

### CUSTOM MILL FOR LOCAL REGION AIM OF MINE SOCIETY

#### Fifty-Ton Capacity Plant for Initial Installation Is Proposed—Plan Expansion Later if Business Justifies

The man with a few tons of milling ore on the dump would be able to realize something for it and be able to go out and get some more. The small operators, by reason of being able to realize a small profit on his first shipments, would be able to continue them until such time as he had his property in a condition to justify his own mill.

Means Big Payroll.

The employment of a thousand men digging, hauling, handling and prospecting for ore to keep the demands of this mill supplied, would mean the employment of another thousand in other fields of activity producing food and other necessities of life to keep the miners supplied. Now it begins to show what the far reaching effect of the establishment of this mill will mean, doesn't it? The ore is here, the opportunity is apparent; the product is salable and it needs only the co-operative effort of those most vitally concerned, to make it an actuality.

Then, there is the by-product of such a mill to add to the earnings and provide further labor.

The tailings from the mill can be used for the surfacing of streets and highways. Already more than six thousand tons of tailings from the Opp mine have been used in the construction of the streets of Medford. These tailings, owing to inadequate methods of treatment, still contain gold values to the extent of from \$1.80 to as high as \$9.00 per ton. Literally speaking, the streets of Medford are paved with gold, and it provides an excellent surfacing material.

Brick from Tailings.

Another use to which the tailings can be put is in the manufacture of brick, tile and plastering for finishing work. The brick can be pressed, placed in a dryer and be ready to put into a building within twenty-four hours and can be made in any desirable shades or color. They can be made cheaper than the ordinary brick; their utility and durability is much greater and no comparison can be made with the handsome finish possible. All of this data is also available from exhaustive tests that have already been made.

Finally, on account of its sharpness, no better material can be found for finishing purposes in the building trade, than the dust from the mill which can be saved and sacked and when ready for shipment will bring a price of from \$11 to \$12 per ton.

Truly, the possibilities of a custom mill reads like an account of a modern packing plant who, according to their own admission, save "everything but the squeal."

Real estate or insurance—Leave it to Jones. Phone 796.

Because so little attention has been paid to the mining industry by the residents of the Rogue river valley for the past several years it is not generally appreciated just what benefits will result from the establishment of a custom mill in this territory. For this reason we feel that it will be interesting now to set out some facts relative to the proposed establishment of the mill.

One of the main factors advanced in an argument favoring a custom mill, is the employment of labor. The mill itself would not employ to exceed five or six men, but, in order to keep it supplied with ore, to the extent of fifty tons per day, would require perhaps twenty-five different mining operators working to supply the demand.

Each of these separate operations would furnish employment for perhaps four men. Our employment force is growing. The success of their activity would stimulate as many others in an attempt to duplicate the effort.

Prospectors would be busy. Small operators would be busy.

### I. O. O. F. BRANCHES INSTALL OFFICERS FOR ENSUING YEAR

At recent regular meetings held for that purpose, the four branches of the Odd Fellows Lodge installed the elected and appointive officers for the coming term. Medford Lodge No. 83 held installation with Grand Master Miles of Ashland as installing officer. Those who will guide the activities of the lodge are:

Noble Grand—J. W. LaTourrette.  
Vice Grand—H. W. Fitch.  
Secretary—L. O. Howard.  
Treasurer—R. J. Calder.  
Warden—O. A. Crow.  
Conductor—George Iverson.  
Outside Guardian—A. M. Clark.  
Inside Guardian—Eugene Cole.  
R. S. to N. G.—W. J. Wilsey.  
L. S. to N. G.—L. E. Dusenbury.  
R. S. to V. G.—H. L. Leach.  
L. S. to V. G.—A. J. Hanby.  
Right Scene Supporter—H. W. Keese.  
Left Scene Supporter—J. F. True.

Officers of Olive Rebekah Lodge No. 28 were installed by Lillie Clark, district deputy president, and are:

Noble Grand—Evelyn Hightsham.  
Vice Grand—Lucretia Whitlock.  
Recording Secretary—Mary Wilsey.  
Financial Secretary—Maud Stickle.  
Treasurer—Carrie Ricketz.  
Warden—Beatrice Stubblefield.  
Conductor—Ethel Humphrey.  
Inside Guardian—Elsie Millard.  
Outside Guardian—Nellie Gibson.  
Musical—Marjorie Pearson.  
R. S. to N. G.—Ella Rogers.  
L. S. to N. G.—Edith Prescott.  
R. S. to V. G.—Lillie Clark.  
L. S. to V. G.—Ella Gould.  
Chaplain—Beale Thompson.

Officers for Rogue River Encampment No. 80 for the ensuing year are:

Chief Patriarch—W. F. Rector.  
High Priest—A. B. Williams.  
Senior Warden—Ed Putman.  
Junior Warden—O. O. Hull.  
Scribe—L. O. Howard.  
Treasurer—E. D. Scripser.  
Guide—J. A. Millard.  
First Watch—Samuel Bateman.  
Second Watch—J. F. True.  
Third Watch—N. J. Wilsey.  
Fourth Watch—H. H. Harvey.  
Outside Guardian—H. L. Leach.  
Inside Guardian—J. W. LaTourrette.

### JOSEPHINE COUNTY MINE ASSOCIATION FORMED AT MEET

GRANTS PASS, Feb. 14.—(Sp.)—Mining men of Josephine county, meeting at the Del Rogue hotel here last week, organized the Grants Pass unit of the Southern Oregon-Northwestern California Mining Association. Nearly 30 mining men were present, including several visitors from Eugene and Medford.

Jack Hoogstraal of Grants Pass was elected chairman. George West, also of this city, was elected secretary-treasurer. Hoogstraal appointed Captain John R. White, B. N. Barnett and George W. Thrasher to serve on the membership committee, and A. W. Yount and W. A. Hutton on the legislative committee.

Objectives of the new organization will be to aid and encourage mining in southern Oregon, especially in this county; influence legislation to help the mining interests, fight unfavorable legislation and to attempt to find work for local unemployed.

George S. Barton of the Medford unit of the association, who was on his way to Salem to appear before a joint house and senate committee on mining, addressed the meeting for a short time and stated that the association was interested in the establishment of a state mining board, modification of the present mining laws regarding liens and in the possibility of having a mineral exhibit from this section at the world's fair in Chicago.

The local organization has no affiliation with any other mining organization, although some of the members belong to the State Mining congress. Twenty members signed up and more will be added from time to time.

Officers in charge of Ladies' Auxiliary to Canton Siskiyou No. 16, who will preside for the coming term are: President—Maud Stickle. Vice-President—Carrie Ricketz. Secretary—Annie Bateman. Chaplain—Karen Bateman. Officer of the Day—Ethel Weed. Officer of the Guard—Lillie Clark. Sentinel—Lillie Demmer. Right Aid to President—Mary Wilsey. Left Aid to President—Elsie Millard. Right Aid to Vice-President—Grace Hamlin. Left Aid to Vice-President—Lottie Howard.

Social activities of the various branches of the order have been curtailed to quite an extent the past several months on account of the same conditions that have affected other organizations, and individuals, and more than the usual amount of relief has been required, as, in addition to the financial stress, much illness has been the rule, and many persons have required relief that under ordinary circumstances would not have been necessary.

The board of trustees of Medford lodge, composed of A. J. Hanby, G. J. Prescott and W. F. Rector, is preparing a program of improvement for the I. O. O. F. cemetery, to be carried out the coming spring, that will do much toward making for the betterment of conditions in general, and for the comfort and convenience of those having business to transact with the sexton.

### CHILD KILLED WHEN Automobile Skids

THE DALLES, Ore., Feb. 14.—(AP) Patricia Walker, five-month-old daughter of Mr. and Mrs. Ernest Walker of Bend, was killed instantly Sunday when a car in which she was a passenger with her parents, skidded and overturned five miles south of Maupin. The child's head was crushed.

### MEDFORD TO MEDFORD RADIOGRAM FOR C-C

Greetings from the Medford, Mass., chamber of commerce to the Medford, Ore., chamber were received today in a radiogram, picked up by George Peckham's station, WTABB.

### PATTON PLEADS COUNTY RELIEF

SALEM, Feb. 14.—(AP)—Hamilton Patton, in charge of the unemployment relief work in Jackson county, was here Monday to urge the governor to take immediate action in naming the Jackson county unemployment relief committee.

With Representatives Ed Kelly and Earl Day, Patton held a conference with Governor Julius L. Meier. The executive promised immediate cooperation and was expected to name the county committee some time today.

### GIANT DEVIL FISH BACK TO DEPTHS

ASTORIA, Ore., Feb. 14.—(AP)—A large dead octopus, armed with 10 long tentacles, two of them more than 22 feet in length, drifted onto the sands of Canon Beach Saturday and was washed off again during the night. Boys, bait hunters and curious seekers chopped off pieces of the long tentacles, which were armed with sucking disks and claws.

### LILLARD PLANNING SKI MEET MATCH

Ski racing will not be the only sport which will attract attention at the snow carnival, according to Promoter Mack Lillard who was here Monday from Klamath Falls, and announced his first wrestling match of the season there February 24. Lillard is featuring Joe Reno, the "New Orleans Flash" and Hal Hebert of Portland. Reno recently figured in a double knockout at Portland.

Promoter Lillard, formerly of Medford, said he had been putting on boxing programs every week in Klamath Falls, and had been drawing the biggest houses for that city in many years. He reported 2000 paid admissions in January, the largest turnout of any city in the northwest outside of any city in the northwest.

Friday night Lillard is featuring Mickey Dolan of Portland and Frankie Monroe of Klamath.

### 'NOW I FEEL FULL OF PEP'

After taking Lydia E. Pinkham's Vegetable Compound That's what hundreds of women say. It steadies the nerves... makes you eat better... sleep better... relieves periodic headache and backache... makes trying days endurable.

Patterns Include Clocks, Stripes and Many Other Designs

All Sizes

\$3.95

They Should Sell For \$5.

Mann's Second Floor

Mann's Department Store

**ILLUSION:** The stage is all set for target practice. The magician lifts his bow and aims an arrow at the bull's-eye. His lovely assistant then steps in front of the target and he shoots the arrow—apparently through her—and it fixes itself in the very center of the bull's-eye! And she smiles through it all while the audience gasps.

**EXPLANATION:** The arrow which the marksman "shoots through" his assistant simply folds up into the crossbow! The arrow which is actually embedded in the target is shot by the girl herself from a belt concealed under her dress. She releases a little spring, the arrow unfolds, and shoots straight into the bull's-eye! It is all done in a flash! So quickly the eye cannot detect the girl's movements! To heighten the impression that the arrow has gone right through, the girl releases a ribbon from the front of her dress—the continuation, apparently, of the ribbon attached to the arrow in the target.

It's fun to be fooled — ...it's more fun to KNOW

Like to see through tricks? Then let's look at another... the illusion in cigarette advertising called "Cigarettes and Your Throat."

The audience is told that by certain magic processes tobacco can be made as soothing as cough medicine.

**EXPLANATION:** The cigarette on your throat is the cigarette that is made from the choicest ripe tobaccos. Cheap, raw tobaccos are, as you would naturally expect, harsh in their effects upon the throat.

If you have to consider your throat, the quality of the tobacco in your cigarette is important.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Camels are as non-irritating as a cigarette can be because Camels use choice, ripe, tobaccos.

And because of the matchless blending of these costlier tobaccos Camels have a rich bouquet and aroma... a cool, delicious flavor.

Keep the air-tight, welded Humidor Pack on your Camels... to assure yourself and your companions a fresh, cool smoke.

**CAMELS**
