SAVAGE RAPIDS LAKE WILL FILL FOR IRRIGATION

GRANTS PASS, April 4.—(Spl.)—Work of raising the gates of the Grants Pass Irrigation district dam at Savage Rapids was under way Monday, with plans laid to raise all of the gates that can be operated except two, which are to be left down at the request of the Oregon Game commission, according to Forbes Fosbery, district manager, Monday morning.

Fosbery said he thought it would be gates No. 5 and 6 on the north end of the dam that the commission would want left down so the run of salmon now in the river would be attracted to the fish ladder side of the dam and make a quicker ascent of the structure.

At the same time the new settling basin at the south end of the dam is assisting in the passage of the salmon over the dam at that point.

Last fall when the gates were dropped at the close of the irrigation season they were pinned down to avoid any danger of flood damage during the winter, the first year this was attempted. On Saturday most of these pins were removed, under considerable difficulty, due to the height of the water above the dam which made it necessary to hook the pins under water. Only one pin now remains to be removed before all of the gates can be operated.

PEAR SCAB SPRAY IS ADVISABLE NOW

The first application of sprays for the control of pear scab is now due, states County Agent Wilcox, in his recommendations to fruit growers.

Liquid lime sulfur, three gallons to the 100 gallons of water, should be applied as the individual flower buds are separating in the cluster, thus permitting the spray to penetrate in and round the tender stems and leaves. Buds are advancing very rapidly and growers who plan on a cleanup of scab infections should not delay this spray much longer.

A second application of a weaker solution, two and one-half gallons of liquid lime sudfur to the 100 gallons of water, will be necessary when about 85 per cent of the flower petals have fallen.

Last season many pear crops were severely damaged because of this disease and if damp, cool weather is experienced this year the loss will be much greater.
