ORDER TRANSFER ROSEBURG HOME TO GOVERNMENT

ROSEBURG, Oregon, April 28.—(AP)—Transfer of the Oregon state soldiers home to the federal government has been authorized for May 8, according to word received this morning by Colonel E. F. Tandy, manager of the Northwest National Soldiers Home here. The present Oregon home is to be made a part of the veterans administration facility here.

Authority for the transfer was given by the state legislature two years ago and deeds were signed by the state board of control and have been placed in the hands of the veterans administration, awaiting the time for the inclusion of the property into the national home for the Pacific northwest area.

Examination of the 109 men now being cared for in the state home was started this morning by Dr. James G. Donnelly, chief medical officer of the national home here. Population of the state home has decreased quite rapidly since the signing of the economy bill, as many of the veterans lacked qualifications for admission to the national home and accepted discharges. There are about 70 world war veterans now at the state home and it is expected that nearly one-half of this number will be unable to secure admission to the national home, due to the restrictions imposed by the national economy act. It is anticipated that all civil and Spanish war veterans now at the state home will be accepted in the federal institution.

The state home, established here by an act of the legislature in 1893, has in recent years cost the state of Oregon approximately \$45,000 annually. Since 1909 the federal government has contributed \$10 monthly to the state of Oregon for the support of veterans in the home.

HOOD RIVER PEAR PROSPECTS GOOD

HOOD RIVER, Ore., April 28.—(AP)—With the blossoming season reaching the peak, many local growers report discovery of severe damage to cherries as the result of sub-zero weather last winter.

The bloom is heavy, but because of the freezing the blossoms are dropping heavily instead of setting. The strawberry crop, too, will be the lightest in years, the growers predict.

The pear bloom in the Hood River area is at its best, with weather excellent for pollination. Bumper yields of all varieties of pears are expected.

TRAPPERS' PROVISIONS COST \$8 PER MONTH
