AMERICA'S
10 BIGGEST
PROBLEMS
No. 6.
Molding
The Next
Generation

This is the seventh of a series of
articles in which Prof. William Fielding
Ogburn of the University of Chicago
discusses what he considers the
10 big problems facing America.

By WILLIAM FIELDING OGBURN
Research Director, President's Com-
mittee on Recent Social Trends
(Written for the Associated Press)

A baby born today will live on
the average 68 years. The
expectation for a baby born in 1800
was that it would live to be 35
years of age. The length of life has
increased about two-thirds.

This has been made possible by
conquering one disease after an-
other. We know enough now to
stamp out malaria, hookworm, so-
cial diseases and tuberculosis if we
spend the money and organize prop-
erly to do it.

On the other hand, we do not
know enough to stamp out the de-
generative diseases of the kidneys,
of the circulatory system, and can-
cer, many of which set in late in
middle life. For a person who has
reached 45 or 50 years of age the
expectancy for a longer life is about
the same as it was several genera-
tions ago.

So many diseases, however, have
yielded to research since the time of
Pasteur that hope cannot be denied.
Increasing Good Health a Task
There is not only the problem of
reducing disease and of postponing
death, but there is the task of in-
creasing the abundance of good
health. There is a difference be-
tween the absence of ill health and
the presence of buoyant health.

Good feeding in infancy and the
avoidance of illness in childhood are
first steps in a program of more
vigorous health. These two things
are, perhaps, most responsible for
our increased stature.

If all babies were as healthy as this one, one of the nation's ten biggest
problems would be partly solved. For Prof. William Fielding Ogburn says
that good feeding in infancy and prevention of childhood illnesses are first
steps in a program of more vigorous health, which he asserts America needs.
Gains have been made, however, for the expectancy of life for a baby born
now is 68 years whereas in 1800 it was 35 years.

Meteorological Report

February 17, 1933.
Forecasts.
Medford and vicinity: Rain tonight
and Saturday. Somewhat warmer to-
night.

Local Data.
Lowest temperature this morning,
25 degrees.
Temperature a year ago today:
Highest, 58; lowest, 22.

Total precipitation since September
1, 1932, 11.49 inches.

Relative humidity at 5 p. m. yes-
terday, 45 per cent; 5 a. m. today,
88 per cent.

Sunset today, 5:46 p. m.
Tomorrow: Sunrise, 7:03 a. m. Sun-
set, 5:45 p. m.

Observations Taken at 5 a. m.,
120 Meridian Time.

Table with columns: City, High, Low, Cloudy, Clear, Foggy, etc.

CHICAGO RUM RING
SUSPECTS INDICTED

CHICAGO, Ill., Feb. 17.—(AP)—
Seventy-five members of an alleged
liquor ring were indicted by the fed-
eral grand jury today.

The indictments charged them
with conspiring \$6,000,000 in profits
from 60 stills from 1929 to 1932. J.
Peckin, reputed "corn sugar king,"
headed the list of defendants.

Senators Retain
Free Barbershop

WASHINGTON, Feb. 17.—(AP)—
The senate appropriations committee
today approved the \$16,000 legis-
lative appropriation bill without elim-
inating from it funds for the senate's
free barber shop, mineral water and
other items to add to the enjoyment
of senatorial duties.

Trail

TRAIL, Feb. 17.—(Sp.)—February
16 the sun was shining beautifully.
The snow is melting and looks as if
spring is just around the corner.

Mr. and Mrs. Ernie Ernst left for
California to spend a few weeks.

Eight neighbor ladies gathered at
Mrs. Floyd Hutchinson's Tuesday and
quilted for her. A covered dish lunch
was served at noon. All had a good
time visiting and accomplished much
quitting.

McCloud extension unit gave its
play at Sunset-on-the-Rogue Thurs-
day.

Mr. and Mrs. John Ragsdale and
Miss Mrs. of Eagle Point called on
relatives here Tuesday.

Mrs. H. T. Swingle of upper Trail
is visiting Mr. and Mrs. Harry Mer-
riman a few days.

Mr. and Mrs. Harry Merriman shop-
ped in Medford Thursday.

Mr. and Mrs. Boyd Tucker left for
Ashland Monday afternoon to be near
and help care for his mother, who
suffered a slight stroke a few days
ago.

Table Rock

TABLE ROCK, Feb. 17.—(Sp.)—
Stanley Lydiard and family of Med-
ford visited his mother, Mrs. M. Lydi-
ard's farm here Sunday.

Mrs. Lulu Penland, who has spent
several weeks visiting relatives here
and at Medford, returned to her home
at Marshfield Tuesday.

Mr. and Mrs. Frank Hart, who have
been in Portland for some time, re-
turned home Friday morning. Eugene
remained in the Good Samaritan hos-
pital where he is receiving treat-
ment.

Mrs. Una B. Inch, county school
superintendent, visited Table Rock school
Thursday.

Mrs. Geo. Wright returned Friday
from his visit at Merrill and reports
real winter there.

Rev. and Mrs. D. E. Millard and
daughter Betty, of Medford, called at
the R. E. Nealon home Sunday after-
noon.

Mrs. Violet Schafer and children
attended the Boy Scout meeting at
Antioch Sunday.

Mr. H. W. Davidson entertained
his Sunday school class of boys with
a party Friday evening, honoring the
birthdays of Dwight Wilson and Keith
Gregory.

Primary grades under the super-
vision of Winnifred May entertained
the upper grades with a program and
Valentine box Tuesday afternoon.

Twelve visitors, most of them moth-
ers, also enjoyed the program and
treats prepared by some of the girls.

Several persons from here attended
the play, "Deacon Dubbs," at Sams
Valley Tuesday evening, and pro-
nounced the entertainment well worth
the price of admission.

Mrs. W. E. Morris left Thursday

for Corvallis, where she will visit her
son, Edmund Morris, and family.

Mrs. Chas. Dunlap, who has been
quite ill, is much improved at this
writing.

A visit to the shop of L. C. Schafer
in Medford recently revealed quite a
busy place with much electrical and
motor repair work going on. Mr.
Schafer formerly was in the orchard
business here, but since going to
Medford has operated an electrical
repair shop and his built up quite a
trade.

Stanley Lydiard of Medford com-
menced work this week on his moth-
er's place, where he will put in a crop
of grain.

Another important factor is the
increasing knowledge of the chemi-
cal nature of food and the mineral
needs of the body.

Women Outlive Men
The expectancy of life for women
despite the hazards of childbearing
(which are unduly large in our
country) is greater than that of men.
It seems probable that this is due to
the nature of men's occupations.

Specific occupational diseases and
the general industrial wear and tear
on life are problems to be dealt with.
The problem of illness is as well
appreciated as that of any social
problem by our people, and as such
effort and money go into it as into
our other effort toward ameliorat-
ing our lot. Yet it must be included
in a list of 10 major problems. The
effort and appreciation are still not
enough though.

Herbert Spencer, in attempting to
appraise the educational program,
concluded that of all knowledge that
most worth having was knowledge
about health, and also that the first
requisite of life was to be a healthy
animal.

Monday: "How Many Americans,
and What Kind?" For the first time
in history the number of people is
subject to control, says Professor Og-
burn. Numbers affect markets, wages,
labor supply, wars, real estate values,
education expenses and possibilities.
Another question concerns their dis-
tribution in cities, or along the coun-
tryside. The quality of population
is as important as quantity. Shall
the population of the future come
more largely from morons and defect-
ive stock or from the superior indi-
viduals? The people of America
should have a well thought out pop-
ulation policy, Professor Ogburn says
in his next article.

McCloud extension unit gave its
play at Sunset-on-the-Rogue Thurs-
day.

Mr. and Mrs. John Ragsdale and
Miss Mrs. of Eagle Point called on
relatives here Tuesday.

Mrs. H. T. Swingle of upper Trail
is visiting Mr. and Mrs. Harry Mer-
riman a few days.

Mr. and Mrs. Harry Merriman shop-
ped in Medford Thursday.

Mr. and Mrs. Boyd Tucker left for
Ashland Monday afternoon to be near
and help care for his mother, who
suffered a slight stroke a few days
ago.

Charley Blasse, who had the mis-
fortune to have a wood truck tip
over on him is reported to be slowly
improving.

Mr. and Mrs. Walter Benn were
guests at the Maxwell home Sunday.

Mrs. Henry Myra, Mrs. Ed Myra and
Mrs. William Messal visited with
Mrs. H. W. Wright last Saturday.

Lloyd Tucker, who has been at
Bend for some time, returned home
for the remainder of the winter.

Mrs. Margaret Dorman and son,
Maurice of Grants Pass, are visiting
her father, Bill Nickel.

Mr. and Mrs. Jack Heckner spent
several days last week with relatives
at Redding, Calif.

Rev. D. D. Randall of Medford was
a welcome visitor at Sunday school
last week. Next Sunday, the Central
Point male quartet will give a song
service at the close of Sunday school
and it is hoped there will be a good
attendance.

Huey's Bodyguard
Sent From Court
NEW ORLEANS, La., Feb. 17.—
(AP)—Senator Huey P. Long's body-
guard, Joe Messina, admitted he was
arrested today and was ordered out
of the federal court room in which a
senate committee is investigating
John Overton's election to the United
States senate.

Chairman Robert B. Howell of De-
nurska gave Messina orders to de-
part.

CORVALLIS, Ore., Feb. 17.—(AP)—
The Oregon State college co-ed debate
team, defeated a Washington State
college debate team by a two to one
decision here last night.

Adena Joy and Helen Dorothy
Hayden of the Oregon State team,
took the affirmative of the question,
"Resolved, that the United States
should agree to cancellation of inter-
national war debts."
