Vivid Description of Romantic Ruins Given By Speaker

Women of Medford enjoyed a rare treat when they gathered at the club room on Thursday to hear Mrs. Jessie B. Honeyman, who gave a lecture on Angkor, the Magnificent and Taj Mahal. Mrs. Honeyman, a master of the art of painting wood pictures, held the intense interest of the audience while she described these ruins in Cambodia in their mystery and splendor.

The leading thought in Oriental art is the expression of beauty said Mrs. Honeyman, and nowhere in the world is there a truer example of harmony and coordination of beauty expressed in architecture. In 1907 the French government took possession of this ancient city and began razing the jungle and restoring the buildings. Archaeologists have been unable to come to any definite conclusion as to its origin and history. Students have found reference to this city in Chinese records, hence a connection evidently can be linked with that civilization.

There are miles and miles of the most perfect and magnificent carvings depicting the life of the people. Their religion was a mixture of cults, one succeeding the other with Brahmanic and Buddhist images existing side by side in the temples scattered over Cambodia, with Hinduism evidently being the prevailing one at the time of the disappearance of the race.

Taj Mahal, a marble tomb built by Jehan-Arjamand, the ruler of Cambodia, as a memorial for his departed wife Mumtaz-A-Mahal. The simple beauty of this tomb is beyond description and is equalled by none in the known world.

Mrs. Honeyman stated that there were many interesting books for those who wish to know more of Oriental art. Stiggeweg, "The Influence of Indian Art Being Among the Best."

Mrs. Laura West gave a brief resume of the year's work of the club. She stated that the Post-Delphians were using the same principles and presentation required by the former Delphian club, with each member being required to prepare her study for each group meeting. The study this year consisted of subjects on International Relations with Mrs. F. Lawrence giving a well prepared talk on "Peace and Prosperity." In the civic study of state and nation the club heard three speakers, the first, D. S. Libbey, spoke on "New Geography." Col. E. E. Kelly, "Property Rights of Women and Children," and Hon. E. B. Day, "Recent Legislation in Oregon," emphasizing the sales tax. The last topic of study, art, which was the subject of Mrs. Honeyman's masterful lecture. The next and last study meeting will be May 23 with a musical program and a talk on this subject.

The club enjoyed the following musical numbers: Mrs. Effie Herbert Yeoman sang two solos, "Let All My Life Be Music," Sprague; and "In My Garden," Roberts; Miss Genevieve Brown accompanying. Marian Moore played two piano solos, "Spring Song," Yonferoff; and "Russian Dance," Tschalkowsky.

Preceding the meeting the Post-Delphian and Garden club members with invited guests enjoyed a luncheon at the Hotel Medford with Mrs. Glen Fabrick presiding as representative of the Post-Delphian group and Mrs. Lewis Ulrich representing the Garden club.

The following books are recommended: Fiction, "The Store," Streibling; "The Stalking Horse," Rafael Sabatin; "Uncle Peel," Irving Bacheller; "Grand Canary," A. J. Cronin; "Helene," Vicki Baum; "As the Earth Turns," Gladys Hasty Carroll, a new writer. Non fiction, "Aretic Village," by Robert Marshall; drama, "Both Your Houses," Anderson; biography, "Grover Cleveland," Nevers; poetry, "Conquestations," Macleish.

THIS IS TOO MUCH TO ASK OF ANY WOMAN FOR A WASHING

An electric washer will do the entire family washing for about 1 cent's worth of electricity and save the wear and tear of a washboard on the clothes. (To say nothing of the wear and tear on nerves, health and appearance.) Electric service is cheap; by far the cheapest service you can buy. It will perform nearly all of your household tasks perfectly, in a fraction of the time required to do them by hand.

Complete "ALL ELECTRIC" service for an entire month (which includes everything from sunshine for the baby to cooking and refrigeration for the entire family) for less than the weekly wage of a good servant. Electricity is so clean, quiet and convenient that it is hard to realize the extent of the service we receive for the small amount we pay.
