OPERA PINAFORE IS OLD FAVORITE

Gilbert and Sullivan are known to music lovers as the "deans" of light opera. One of the best operas for high school production ever written is their H. M. S. Pinafore. Pinafore has its background England of 1878. It is a genuine English product, humorous and delightful. The bubbling melody combined with clever lines go straight to the heart of the opera lover. It was originally produced in London and was played for 700 consecutive nights to enthusiastic crowds. Its fame and popularity soon spread throughout the world. In 1879 it was produced in America for the first time and in the years that followed, it spread throughout the United States. This opera has been especially popular as an amateur production and thousands of high school casts have produced it during the past 20 years.

Among the high school students taking part in the present Medford High school production of Pinafore are many whose parents, grandparents, sisters or other relatives have carried parts in the same opera in years past. Dorothy Burgess, piano accompanist, is proud of the fact that two grandmothers, two grandfathers, her father and mother, have at some time in the past carried important parts in H.M.S. Pinafore. Ralph Burgess is assisting very materially in this production of Pinafore by his suggestions concerning stage business which only a man with long experience with such productions would be able to offer.

The opera will be produced for the public on Friday evening, February 24th. A matinee performance for grade school and junior high school pupils only will be given Wednesday afternoon at 2:00 o'clock. No admissions will be sold for adults or senior high school students for this performance.

FEHL IN TANTRUM WHEN REQUESTED HALT SYNDICALISM

To the editor:

In regards to this epidemic of rotten politics, I want to state on February 15th I appeared before the Honorable County Court of Jackson county, stating that I wanted to make a request of the court. Judge Fehl said "Go ahead." I wanted to make my statement, the lady stenographer asked my name I presume to take notes of what I said. I stated, knowing that I was within my rights as an American citizen, I wished to make a request of the court to stop the use of the assembly hall in the court house for seditious, inflammatory, inciting remarks. Judge Fehl motioned the lady to stop taking notes and he hollered at me "I won't hear it." I replied, "Wait a minute, you have not let me finish stating my request."

He replied, "I won't hear it, you are a disturber, demanding me to stop your meetings." I replied, "Wait a minute, don't put in, and beg of you to let me make my request, as you have not heard what I wish to say." He exclaimed, "I was told that you were down in the meetings, causing a disturbance." I answered, "Whoever told you that was a falsifier."—that was not the word I used but I have to be careful and not use Texas words in Oregon on paper.

"I want to state, Earl Fehl, that you are telling a falsehood, same as you made the remark in our tangling confab that I demanded of the court to stop those meetings." Thanks to Neilson for saying "Burton made a request and not a demand."

Mr. Fehl, why did you stop the stenographer, and not let the words

said between you and I be reported? I wish it were in the Journal, so your friends could read it, and I wish you could have had a kodak and have taken your physical extortions so your friends could see your actions in the honorable court, lowering the dignity of the said court.

Now Fehl, I call on you to swear out a warrant for my disturbance, and produce your informer and as many more as you feel like. Thanks, Mr. Billings for asking me to remain. I believe I know what you wanted to do. You wanted to get the law presented to show that I was within my rights to make a request of the county court.

It was not alone me that riled the honorable county judge in that wage case, when Deputy District Attorney Neilson was called and tried to read the law on the question. After Judge Fehl, throwing his arms, "To hell with this, and damn that," take notes of what I said, "I'm not going to have nothing to do with it; Neilson replied, "I was called in to read the law." Mr. Neilson attempted to read the law, but he was stopped by the maniacal conduct of your honorable county judge. Mr. Neilson stated "Coding has given an opinion backed by the opinion of the attorney general." Judge Fehl exclaimed, "I would not believe anything George Coding says." Neilson replied, "It was not a personal matter, he was called upon to read the law which I do not believe he ever had the chance."

Mr. Billings, Mr. Nealon, I commend you both for your patience, contending with the fermented brain of ignorance. Oregon, burn up your law books, we have two master minds that will tell you what to do, they are the master minds of the "Good Government Congress,"—Banks and Fehl.

Do as they say, or suffer the consequences. They are causing more contention in this county, than anyone I know of. People of Jackson county, I come through the papers stating this so that you can understand what officers have to put up with. Judge Fehl publishes a paper, he

always wants to make a grandstand play and let the public know of his actions in your court and your behalf. Now get this, he was too cowardly to let the stenographer take the remarks that were made between him and myself. Good people, I want to call your attention to the Boloff case, Multnomah county, Oregon, without friends, only a member of the Communist party, a poor man, ignorant of the law, was given two years in the "pen," contracted tuberculosis and died. Then the scoundrels who had caused his death through their seditious teachings, waited to parade the streets with his casket and let the path be strewn with flowers. Did this bring the poor unfortunate back?

I'm trying to put this before you, Americans, he was only a member and was convicted. With half of the testimony that had been given to the people of Oregon was seditious remarks that has been placed before your eyes in these "good government" meetings which are opened with a prayer and hell raised afterwards.

Take the advice of an old fool, and if you signed a Good Government card and have not taken any leading part in these meetings, tear the card up for the syndicalism law is far-reaching. My last words in this turmoil, I want to call your honorable county judge's attention, if his Highness can select three intelligent citizens to call upon me, that I am disturbing the peace of the good people of Jackson county, and publish their names, and they have not caught the disease of the epidemic, I will be on my way to Texas where I understand their language, where a few that do not follow a woman's dress and get behind and raise hell with the public.

Fehl, I want to call your attention to your actions and language that you used before that lady, it would not be what you think in Texas. In my humble position to make a request to the county judge, I'm afraid to appeal to the authorities to stop these meetings in any building that will allow the remarks which are un-American. I want to commend the

business men and all others in Jackson county who are taking part and making Medford a valuable asset to the state of Oregon. Fardon me, I mention in conclusion I have written three of these letters and tore them up, trying to say something and not infringe upon the law, for you know an individual, especially a por devil, has to be careful what he says. You want to belong to an organization so you can parade around and make a show. I don't believe Judge Norton, District Attorney Coding, Commissioner Neilson will be at the big meeting Saturday, but good people you see you have been mis-informed and misled again.

But come, it is a big advertisement, whether the actors are there or not as advertised. Paper has given out and I must quit. You go down an alley by a home, see any inflammable material stacked against a home, a man with a match is nearby. The match is a good thing, lighting pipes, cigars, fires for cooking and heating, it is innocent, but strike it and place it to the fuel in the alley, makes a flame and burns the house; later coming back, we see a pile of ashes. It was a good house to live in but not the ashes. It was inflammatory, inciting, seditious remarks that was taught to the poor degenerate that fired the shots at the president-elect, mayor and others. It was not the degenerate, it was from the remarks that he had heard. If that teaching had been taken away from him he would not have pulled the trigger of a gun to take the lives of those who have not harmed him.

Oh what's the use, I want to state I hold no one responsible for my actions or words that I may say. I'm prompted by no one. If these articles
