

JOBLESS RELIEF PROGRAM READY IN FEW MONTHS

Secretary Perkins Says Billion Dollar Public Works Plan Possible Within Four or Five Months

WASHINGTON, April 14.—(AP)—Secretary Frances Perkins, who for several weeks has been working on an unemployment program for President Roosevelt, said today it was possible to start a two to three billion dollar public works program within four or five months.

The activities that Miss Perkins outlined in response to questions at a press conference covered the wide range of federal, state, county and city projects which she described as "not of the monumental type."

Legislation necessary to carry out such federal, state and local legislation and authorization would be necessary to put it underway.

She listed transportation, grade crossing elimination and road building at the head of the possibilities, but also stressed slum clearance and the building of low-cost homes.

"The important thing," she said, "is to distribute the work to places where there are pools of unemployment."

"Federal public works, many of them in sparsely settled places, do not drain the unemployment pool."

"Low-cost housing, Miss Perkins said, had always proved not only a self liquidating but a paying proposition."

Viewed From Many Points

Asked about the large number of unemployment relief plans on which Miss Perkins is working, she said: "The problem must be attacked on many fronts, closing in from a variety of different points."

The special value of a public works program, she said, lay in the fact that it utilized brick, concrete, steel

BARRICADE DOOR AGAINST DOCTOR

HASTINGS, N. Y., April 14.—(AP)—Mr. and Mrs. John Vasco, immigrants, and their 2-year-old twin daughters still were barricaded today against anybody who would bring medical treatment to the infants.

The children's court awarded a decision from the appellate division of the supreme court before carrying out its own order for an operation on Helen Vasco, one of the twins.

The parents have refused to give their permission for the operation, which is held by physicians to be imperative. The girl has an eye tumor. Yesterday the parents barricaded the doors and threatened to pour scalding water upon anyone attempting to enter. They refused to receive also a physician who had been called the day before to treat the other twin, Anna, for a cold.

KELLY'S PINCH HIT GIVES OAKS 6-3 WIN OVER BEAVERS

(By the Associated Press)

With another victory over the 1932 pennant winning Portland club to its credit, Oakland continued today to lead in the fight for the Pacific Coast league championship.

"Long George" Kelly, former New York Giant and Brooklyn first sacker, provided the winning pinch for the Oaks attack yesterday. Pinch hitting for Pool in the fifth, with the score deadlocked at three-all, Kelly lined a long single out to left field to score Malho and French Uhalt, paved the way for another run and gave Oakland the game, 6-3. Batteries: Portland, Gibson, Cohen and Palmisano; Oakland, Joiner and Veltman.

Los Angeles maintained its second place position, a game behind the Oaks, by trouncing Hollywood, 13-1. Fay Thomas did a rare job of pitching, letting the Stars down with four scattered hits, while his mates were collecting 19 off three Hollywood batters. It was Thomas' third straight win.

Seattle sunk deeper into the league cellar by defeating its third in a row to Sacramento, 7-4.

With their new found scoring power still very much in evidence, the
