Notice to Water-Users As the summer season has arrived it is well to review the few rules the Water Commission has set up for the water consumers. Below are a few of the most vital ones. (1) OPEN HOSE NOT ALLOWED: The use of an open hose in watering is prohibited, nor shall any nozzle used in sprinkling be larger than 3/4 inch in diameter. (2) WASTE NOT ALLOWED: Water shall not be furnished except through a meter to any premises where there are defective leaking pipes or fixtures. Water allowed to run to waste down sidewalks, streets or gutters as a result of the sprinkling of lawns, gardens or park strips is prohibited. When any such waste is discovered the water shall be shut off from the premises. (3) TURN OFF IN CASE OF FIRE: All consumers of water shall close all faucets and fixtures immediately upon the sounding of a fire alarm. The water shall not be turned on again until the Fire Department has ceased to use the water supply. The Water Commission asks the hearty co-operation of all water users regarding these few safeguards to Medford's wonderful water supply.
