HELPS FOR HOUSEWIVES:

VARIETY OF USES FOUND FOR LEFTOVER PIE DOUGH.

Leftover pie dough should be securely wrapped in waxed paper and stored at once in a very cold place. It may then be used any time within a week.

Strips of dough 1/4 inch wide and 2 inches long, sprinkled with cheese and browned in a moderate oven are tasty to serve with appetizers, soups or salads.

Bits of the dough may be rolled out and fitted into shallow patty pans and when baked the cases serve as containers for creamed foods, pie fillings or fresh or canned fruits.

A circle of pie dough fitted over the top of creamed meat, fish or fowl placed in a baking dish develops into a "pot pie."

Don't Make Food Monotonous

The manner in which a food is presented has much to do with forming a child's likes or dislikes.

Vegetables, fruits, cereals, eggs and meats lend themselves to much variety in cooking. It is unnecessary to make meats monotonous by overworking one type of dish.

white sauce over every vegetable. Used too often it makes food taste and look the same.

Sweets for the Children. Suitable sweets for children include raisins, dates, jelly, jam, preserves, fruits that are raw, ripe or cooked, simple candies, cake and cookies that are not too sweet, custards, puddings, ice cream, fruit sherbets and other simple desserts.

Use Liver in Varied Ways. To use the cheaper kinds of liver grind it and combine it with other foods for such dishes as creamed liver, liver hash, liver and rice loaf and liver croquettes.

Liver salad may be made from chopped liver, raw cabbage and onions.

One cup of milk heated and added to 4 tablespoons of sugar, 1 teaspoon of cinnamon and 1/2 teaspoon of vanilla makes a good sauce to serve with apple dumplings.

To encourage convalescing children to eat, color the gelatin desserts in different colors and place in molds.

Timely Tips On Cooking, Homemaking, Child Care

Then they will appeal more to the youngsters.

Serve orange marmalade with hot biscuits, graham gems, waffles or toast. It makes a very good filling for graham bread sandwiches.

Serve These Foods Every Day. Every day the family should have the following foods: Cereal in porridge or pudding; potatoes; tomatoes or oranges for children; a green or yellow vegetable; a fruit or additional vegetable; milk for all.

FILLINGS MAY BE WASHED WITH FEATHERS IN THEM. Pillows may be washed without removing the feathers.

Scrub in weak washing soda solution, using a good brush. Repeat in a second stage if necessary. Rinse in two or three lukewarm washes.

Soak in warm water and place on sheet in a warm place, preferably in the sun. Beat pillows at intervals while drying.

To Keep Red Cabbage Red. Red cabbage, when cooked, fades to an unattractive dark purple.

Bring back the original color, advise federal food experts, by adding a little vinegar or lemon juice just before serving.

To Remove Scorch Stains. WASHINGTON—Scorch stains can be removed in any one of three ways, advises the bureau of home economics.

If the stain is light, soap and water will remove it. The second way is to wet the spot with water and expose to the sun for a day, longer if necessary.

The third is to place a cloth wet with hydrogen peroxide over the stain. Next place a second cloth, a dry one, over the two layers and iron with a medium warm iron.

Ironing directly on the cloth wet with hydrogen peroxide leaves rust stains.

Leftover egg yolks should be placed in a cup, have a tablespoon of cold water added and then beaten for one minute with a fork.

The yolks may be used any time during the next week if they have been stored in a very cold place.

Make Stove a 'Cooking Center'. The stove should be a "cooking center." Near it should be grouped frying pans and other utensils that are put on the stove to heat before food is placed in them; pan covers, forks, spoons and ladles used in cooking; and pepper.

TIPS ON WEIGHING FOOD.

For the housewife who weighs her food purchases, government experts have issued the following guide: One dozen eggs of medium size weighs about one and a half pounds; for bread baked at home allow one pound of flour for one and a half pounds of bread; one pound of dried fruit corresponds to about four or five pounds of fresh fruit.

Hard sauce made with brown sugar in place of granulated or confectioner's sugar is a nice change and the sauce will blend well with baked or steamed puddings.

When cutting cream pies dip the knife in warm water and none of the filling will stick to the knife.

JOBLESS GET WORK

BEAUTIFYING PARKS

NEENAH, Wis.—(P)—This city is having its face lifted and aiding its depression victims at the same time.

Several score unemployed have been given work transplanting elm, oak and maple trees from a woods 10 miles from town to city parks and parkways, under the supervision of landscape artists and foresters.

The trees originally were selected for transplanting at the Century of Progress exposition in Chicago, but the plan was abandoned. Previous to this project the city's relief work included a tree-trimming enterprise.

50 KILLED WHEN TRAINS COLLIDE

MUKDEN, Manchuria, Mar. 17.—(P)—Fifty passengers were killed and more than 70 others injured last midnight when a freight train crashed into the rear end of a passenger train between Changchiastun and Supingkal. The passenger train had been delayed by a partial derailment. The majority of the victims were Chinese. The rest were Japanese. The freighter was eastbound from Changchiastun, or Kichowian, which is less than 100 miles east of the northern Jehol border and about the same distance north of here. The passenger train, which had been headed in the same direction, was stopped.
