MRS. ROOSEVELT TO VISIT COAST

WASHINGTON, May 6.—(AP)—Mrs. Franklin D. Roosevelt today announced plans for a trip to Los Angeles the early part of June.

Mrs. Roosevelt said she would travel by air to see her son, Elliott, who has taken a position on the Pacific coast.

Mrs. Roosevelt said she thought she would start June 2nd or 3rd and that she might fly in the daytime and take one night on the train.

The French government gave its agency a large radio station near Paris for little or nothing. This station is daily sending to our Latin American neighbors three times as much news as American agencies can lay down in South America for the same money.

Even Washington and New York news is going to South America through this cheap Paris outlet. It is written by those here in the employ of the French agency.

That would not be so bad if the French had the same newspaper ideals as Americans. The European newspaper ordinarily is a subsidized propaganda sheet for whatever government happens to own it at the time.

They set forth facts only to color them for their own purposes. That means Mr. Roosevelt's tariff policy, for one thing, will get no breaks in South America now.

Nobody has brought out that these screams from Europe about us defaulting on gold payments for liberty bond interest are typical European debt propaganda. Even Britannia has raised her voice about it. Her press and public relations default of her June 15 war debt payment because we refuse to pay foreign holders of our liberty bonds the current quarter's interest in gold as against domestic payments in dollars.

The truth is that we owe more than \$50,000 interest due all our foreign bond holders. That is a careful estimate of our treasury officials. They have no way of knowing exactly, but they figure that about eight million of liberty bonds are held abroad. Roughly, the annual interest would be around \$200,000.

We shall pay that interest in current dollars. That means about a 20 per cent reduction from gold at a maximum. Yet we have already offered to accept a 38 per cent reduction on June 15 debt payments if made in silver at the prevailing market price.

Also our amount due Britanishers alone for this quarter cannot be a maximum \$20,000. They owe us 75 million June 15.

This our exchange difference of possibly \$4000 is being urged as an excuse for defaulting on 76 million.

MYSTERIOUS DISEASE HITS BRITISH STOCK

LONDON, May 15.—(UP)—A mysterious cattle disease has destroyed numerous herds in Lincolnshire, reports said today.

Farmers were alarmed at the malady, with which they said they had had no previous experience. It was evidenced by a distemper as the only symptom, followed swiftly by death.

LEGION AGAIN WILL CONDUCT NATIONAL BASEBALL PROGRAM

INDIANAPOLIS, Ind.—The American legion commission at national headquarters of the American Legion here, announces that arrangements have been completed to carry on through this season the Junior baseball program which each year has grown in interest among the boys throughout the United States. It is expected that 600,000 will participate this summer.

Organized baseball this year, for the first time, was unable to lend its financial support as in the past, but this difficulty has been overcome by a change in arrangements whereby sponsors of boys' teams will bear the expense of travel to and from elimination tournaments.

The task of selecting cities where regional and sectional tournaments are to be held is now under way with numerous applications from cities all over the country. A mandate of the last national convention decreed that the world series this year should be held in New Orleans.

When a state or department championship team has been determined, that team enters the regional tournament and the winning team of the region is entered in the sectional tournament. The winners of the eastern and western sections then compete in the world series for national championship honors.

Cities entertaining the regional and sectional tournaments this year will be required to bear the local expense in connection with their respective series, with the exception of the travel of the teams. Experience has shown that gate receipts more than meet the local expense.

NEW YORK, May 15.—(AP)—Ernest Torrence, veteran screen actor, died today at the age of 54.

The noted portrayal of character roles accumulated at dawn at Lenox Hill hospital. He fell to rally after trouble and for hours physicians had known that death was inevitable.

His wife, the former Lise Reamer, was with him at the end, as were his son, Ernest, Jr., two brothers and other kinsfolk.

Torrence, who broke into the films in "Toile David," went on to success in "The Covered Wagon," "Rugles of Red Gap" and a host of more recent pictures.

GRANTS PASSERS BANQUET ON HILL

GRANTS PASS, May 16.—(AP)—Straggling back into the city at 3 and 3 p. m., members of the Grants Pass chamber of commerce, guests, bankers and riders, were returning Monday afternoon from a "Fire fighters" luncheon served to 42 people 1780 feet above Grants Pass on the summit of Mount Baldy. At an elevation of 2735 feet where a wide panorama of valleys and hills furnished the "program" of the unique chamber of commerce event.

A dozen houses furnished horses for transportation up the trail for some of the members, while the others jiked the couple of miles, and put away gallons of "mountain" forest camp style by Glenn Mitchell, supervisor of the Sixtiety national forest, who was in charge of the forum luncheon.

OREGON FARMERS TO REAP BENEFIT UNDER NEW BILL

Wheat and Dairy Products Will Bring More in Comparison With General Commodities Says Expert

CORVALLIS, Ore., May 16.—(P)—Explaining that the administration's new farm bill "is not a price fixing measure but proposes a flexible adjustment of farm prices in relation to general commodities," experts of the agricultural extension service at Oregon State college said today that "Oregon farmers will be most interested in the activities under the bill as they apply to wheat and dairy products," and to a minor degree in the application to hops.

All Indirectly Affected. The farm economists pointed out, however, that "any steps that the administration takes to bring the other basic commodities included in the bill—cotton, corn, rice and tobacco—up to 'parity' are bound to have an indirect effect on farm prices as well as farm costs of other farm products raised in Oregon."

They explained that in providing for "parity" for farm prices, the new farm bill does not necessarily call for establishing either a high, medium or low level of farm prices, but "proposes a flexible adjustment of farm prices in relation to general commodities."

More in Exchange. "In other words, the purpose of the bill is to make farm products bring more in exchange for the things the farmers buy regardless of actual price levels."

The final objective, as they see it, is to restore the purchasing power of the basic commodities to the condition existing in the five-year period 1909-1914, except for tobacco, for which a post-war period was selected.

It is proposed to accomplish the change gradually as the various provisions of the act are brought into effect through voluntary agreements for acreage curtailment, land rental or allotment benefits.

OREGON IRRIGATION WILL BE DISCUSSED

SALEM, May 16.—(AP)—A meeting of representatives of the 62 irrigation and drainage districts in Oregon will be held in Portland Wednesday to discuss and standardize applications for reconstruction finance corporation funds for aid in refinancing. Charles B. Stricklin, secretary of the state reclamation commission, announced today.

A session of the Oregon reclamation congress board will be held at the same time, and with the irrigation district representatives, Stricklin said.
