

BANKS' HENCHMEN ARE NOT WANTED IN ODD FELLOWS

Whereas, a state of affairs has been for some weeks past in existence in Medford and Jackson county that has been a menace to society and good government and the orderly conduct of the peace and well being of the community; and realizing that this condition has been brought about by certain individuals in the organization of the so-called Good Government Congress, and agitated and fomented by certain newspapers supporting and giving countenance to said "congress" and its sponsors; and that an attempt at usurpation of civil power has been made on numerous occasions by individuals giving aid and support to the said organization; and this condition has prevailed until one of our most beloved and respected brothers, and a fine and respected officer, George J. Prescott, has given his life in the hands of a ruthless killer who was one of the foremost of the persons bringing about this condition of affairs; therefore, be it

Resolved, that we, the members of Medford Lodge No. 83, Independent Order of Odd Fellows, deeply deplore the conditions that have been brought about, and will ever miss his presence; and be it further

Resolved, that we hereby endorse and will assist in any legal manner the courts, peace officers in the performance of their duties to our fullest extent; and be it further

Resolved, that there is no place in the membership of our organization for any members of the so-called Good Government Congress, or any like organization, the intent of which is to foster sedition, discord and strife. This we pledge—unto the last man.

Resolved, that a copy of this resolution be spread on the minutes of this lodge, and a copy be given to the two daily newspapers of Medford for publication.

Done in regular session of this lodge the 21st day of March, 1933, and placed under the seal of this lodge.

J. W. LA TOURETTE, Noble Grand.
Attest: L. O. HOWARD, Secretary.

GREEN PEACH APHIS SHOULD BE SPRAYED IS AGENT'S WARNING

The green peach aphis is now present and working on peach trees throughout the county, and the immediate application of control measures is advised by L. P. Wilcox, county agent and L. O. Gentry, of the Southern Oregon Experiment Station.

Green peach aphids have, during the past few seasons, caused a great deal of damage to peach crops in this district. Peach trees at this time show serious infestations of these insects and growers are advised to use nicotine sulfate (black leaf 40), at the rate of three-fourths of a pint to the 100 gallons of water, plus one pound of commercial spreader. The spreader will greatly increase the effectiveness of the nicotine and is well worth the additional cost.

These particular aphids hatch early in the spring and as the flower buds crack open they work their way into the bloom where they feed, causing the flowers to wilt and drop off without setting fruit. Spraying should be done at once, if good results are to be obtained.

Kelvinator Prices To Stay Low For Next Forty Days

DETROIT, March 22.—Announcement of new low prices guaranteed for the next 40 days against the possible effects of an expected upturn in commodity prices, was made today by George W. Mason, chairman of the board and president of the Kelvinator corporation.

In making this announcement, Mr. Mason pointed out that the new prices for this limited time affect the company's entire line of 1933 household electric refrigerators, starting with a standard model at \$67 installed, plus freight. Expressing his opinion that before the period had elapsed the cost of raw materials will be climbing, he reminded that this eventuality would necessitate a price revision upward.

"If we have to pay more for materials, and we hope we will, for that will mean better times for everybody—we will have to advance our prices. However, we have promised the public that there will be no such increase for the next 40 days, no matter what happens to material costs," Mr. Mason said.

"In any event, there will be no cheapening of our products in any way. There will be no compromise with quality. The lowest—Kelvinator in our line is not a bait-to-a-price model. It is a standard 1933 Kelvinator with more than four cubic feet of food capacity, and it carries all our standard guarantees."

Mr. Mason explained that the new low prices have been made possible, not only because of the low prevailing costs in the raw materials market but also by virtue of the widely spread buying tendency that began with the passing of the banking crisis.

Nannie E. Greene Rites Thursday

Funeral services for Nannie E. Greene, a notice of which appeared in yesterday's issue of this paper, will be conducted by Rev. William B. Hamilton at the Conger chapel at 10:30 a. m. Thursday. Interment in Elshouy memorial park.

An original velocipede made about 1840, one of the earliest known, sold for \$110 at an auction in London.

Meteorological Report

March 22, 1933.
Forecasts.
Medford and vicinity: Cloudy tonight and Thursday; probably occasional rain. Somewhat warmer tonight.
Oregon: Generally cloudy tonight and Thursday; occasional rain west portion; somewhat warmer tonight.

Local Data.
Lowest temperature this morning 27 degrees.
Temperature a year ago today: Highest, 49; lowest, 36.
Total precipitation since September 1, 1932, 12.50 inches. Relative humidity at 5 p. m. yesterday, 40 per cent; 5 a. m. today, 95 per cent.

Sunset today, 6:25 p. m.
Tomorrow: Sunrise, 6:09 a. m. Sunset 6:25 p. m.

SOLONS TRAPPED INTO QUICK VOTE ON ECONOMY BILL

(Continued from Page One)

pro-world-court and pro-League of Nations. It did not have to be true. All that was necessary was to create a doubt. Then the breast-beating began.

While all looked placid on the Potomac about the banking situation, there was plenty of cuffing and mauling backstage.

The mixup over the Robinson state bank amendment in the senate was caused by large banks working through Federal Reserve. They displayed great mental anguish at the idea that small banks were to be given Federal Reserve privileges that they paid dearly for. For that reason the bill was held up in such a peculiar way and ultimately changed to suit the big banks.

Financial screams were also heard around the Treasury. Some sound banks in sound communities were omitted from the list of those permitted to open last week. They did the howling.

Woodlin went deaf. He passed the buck back to state bank commissioners, telling the banks they would have to get the sanction of their states before opening their doors. A few small banks obtained that permission immediately. Others will later.

All in all it was a fairly good job hastily done.

A good citizen would do well to close his ears against all the crazy rumors going around the country now. Even normally sensible financial circles are passing around the stuff that is worse than backfence gossip. It seems that in times of stress fertile imaginations cultivate absurd stories merely for the pleasure of retelling them to friends. There is not a grain of truth in a carload.

You probably have heard those concerning Mr. Hoover and Mr. Mellon. Others in a similarly ridiculous category are: That Mr. Hoover is to be called in the stock market investigation; that Henry Ford forced the banking crisis; that Mellon's regime in the Treasury is to be investigated; that Senator Tom Walsh was poisoned.

The only reason they are being mentioned here is to drag them out in the open and stamp on them. That is the only way you can stop them.

The economy bill sounded as if were opening the way for a general pensions system. It wasn't.

The deception was due to the fact that congress changed the official designation of allowances to veterans. Heretofore they have been called pensions. Now they are called allowances. It is an easier legal word.

Mr. Roosevelt has the power but no intention of instituting a general pensions system. The allowances he decrease will become law within two years. Then they can be changed only by act of congress. Instead of amplifying the system, he intends to slash it right and left. These slashes will stand until congress changes them.

JOHN F. CANADY CALLED BY DEATH

John F. Canady, a resident of Jacksonville for nearly two years, died at that place Tuesday evening, aged 67. He was born in the state of Kansas, but came to Jacksonville from Klamath Falls. Besides his wife, Hazel Lee of Spokane; Pearl Daily, Colfax, Wash.; Guy J. Canady, Imperial, Calif.; W. L. of Jacksonville; J. R. of Idaho and one step-son, Herman Hart of Washington.

Funeral services will be announced by Conger Funeral Parlor when arrangements are completed.

BOWMAN'S BEAUTY SHOP—Permanent waves as low as \$1.50 for the rest of March.

SPECIAL—Facial and Manicure, 1.25. Shampoo, Finger Wave and Manicure, \$1.25. Oil Shampoo, Finger Wave and Manicure, \$1.20. Phone 27.

Representative of famous Snyder Bros. Knitting Mills will be at Adrienne's tomorrow, March 22, showing smart spring knit suits and dresses priced from \$10.98 up. Come in and inspect this beautiful line. Orders taken all day.

RADIO BEACON OF TINY PROPORTIONS WILL AID LANDING

A miniature radio range beacon, which makes it possible for United Air Lines pilots to bring their mail-passenger-express planes directly in over an airport, regardless of weather conditions, has proved its merit in tests just completed by company engineers, according to an announcement. The equipment already has been installed at Seattle and will be provided at other stations along United's routes between the Pacific northwest, California and the east. The airport localizer, as it is known, operates in the same way as do the large radio range beacons which provide invisible radio lines for pilots to follow along the country's airways. Its beam, however, extends only about 15 miles from the airport, intersecting the regular airway beam. Like the airway range beacon, the localizer sends out "A" and "N" signals. If a pilot hears a steady dash tone in the earphones of his two-way radio telephone equipment, he knows he is on course. If he hears an "A" signal he knows he is to one side of his course and if he hears an "N" signal he knows he is to the other side. As the pilot nears a city he advises the ground operator of his position, whereupon the operator turns the localizer's movable beam in the proper direction and switches on the transmitter. By following the signals it is possible for the pilot to know exactly when he flies over the airport hangar.

Equipment of the device includes a 15-watt transmitter, loop antenna and a keying tuning instrument. In addition to its use for sending out guiding signals, the transmitter can be employed for voice communication in advising whether the field is clear for landings. It thus promises to be a factor in improved airport traffic control.

GRANTS PASS NEW SHASTA TERMINAL

GRANTS PASS, March 22.—(AP)—A train crew of eight men, the conductor, engineer, fireman, two brakemen, two mail clerks and a baggage man will make their daily headquarters here beginning Monday when the Southern Pacific makes this city the northern terminus of its "Shasta" run.

The Shasta passengers from the north will be carried here by bus to take the regular run south, having 30 minutes here for dinner.

The new schedule makes Grants Pass the division point by virtue of its position as the northern gateway of the Redwood empire.

Regular mail from the north on the Shasta run will be carried here by bus.

RENAL PROPERTY OWNERS TO MEET

Use of the court house auditorium has been secured by the rental property owners Friday evening at 7:30 o'clock, when permanent organization will be perfected.

The main problem of interest is to secure relief of the rental question for the unemployed. At a previous meeting the following committee was appointed and has already accomplished a great deal, all of which will be reported: W. H. Merritt, Elmer Childers, George Iverson, R. H. Atwood, Mrs. Alice Coppin and Samuel Baileman.

Ashland rental property owners have been interested in this movement and will meet with Medford owners.

There are many problems peculiar to the rental business that will be taken care of by this organization.

Every owner of rental property is urged to attend the meeting as it is to their vital interest.

PARENT-TEACHERS ADD TO PRESCOTT MEMORIAL FUND

One of the objectives of the Parent-Teacher organization is the teaching of faithful citizenship, and ethical character and the late George Prescott's life exemplified these principles in a marked degree. Because of his help to the boys and girls of Medford the Parent-Teacher council voted a contribution of \$5 to the trust fund which is being raised by patriotic organizations and individual citizens.

The council discussed the proposed ordinance in regard to meat inspection and went on record as favoring same with special emphasis on rigid and impartial enforcement of such a law.

The individual school units are planning to co-operate with the Garden club in encouraging gardens in the city and children's garden clubs in each school.

The report from the schools has shown much relief work having been accomplished. Junior High, through the resignation of the president, was late in starting the year's work, but in spite of this they have become a great factor for good under the able leadership of Mrs. C. H. Paske.

Lincoln unit is planning a circus for Friday evening, Jackson will hold their April frolic on April 28. Washington reported the visit of Mrs. Klatsler here in February.

Mrs. Paske and Junior High council members were hostesses for the meeting, serving a covered dish luncheon. Lincoln group will entertain at the April meeting with place to be announced later.

KMED Broadcast Schedule

- Thursday.
- 8:00—Breakfast News, Mail Tribune
 - 8:05—Musical Clock.
 - 8:15—A Peerless Parade.
 - 8:30—Shopping Guide.

HITCH HIKER'S TRIAL IN HOOD RIVER COURT

PORTLAND, Ore., March 22.—(AP)—William M. Mott, 24, hitchhiker accused of slaying Harold F. O'Connor, 30, New York tourist, will be tried for murder in the circuit court at Hood River, and not in Portland as had been previously planned.

A new investigation developed the information that O'Connor was shot to death about seven miles west of Hood River last Aug. 29, officials here said, showing the case was plainly within the jurisdiction of the Hood River court.

THE BAND BOX ANNIVERSARY sale continues until Saturday night. Great money saving bargains in Hats, Dresses, Coats and Shoes.

NEW TIRE SAVES LIVES

Remarkable New Invention
Makes Safest Tire Ever Built
3 Times Safer from Blow-outs

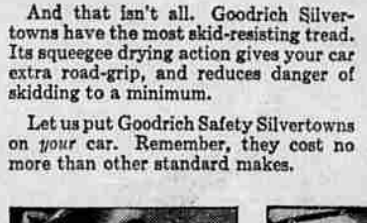

NO EXTRA COST TO PUBLIC

WHEN the speedometer reads 40, 50, 60—the heat inside your tires becomes terrific. A blister starts... gets bigger and bigger... Until BANG! A blow-out! And you're headed for trouble.

Now, to protect you from blow-outs, every Goodrich Safety Silvertown has the amazing new Life-Saver Golden Ply that resists heat. Fabric and rubber don't separate... thus blisters don't form. Blow-outs are prevented by overcoming their very cause!

And that isn't all. Goodrich Silvertowns have the most skid-resisting tread. Its squeegee drying action gives your car extra road-grip, and reduces danger of skidding to a minimum.

Let us put Goodrich Safety Silvertowns on your car. Remember, they cost no more than other standard makes.

The Chesterfield FORMULA—what is it?

The formulas and processes which make Chesterfield a milder and better-tasting cigarette are secret—to prevent others from copying them

If every person knew the method and processes of tanning leather, it would be of interest; but what people want to know is: Is it a good shoe? Is it comfortable? Will it wear longer? Is the price right?

So it is with Chesterfield Cigarettes. If smokers, men and women, knew all of the formulas and processes of manufacture, it would be of interest to them; but what smokers really want is the result.

Everything that goes into Chesterfield Cigarettes is as good as money can buy.

Every process has in it all that science knows about cigarette manufacture.

The formulas are secret to prevent others from copying them. The mildness and the better taste you may prove for yourself. May we ask you to try Chesterfield?

Wherever you buy Chesterfields, you get them just as fresh as if you came by our factory door

They Satisfy—people know it
