quarts at today's luncheon were Dr. Thomas D. Yarnes of Salem, C. R. Bowman, county school superintendent, and Chester Morgan of Roseburg. Preceding Mr. Barton's address the club was entertained with a musical program by Misses Dorothy Burgess and Helen Guy, who presented several numbers from the opera, "Pinafore." E. H. Hedrick was program chairman for the day.
