

HOOVER URGES 7 MOVES TO SPEED ECONOMIC TURN

Opposition To Domestic Allotment Plan For Farm Relief Stated Unexpected Message To Congress.

WASHINGTON, Feb. 21.—(AP)—President Hoover, in a special message to congress sent unexpectedly late yesterday urged seven moves to promote "economic recovery," and stated his opposition to the domestic allotment plan of farm relief as "wholly unwarrantable."

Some measures looking to the promotion of economic recovery, the president said, have been so far advanced during the present session "as to seem possible of enactment" before March 4. He listed them numerically.

Bankruptcy Bill First.
First in the list Mr. Hoover placed the bankruptcy bill passed by the house saying its enactment is "of the most critical importance in this period of readjustment."

He urged also ratification of the Great Lakes-St. Lawrence seaway treaty, enactment by the house of the general principles of the Glass banking bill, and authority for the reconstruction corporation "to increase the amount of loans to states and municipalities for purposes of assistance to distress on the same terms as the present act."

After lashing out at the domestic allotment plan, the president recommended also repeal of the authority under which the house may give publicity to lists of the reconstruction corporation.

Loan List Misread.
Saying the transactions should be open to members of congress, Mr. Hoover asserted, however, that publication of the full list of loans had led to "widespread, mostly innocent misinterpretation, vicious in effect by depositors and alarmists who do not recognize that such borrowings represent an endeavor of the institution to provide funds needed in service to their respective communities."

"This publication," he added, "is destroying the usefulness and effectiveness of the reconstruction corporation, is exaggerating fears and is introducing new elements of grave danger. It is drying up the very source of credit. The effect of such publication is forcing payment by distressed debtors to replenish bank funds. It is causing the hoarding of currency."

No. 12 Deduction For Business Expenses
Deductions for business expenses form a large item in the return of many taxpayers and must have certain qualifications to be allowed. Such deduction must be for an expenditure in connection with the maintenance and operation of the taxpayer's business or business properties; it must be an ordinary expense and it must be a necessary expense. In insisting upon the latter qualifications, the Bureau of Internal Revenue is upheld by the Board of Tax Appeals and the courts. Ordinary and necessary expenses are only those which are usual and essential in the case of similar taxpayers, "and do not include extraordinary and nonessential expenses."

Typical business expenses of a mercantile establishment are amounts paid for advertising, hire of clerks and other employees, rent, light, heat, water, stationery, stamps, telephone, property insurance, and delivery expenses.

The expenses of a manufacturing business include labor supplies, repairs, light and heat, power, selling cost, administration, and other similar charges.

The farmer may deduct all amounts paid in the production, harvesting, and marketing of crops, including labor, cost of seed and fertilizer used, cost of minor repairs to farm buildings (other than his dwelling), and small tools used up in the course of a year or two. A taxpayer may deduct more than one business and claim the business deductions of each.

NORTON PRAISED BY LAST PANEL AS FINE JURIST

The following public tribute to Judge H. D. Norton, from members of the outgoing panel of the 1932-1933 jury, was made public today in view of the fact that there is and has been a determined effort to blacken the name of Judge Norton, and arouse the people of Jackson county to bring about his recall.

The following signed statement by those who worked with him and know from personal experience, the methods and character of the man, is regarded as of extraordinary public importance: To the People of Jackson County:

We, the outgoing panel of the 1932-33 jury, wish to express to the people of Jackson county thru the public press our very great admiration for Judge Norton.

He has been absolutely fair, free from prejudice and courteous to everyone who has entered his court room during the term of this jury.

Many know and recognize his legal ability which is evinced by his record in appealed cases, but fewer know him as Judge and Man. We, who have worked with him, wish to testify to his incorruptible justice, his wisdom and his kindly good sense. He has never failed in his patience and understanding with jury, witness and counsel.

We feel it a great privilege to have served with him. (Signed)

DON'T TRIFLE WITH COMMON CONSTIPATION

Kellogg's ALL-BRAN Brings Relief

Constipation gets its grip on a person almost unawares. It often starts with such little things. Headaches. Listlessness. Bad complexion. Unpleasant breath. If unchecked, it may seriously impair your health.

Fortunately, you can avoid this danger by eating a delicious cereal. Laboratory tests show that Kellogg's ALL-BRAN provides two things needed to overcome common constipation: "bulk" and vitamin B. ALL-BRAN is also a rich source of iron for the blood.

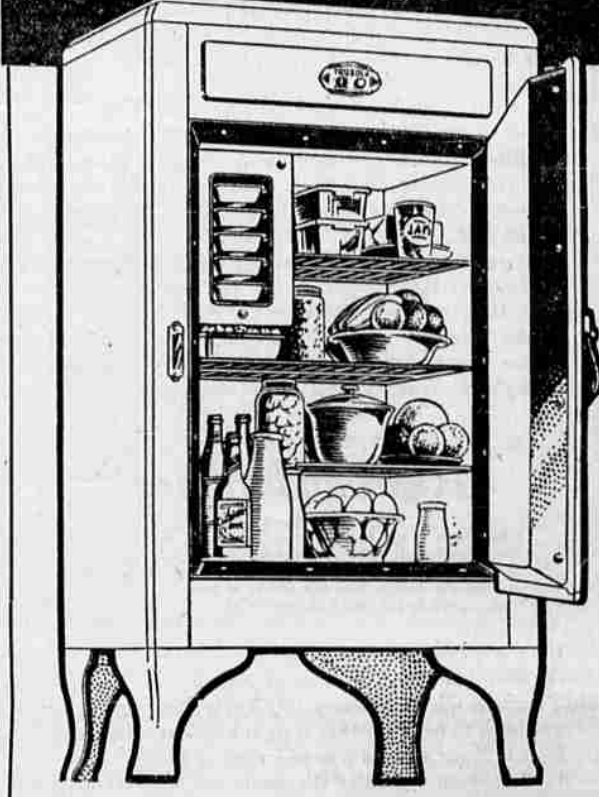

Biological tests demonstrate that the "bulk" in bran is similar to that in leafy vegetables. Inside the body, it forms a soft mass, which gently clears out the intestinal wastes.

How much better than taking unpleasant patent medicines. Two tablespoonfuls of ALL-BRAN daily are usually sufficient. Serious cases, with every meal. If not relieved this way, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.
