

FEBRUARY COLD BELOW AVERAGE PAST 22 YEARS

Meteorological notes for February, as compiled by W. J. Hutchinson, meteorologist of the Medford weather bureau, show temperatures averaged unusually low for the month and established a new record for the coldest February in 22 years in Medford. Both maximum and minimum temperature means were several degrees below the 22 year average. In comparing the records it is found that the average February temperature since 1912 is 42.3 degrees while that for February, 1933, was 37.7 degrees. The previous lowest average occurred in 1917 with a mean temperature of 38 degrees. No unusually low temperatures were recorded during the month but both maximums and minimums were consistently below normal. Throughout February a monthly highest temperature of 56 degrees occurred on the 20th and the lowest was recorded at 17 degrees on the 10th. Daily ranges in temperature were not large, averaging 18.6 degrees with 39 degrees as the greatest range and six degrees as the least. The month has for the 22 year record an extreme high of 74 degrees and an extreme low of 13 degrees. Precipitation, mostly in the form of rain, was of wide distribution throughout the month. Light rains in unmeasurable amounts were frequent. A maximum 24 hour total of .66 inches fell on the 15th and 16th. Total monthly precipitation amounted to 1.15 inches, being far short of the normal. A deficiency of 1.21 inches is shown. The seasonal total also fell below normal as a result of February's shortage. However, from all indications moisture has been plentiful and storage ample. The seasonal figures at the close of the month were: total 11.78 inches, normal 12.99 inches, deficiency .21 inches. There were occasional snow flurries, mostly mixed with rain, and with the exception of 0.1 inch on the ground on the 8th, no snow remained on the ground but melted as it fell. Snows were more frequent and heavier in the mountains surrounding the Medford valley. North winds prevailed and the total wind movement amounted to 3,442 miles. The average velocity was 5.1 miles per hour with the highest velocity registered from the northwest at a speed of 24 miles per hour on the 23rd. The absolute record maximum velocity for February is 39 miles per hour. Solar and lunar halos were occasionally visible during periods of high overhead cirrus stratus clouds. Dense fog occurred on several dates early in the month and on the 17th, all of which were of short duration. Data by days follows:

High-Piece Wedding Social Event, Salem. Amid a profusion of palms, ferns, pastel flowers and candelabra with lighted tapers of pink and yellow, one of the prettiest home weddings of the season was solemnized Saturday afternoon at 4:30 o'clock at the home of Miss Helen Charlotte High of Eugene, daughter of Mr. and Mrs. Hubert G. High, became the bride of Archie Carlton Pierce, son of Mrs. Laura Pierce of this city. The service was read by Rev. G. V. Falls at the home of the bride's aunt, 1415 Siskiyou street.

Proceeding the ceremony Don Eva, member of Sigma Alpha Epsilon at the University of Oregon, sang "I Love You Truly" and "At Dawning." The Loehring wedding march was played by John Stark Evans, professor of music at the University of Oregon, and well known organist.

The bride, wearing in a gown of white satin with veil of imported French lace, entered the room on the arm of her father. Her veil, arranged with orange blossoms, formed a long train, carried by Barbara Culbertson and Kenneth Bratney, niece and nephew of the bride groom. The bride's bouquet was a shower of white rose buds and lilies of the valley and her only ornament a string of pearls. Miss Edith Ayer, maid of honor, wore a gown of yellow organdy with pink gerbera, marking the high waistline. She carried sweetpeas and snapdragons. Laura Lee Thomas, dainty in a frock of pink, acted as ring bearer, and Shirley Coats, also in pink, followed the maid of honor, strewing rose petals in the bride's pathway. Walter Smith of Medford was best man for the bride groom and Messrs. Melvin Coats and Cecil Evans were ushers.

Immediately after the ceremony a reception was held at the High home and the wedding cake, the gift of Mrs. Anderson of Eugene, was cut by the bride. In the receiving line with the bride, Mrs. Pierce's mother, the bride's mother, lovely in beige crepe and lace with corsage of gardenias. Mrs. Pierce formerly lived in Ashland, where she graduated from the Southern Oregon Normal school. She later taught in southern Oregon for two years and for the past two years has been instructor of music at the Britannia school in Springfield, just out of Eugene. She is also a student at the university and a popular member of Eugene society. She sings in the Methodist church choir, directed by John Stark Evans. She is also a member of the A. A. U. W.

Mr. Pierce is a successful business man in this city, owning and operating the Pierce Auto Freight. He is a former student of Oregon State college and an active member of the First Christian church, Rotary club and the Multnomah Athletic club. For her going away costume, Mrs. Pierce wore a dark blue traveling suit with white fox fur and harmonizing accessories.

The couple left by plane for southern California, where they will sail on the S. S. Monterey for Hawaii, where they plan to spend their honeymoon.

JACKSON COUNTY YOUTHS SIGN UP FOR ARMY CAMP

VANCOUVER BARRACKS, Wash., March 6.—(Spl.)—Camp Huriburt, a base for hundreds of Oregon and Washington high school youths during the annual Citizens' Military Training Camp, again will have a quota of 800 students, and Jackson county's quota will be 10. It was announced today by authorities under direction of Brigadier-General Stanley H. Ford as the annual enrollment campaign was launched. The camp this year will run from June 23rd to July 22nd, and as was the case in 1932 it is expected that the quota will be far over-enrolled, and the authorities' hardest job will be the necessity of refusing applications from deserving youths who have applied too late. There are already 14 applications from Jackson county on file, which are part of a total of 535 so far received. Most of these early requests for admission to the 1933 camp are from students who attended the camp last year or in a former year.

Early applicants from Jackson county are: Stuart T. Chisholm, Gold Hill; Linsley B. Dorman, Gold Hill; Albert C. Gaddis, Medford; Arnold K. Horton, Gold Hill; Walter B. Kindred, Medford; Wendell T. Patrick, Medford; Philip C. Quisenberry, Medford; Marion E. Richardson, Sams Valley; Jack W. Samuels, Phoenix; Eugene Scherrer, Phoenix; Woodrow W. Shaver, Gold Hill; Charles R. Smith, Phoenix; Harry S. Steele, Medford; Willie C. Vincent, Medford, and Walter J. Young, Medford.

General Ford has appointed Captain Carl Y. Tengwald, Medford, as chairman of the enrollment program for Jackson county, and the campaign will be carried on in cooperation with the county chairman and his assistants so that all details will be completed well ahead of time and confusion will be eliminated from the process for the boys accepted.

ASHLAND MAN HERO; SAVES CHILD FROM DEATH BENEATH LOG

ASHLAND, Ore., March 6.—(Spl.)—Casting himself in the path of a log which was rolling down the hill on the Yockey place above Wimer street, W. H. Worthington, who resides on Laurel street escaped with minor injuries Friday afternoon, when he saved five-year-old Gwendolyn Burnett, daughter of Mr. and Mrs. Guy Burnett from injury and possibly death. The little girl was playing on the hillside when Mr. Worthington, who was working on the Yockey place, saw the log rolling down the hill, gathering speed as it traveled. The little girl was directly in the path of the swiftly moving wood. Mr. Worthington leaped to her rescue and pushed her to safety just as the log struck him. A cut on his head, a fractured rib and bruises were suffered by Mr. Worthington, who although not seriously injured, was badly bruised and will be unable to work for several days.

DANCING ON GLASS. IT'S FUN TO BE FOOLED... IT'S MORE FUN TO KNOW. One of the tricks of cigarette advertising is to pretend that "Heat Treatment" is an exclusive process, making one cigarette better than any other. EXPLANATION: All cigarette manufacturers use heat treatment. It is a routine process of manufacture. The first Camel cigarette ever made was manufactured under the heat-treating process. Every one of the billions of Camels produced since has received the necessary heat treatment. Harsh, raw tobaccos require intensive processing under high temperatures. The more expensive tobaccos, which are naturally mild, call for only a moderate application of heat. Heat treatment never can make cheap, inferior tobacco good. It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand. This is the most important statement ever made in a cigarette advertisement. Weigh its words. Consider what it means. Then try Camels. Camels are fresh... in the air-tight, welded Humidor Pack. NO TRICKS... JUST COSTLIER TOBACCOS IN A MATCHLESS BLEND.
