

YOUNG TALENT ON DETROIT PAYROLL ENCOURAGES HOPE

Bucky Harris Says 1933 Edition of Tigers Finest Team He's Ever Managed — Rowe Is Hurling Find

By BILL PARKER (Associated Press Sports Writer.)
SAN ANTONIO, Tex., Mar. 17.—(AP) A kid battery, inspired by the managerial wisdom and confidence of "Bucky" Harris, and the offensive and defensive punch of a young infield and outfield, causes Bucky Harris of the Detroit Tigers to say without qualification this year's team is the finest he ever has managed.

Speed a Feature.
"The Tigers have speed on the bases, speed and punch in the outfield, with a balanced infield and a splendid mixture of veterans and youths on the pitching staff," explained Harris, "and believe me, I expect them to make trouble for any team nursing any ideas about the American league pennant."

The pitching part of the kid battery will be Lynwood "Schoolboy" Rowe from Beaumont, of the Texas league, where last year he won 19 and lost 7.

Harris has enthroned Rowe as the king of pitching rookies. He firmly believes this 209-pound rightminder will demolish much of Cleveland's and Philadelphia's batting power and do a fair job of eradication against the Yankees. Rowe has a side-arm curve and fast ball, with a stout heart and nest for pitching.

His Own Catcher.
Frank Reiber, Beaumont catcher last year, is the other half of the kid battery. Harris will carry Reiber on the payroll especially to catch Rowe. Reiber batted .315 last year.
Veteran hurlers who are assured of positions are Thomas Bridges, who pitched an almost perfect game for Detroit last year and finished with the low earned-run average of 3.36; Charles Fisher, secured from St. Louis; Fred Marberry, formerly with Washington; Eon Hoenes, Victor Sorrell, George Uhle and John Whitlow Wyatt.

Ray Hayworth is expected to retain his first string catching job and Eugene Desautels will be his relief. First and second are not problems. Harry Davis at first and Charlie Gehringer at second form the combination.

Davis Fine Fielder.
Davis, classified by Harris as one of the finest fielders in the American league, is expected to raise his batting average above last year's .260. Gehringer, a great fielder and consistent hitter, is the pillar of the infield.

Henry Greenberg, giant 210-pound Beaumont first baseman last year, is the infield gamble for third base.

Gerald Walker in left, Ervin Fox in center and John Stone in right settle Harris' outfield problem. Walker and Stone were with the Tigers last year. Fox played with Beaumont and his .357 average led the Texas league in hitting.

'EMPTY GUN' BLAMED IN DEATH OF YOUTH

PORTLAND, March 17.—(AP)—Another fatality was charged against an "empty" gun when Walter O'Brien, 21, died last night. The youth, a student at the Oregon Institute of Technology, was accidentally shot in the chest March 11 while he and Bud Thompson were examining the latter's recently acquired revolver. They were attempting to "break" the weapon when it was discharged.

BOY CRAFTSMEN OF HIGH SCHOOL BANQUET HOSTS

The Future Craftsmen association of the Medford high school, recently organized by students of the manual training department under the direction of Leland A. Mentzer, head of the department, gave their first public function at the school last evening.

A banquet, prepared and served by the young ladies of the food classes, was enjoyed by about 60 members of the organization and guests. The guests included the employers of nine apprentice employes who are doing part-time work, and several other business men of the city, also Walter W. Morse, instructor, and four members of the Grants Pass Future Craftsmen association.

Mr. Mentzer presided and short talks were made by Robert Sparks, the president of the Medford club, and Harry Hagburt, president of the Grants Pass club. E. R. White of the White Machinery company of Medford, spoke for the employers of the apprenticed boys, stressing the benefits gained by combining school training with part-time actual experience in business organizations.

O. D. Adams, state director of vocational training, gave an instructive and inspirational talk on vocational training which is being given not only in the schools but also among adults who are outside of the schools. He stated that his department is now giving instruction to 600 adults in this state in the vocation of mining. The schools of the state are cooperating splendidly with his department, he said, and he complimented the Medford high school for having the best system of instruction in the state of Oregon.

Following the banquet, pictures of the General Electric company activities and other views were shown by Horace Bromley of the California Oregon Power company. The program closed with the initiation of the new Medford association members by the

president and members of the Grants Pass association.
