

CALYX SPRAY TO CONTROL MOTHS ADVISABLE SOON

The time to apply the calyx spray on apple trees for the control of sodding moth will soon be at hand. According to L. P. Wilcox, county agent, and L. G. Gentner of the Southern Oregon Experiment Station, this spray should be applied when about 85 per cent of the flower petals have fallen.

The object of the calyx spray is to fill the calyx cups with poison before they close so that worms which may later attempt to enter the apple through the calyx or blossom end will be killed.

In a week or ten days, the trees will be ready for this spray, as they are now in full bloom. Sprays should be done promptly, since the calyx may close within a week after the petals fall. Careless spraying or waiting too long before applying the spray will result in much more wormy fruit at harvest time.

In pear orchards where leaf and fruit eating insects such as saw fly larvae, green fruit worms and canker worms are present, it is advisable to spray the trees when the young fruits are well formed and about the size of a pea.

Powdered arsenate of lead at the rate of three pounds to one hundred gallons of water should be used in the above sprays.

CABINET DOUBTS ROOSEVELT PLAN TO INFLATE COIN

(Continued from Page One.)

Elderly ladies—politely but not seriously.

Mr. Hoover had a hidden hand in the Republican insurrection against the Roosevelt program.

His Messrs. Mellon and Mills came swooping down here on the run. They did not appear before committees or issue statements but buttonholed their old pals in congress. It was done with Mr. Hoover's encouragement.

They put the former Mellon attorney, Senator David Reed, up to trying to organize a filibuster. A year ago they could have killed the plan, but not today.

Times have changed in Washington as elsewhere.

Half the New York powers came running also. They were not trying to kill the plan so much as to find out what was happening. Their friendly officials in the administration whispered that they need not worry—Mr. Roosevelt was only fooling the inflationists in congress.

That was largely true. The president himself told at least two of his associates confidentially he intended to use but one feature of the plan. That was the first one, his own, the provision for three billion in currency to offset the coming three billion dollar public works bond issue.

The gold revaluation and silver items were just tossed in to get a majority in congress. The whole thing is discretionary. He could use any part or none of it as he chose.

The Republicans and the bankers had heard that story before. They did not question the president's sincerity. They were skeptical that if he once got the authority he would use it, not now perhaps but a few months hence. Mr. Hoover once had an idea he would not use the price stabilization features of the farm bill, but he did.

The bankers bowed out more or less gracefully. The Republicans decided to make a record of opposition anyway, something which could be pointed to in the next election if the thing did not work.

That was good strategy. It permitted the patriotic duty of letting the president have his way. It also safeguarded any political advantage which might accrue from failure of the plan.

95 SEED LOANS ARE GRANTED IN VALLEY

County Agent Robert G. Fowler reported today that to date in the applications of valley farmers for seed loans, via the department of agriculture, there had been but four rejections, and that 95 applications had been granted. There are about 145 applications to be acted upon. The average amount of money received is \$200, and the fund can be used in the preparation, care and harvesting of crops. The fund is different and separate from the R. F. C. fund.

MRS. DICKEY, PIONEER, VISITS VALLEY AGAIN

Mr. and Mrs. George Dickey and granddaughter, Margaret Bellinger, of Salem, are visiting Mrs. Dickey's sister, Mrs. Mary Duggan of the Table Rock district. The latter has been quite ill but is convalescent. Their parents, Mr. and Mrs. John Callahan, drove across the plains from Iowa with an ox team in 1866 and located in California. They moved to Oregon with their children and located on a claim in the Roxy Ann district in 1874, before there was any Medford or a railroad in the valley. Mr. Dickey has been dead several years and Mrs. Dickey has lived in Salem 50 years.

FARMERS SPURN G. G. C. PLEA FOR JOINT ACTIVITY

(Continued from Page One.)

ballot theft, was also in attendance and sought an active part in the organization plans.

The leaders of the Farmers' National Committee for Action, who have organized three units in the state, declared that they did not wish to become involved in political strife or a one-man revolution and put on their coats and departed.

Throughout the meeting Mrs. Pomeroy expressed hearty approval of the plans outlined by the speakers with repeated applause. When Mr. Pomeroy, seated beside her, failed to raise his hand in approval of organi-

zation of a unit here, she raised it for him.

Members of the audience of less than 50, wishing to organize a unit, were invited to come forward following the address. It was in the group session, which followed, according to the out of town speakers, that Mrs. Pomeroy offered her suggestion, which was emphatically refused.

Want Classless Society.

The speakers last night were introduced by Mr. Ware and made a stirring appeal for organization of dirt farmers to bring about a "classless society, a workers' and farmers government." Dale, in his address, stated that the primary interest of the committee for action is to keep the American farmer on the farm and out of the headlines. He described the Farmers' National Relief conference, the strikes of middle-west farmers and distributed extensive literature, which he declared should be read by all "class conscious farmers." He informed his audience that ex-President Hoover had done nothing to aid the dirt farmer and that President Roosevelt had "absolutely ignored" his organization's demands.

Correll, although stating that he

did not wish to lead an attack on any farm organization, condemned the Grange for permitting in its membership persons who do not make their living farming.

Tells Experiences.

"When farmers will keep from their membership persons not strictly dirt farmers, we need have no fears," he declared. "We're out to organize committees of action. The Grange admits to membership anyone interested in agriculture, whatever that interest may be. Our's is a dirt farmers' unit."

He then told of experiences in the farming district out from Hood River, where the Farmers' National Committee for action was refused use of the Odell Grange hall. A meeting was later granted in a building belonging to a colony of Finnish people, he stated, who have arranged for a mass meeting in the near future in a Hood River theater.

A collection was taken up to aid continuance of the speakers on their tour and numerous pamphlets sold at last night's meeting.

A similar gathering will be held in Grants Pass tonight, the speakers announced.

PHOENIX GRANGE TO HEAR C.-C. GLEEMEN AT MEETING IN MAY

PHOENIX, April 27.—(Sp.)—Phoenix Grange met Tuesday with good attendance. A short report of the Pomona meeting was given by Mrs. Mildred Ward. Announcements included the coming of the Medford Gleemen, probably May 12, that the Grange will serve dinner to the Kiwanis soon, and that a clean-up day will be held April 28.

For the cleanup the men will meet at the hall to take care of several things that need attention, trees will be planted, and other jobs will be taken care of. The ladies will also meet and prepare lunch for the men and take care of some inside cleaning. All Grange members are urged to attend.

The piano solo given by Mrs. Dorothy Lofler, and the pantomime play,

"Wild Nell," given by George Drake, Floyd Bell, Lee Denzer, Ada Bell, Mildred Ward and Mabel Stapcliffe and read by Mrs. George Drake, which was given at Pomona Grange on Saturday, were repeated here Tuesday night. Group singing was led by Vaughn Quackenbush.

Refreshments were served by Mr. and Mrs. Ed Stillwell, Mrs. Sam Young, Jerry Bishop and Ray Yost, after which dancing was enjoyed for a short time.

On the second Tuesday night in May the third and fourth degree work will be presented. On May 19 the third and fourth degree work will be presented at Central Point. Practice will be held on Monday night before presenting it at Phoenix.

A committee appointed from the Grange to make arrangements for having the gleemen come to Phoenix and put on their program includes Mrs. L. O. Caster, Mrs. George Drake, Mrs. Dorothy Lofler, Mrs. Lucille Wilcox, Mrs. Lee Denzer, Mrs. Tom Caster, Mrs. Ed Stillwell, Mrs. Bert Stancliffe, Mrs. Frank Denzer. This committee is giving a card party on Saturday night of this week, which is open to the public.

Oregon Weather.

Fair and mild tonight and Friday, but fog on the coast; decreasing humidity in interior; moderate to fresh northerly winds offshore.

HEALTH MEANS CHARM AND HAPPINESS

Sparkling eyes and smiling lips speak of health and vitality. Clear skin attracts. The healthy active girl is both happy and popular.

Perhaps you are not really ill yet when the day's work is done you are too tired to enter into the good times that other women enjoy. For extra energy, try Lydia E. Pinkham's Vegetable Compound. It tones up your general health. Gives you more pep—more charm.

Remember that 98 out of 100 women report benefit. Let it help you too.

The Year's Most Sensational Refrigeration Development!

CARRENE

Assures *safe* Refrigeration!

CARRENE is a harmless, colorless liquid. It is non-explosive, non-poisonous, non-irritating, non-inflammable, non-corrosive. In a word, CARRENE IS SAFE!

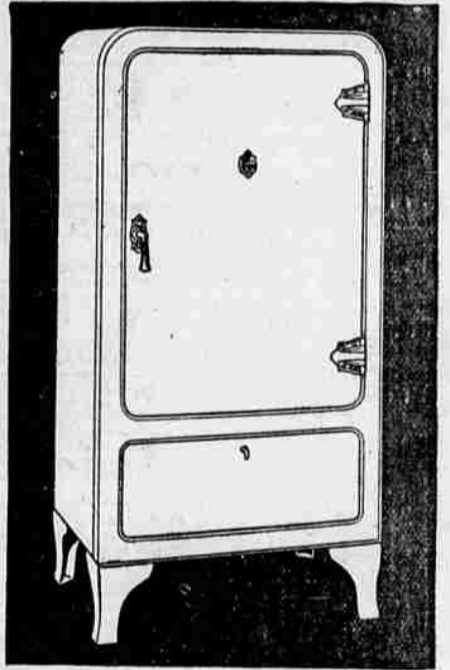

All Southern Oregon Is Talking About the Sensational New

Grunow

SUPER-SAFE REFRIGERATOR

This sensational new development in electrical refrigeration was made by the master manufacturing genius, William G. Grunow. . . It combines new conveniences in home refrigeration with ABSOLUTE SAFETY. . . Never before have refrigeration needs been so fully anticipated! The new Grunow is irresistibly appealing and thoroughly aristocratic in appearance, incomparable in operation, a refrigerator sure to win the hearts of southern Oregon housewives!

34

New features make the Grunow the outstanding value in the electrical refrigeration field in southern Oregon . . . and in the entire United States. Let us point out a few of them to you!

Convenient Terms

We can arrange for you to use your New Grunow while you pay on easy monthly payments.

We Invite You To See the New Grunow at Our Store

Why—

Is the New GRUNOW Refrigerator Better?

—That is the question wise and exacting purchasers of electric refrigerators will ask. The new Grunow should be your choice, first of all because of its SAFETY. It is the only refrigeration in the world using CARRENE, the only safe refrigerant. Then, too, there are scores of new and convenient features that recommend the Grunow to you. It's beauty, you will find, is far from being "skin deep."

Now folks comes our big DOLLAR DAY

See Tomorrow's Tribune for Mann's Great Dollar Day Ad. Come! Save!

- ### A Few of the 34 Features of the New Grunow
- 1 Rounded corners, for beauty, for sanitation and easy cleaning, inside and out. Automatic light on inside of refrigerator.
 - 2 A compressor (a GRUNOW invention) that promotes super-efficiency and has "no wear" qualities.
 - 3 An unique and beautiful latch that works with a touch of the fingers.
 - 4 Loads of ice cubes are turned out in record time in the new GRUNOW.
 - 5 Beautiful sealed-in evaporator for cleanliness and to prevent food odors entering.
