

FITCH, ANOTHER AIDE OF BANKS LANDED IN JAIL

L. E. Fitch, courthouse corridor and Medford Daily News office frequenter, when the latter was under the control of L. A. Banks, was placed in the county jail this morning, charged with criminal syndicalism. He was brought from the hospital to a cell. Last Thursday morning Fitch halted a local man and allegedly made a slurring comment. He was beaten on the head so severely, it was necessary to remove him to the hospital for treatment. Since the first of the year he has been one of the most persistent loungers at the courthouse. Several complaints have been filed that Fitch was making veiled threats against visitors to the courthouse.

Fitch is also named as a co-defendant with L. O. Van Wagen, as aide of Henrietta B. Martin, in her attempted buggy-whip attack on Leonard Hall, editor of the Jacksonville Miner, when the woman leader of the "Good Government Congress" took offense at an item appearing in the weekly.

Fitch claimed to be a forest service employee. The U. S. forest service says he has no connection with that department.

Fitch's bond was placed at \$7,500. Now held in the county jail on criminal syndicalism charges are, besides Fitch: Mrs. Henrietta B. Martin, president of the "Good Government Congress," her father, C. H. Brown, secretary of the organization, also facing trial for "slandering a bank"; Edwin L. Makemua, self-proclaimed minister, the "noise and rump" orator of the "congressional" sessions, who at one meeting advocated the "seizure of Jacksonville county;" Andrew H. Simpson, Jacksonville, a miner, who was rebuked by Justice Coleman for charging a "frame-up." On the night the ballots were stolen Simpson attracted attention by standing on the platform ledge where all could see him; O. R. Kring, spiritualist minister, who read an original poem at the same meeting; L. O. Van Wagen and Joe Buch are also held.

Further criminal syndicalism warrants will be served, it was claimed. The courthouse today enjoyed the greatest calm and quiet since the first of the year. There were no looters in the corridors and no agitation. Public revulsion and the fact that by jail was given as the reason for the change. Vigorous sentiment expressed throughout the county demanded that the courthouse halls be kept clear of loungers, and cease to be an agitation center. The county court plans an order to this effect.

to the cause of peace and unity in this sadly torn community, and why it is that his memory should be honored lovingly through all the years to come.

HOW shall we honor George Prescott's memory

Bob Ruhl, the editor of this newspaper, has offered a fine suggestion. Instead of spending a large sum upon a monument, he says, let us put the money into a trust fund, the income from which will be used for the support of George Prescott's dependents.

It is a fine idea—practical and sensible, as well as conveying a beautiful sentiment.

BUT couldn't we go just one step farther?

Why not, somewhere in the city park, put up a simple plaque that would tell briefly, for the benefit of those who will come in the future, the story of George Prescott's sacrifice of his life for the welfare of his community?

THEN, in the better days that are coming, after the hatreds and the suspicions that have been so needlessly and so cruelly sown have withered and died, we can stand before this plaque and say simply:

"Here was a good man, a man who did not hesitate to give his life in the performance of his duty; the giving of whose life shocked us out of the terrible state of disunity into which we had fallen and brought us back to sanity.

"As long as there is a Medford and a Jackson county, we shall never forget the services he did for us. That is a pledge.

Junior Girls' League Honors Freshman Group

(By Mildred Buckles.) The Girls' League of Junior high school entertained with a party Friday evening, March 17, in honor of the freshman class, using the St. Patrick's day motif for the decorations. They were carried out very beautifully with green and white streamers, green hats, snakes and shamrocks. The decorating committee headed by Louise Cowden, chairman, won much praise on the attractive setting.

Following the short program, which included tap dancing, readings and a piano solo, the initiation of the freshmen into the Girls' League took place. The rest of the evening was spent in dancing, after which dainty refreshments of shamrock cookies and green candy snakes were served by the refreshment committee.

The music for the dancing was ably furnished by the Girls' League orchestra, under the direction of Miss Arnold.

GRANGE MASTERS AND C. OF C. BOARD MEETING TONIGHT

An important meeting of the grange masters of Jackson county and the board of directors of the Medford chamber of commerce is scheduled for tonight at the court house auditorium, according to W. S. Bolger, chamber of commerce president.

The meeting is being called at the request of the grange masters, and it is expected that as a result, a definite agricultural program will be put into operation by the chamber of commerce. A large part of the activities of the chamber of commerce this year will be devoted to the development of the agricultural sections of Jackson county, and the grange masters will undoubtedly offer many suggestions regarding those things which the farmers believe the chamber of commerce can do in order that the rural districts may benefit thereby.

Indications are that a hundred per cent attendance will be on hand both from the grange masters and from the chamber directors.

A PRODUCT OF LEVER BROTHERS CO.

It's FUN TO BE FOOLED

...IT'S MORE FUN TO KNOW

A trick frequently worked in cigarette advertising is the *illusion* that mildness in a cigarette comes from mysterious processes of manufacture.

EXPLANATION: All popular cigarettes today are made in modern sanitary factories with up-to-date machinery. All are *heat treated*—some more intensively than others, because raw, inferior tobaccos require more intensive treatment than choice, ripe tobaccos.

The real difference comes in the tobaccos that are used. The better the tobacco, the milder it is.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

That is why Camels are so mild. That is why Camels have given more pleasure to more people than any other cigarette ever made.

It's the secret of Camels' rich "bouquet"... their cool flavor... their non-irritating mildness.

Give your taste a chance to appreciate the greater pleasure and satisfaction of the more expensive tobaccos.
