

RIVAL COACHES PIT GREAT HOOP TEAMS TONIGHT

(By Billy Hulen.)
When Southern Oregon Normal basketball team clashes with the Multnomah Athletic club tonight at Ashland and Saturday at Medford, the glow of a pleasant memory will tug at the rival coaches. Hobson of the Sons and Brooks of the club.

Seventeen years ago in Portland, two persons met; one a youngster not yet in his teens but fired with an ambition to play basketball; the other a young coach not far out of his teens and with equal ambition to be a developer of great teams.

Both have seen their ambitions realized, for the youngster made the team, the first he had ever played on; and the coach, at the head of that team, has since risen to prominence as a maker of champions.

The youngster was Howard Hobson. And the coach was Ray Brooks.

They meet again, these two who started at the bottom together and are now near the top, and they will throw at each other two of the strongest teams in the state.

All the terrific power, the strength and great height of the Sons, Hobson will bring at his first coach. And back will come Brooks with precious experience, burning speed and teamwork that comes only from years of playing together.

Hobson will have Howell in there at center—big, tough Howell. Brooks will have King Bailey of Oregon State to battle him.

Hobson will have Len Yandle and Willie Jones at forwards, two scoring demons. Brooks will retellate with Palmberg from Shanberg and little, flashy, dead-eye Billy Keenan from Oregon.

Hobson will have those incomparable guards, Bud Jones and Dick Jockish. Brooks will counter with Eustis, University of Washington, and Ray Smith, captain and rated the best defensive man in the northwest.

Hobson will have Reeder, Patterson and Pornocook to shove in if necessary. Brooks will have Elkins, Kreitzmeier and the famous Seales, Williamette all-northwest conference man.

Hobson will have a great young team in there battling. Brooks will have a great experienced team doing the same.

It will be a great show when Hobson and Brooks meet again. Don't miss it.

Once Spring Meant Only Horseradish and House Cleaning—Today It's Time of Dazzling New Freshness

There are those among us with not a single gleaming thread of silver in their marcelled tresses, who can remember when Spring was quietly ushered in with horseradish and housecleaning—and little else. But times have changed, and the transition from winter to spring is no longer accomplished by merely discarding red flannels for "light weights," taking the carpets up and the pictures down, and laundering the "front room" curtains. Spring has become a thrilling time of change and newness—a time when everything about us assumes a dazzling new freshness—our home furnishings, our clothing, our automobiles, even our food and the method of preparing it is excitingly new and different.

Statisticians say that women are going back to the sewing machine and cook stove in increasing numbers, but a sewing machine is not an old-style foot-tread—it's a modern electric "whizzer"—the cook stove a gleaming chrome and enamel affair, equipped with the latest gadgets. And the woman operating them is an efficient home manager, who keeps a sharp lookout for the latest styles and improvements in household equipment and the newest methods of preparing the daily meals for her family.

And just as the trend of fashion in gowns, hats, home furnishings and automobiles leans more and more toward simplicity, so also is cookery acquiring a new ease of preparation, and meals are all the more delightful because of this change in cooking fashion.

There is a new cooking fashion as simple and as sound of principle, as sure to meet enthusiastic approval as the new stream-line designed automobiles. Cracker cookery! This new cooking method that marches crackers in gay procession right into the mixing bowl, the saucepan, and the oven, is not just a passing vogue, but a "style" whose popularity will increase by leaps and bounds as the housewife, herself, discovers tasty new dishes that she can so easily prepare with crackers.

Cracker cookery makes the company meal an every day affair, for the modern housekeeper does not deliberately serve a plain looking unpalatable dish when she knows how to prepare a more inviting one with greater ease—and greater thrift.

ELECTRICITY

The Housewife's Greatest Time and Labor Saver --Brings a New Meaning To "Spring"

SELDOM do we stop to think just how important a part ELECTRICITY plays in the emancipation of the housewife from the drudgery of housework. Cooking and baking is simplified through the use of clean, quick, efficient electricity... the percolator, toaster, waffle iron and food mixer are all time and labor savers. The vacuum sweeper, electric refrigerator and washer—all tend to make home work easier—to provide added hours of recreation and rest for housewives—and ELECTRICITY is cheap in Medford—less than half the national average! (Average domestic rate per kilowatt hour for the United States in 1931 was 5.7 cents... the average for the Medford district was 2.38 cents per kilowatt hour).

Beware the Cough or Cold that Hangs On

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified crocote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, crocote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to crocote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the crocote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist. (Adv.)
