JACKSON COUNTY RELIEF ENDED BY LACK OF FINANCE

(Continued from Page One)

During the month of March \$7,938.57 was spent and many commissary charges absorbed in addition to other aid given.

The average expenditure per family per month the committee estimated at \$9.25, using the sum on a graduated scale. Between \$7.00 and \$16 was received by each family, depending upon the number of persons included.

Through the relief program the government workers have stressed many times, and repeated again today that, "the federal government is only aiding the man a little toward the solution of his problem. In that only a limited amount of funds are available, these must be divided among the whole number of people needing aid."

All recipients, with the exception of those mentally and physically unfit, are required, and have been, to work for what they receive. The county gets labor in return for all money released through this relief channel.

All records have not been turned in and checked for the month of May, which ends today, but it is believed that the number of cases total approximately 1700 families and 200 single persons, with expenditures exceeding, slightly, the \$17,000 budget.

CAPTAIN SADLER TAKES C.C.C. DUTY

Captain William H. Sadler, quartermaster, United States army, has reported for duty at the headquarters of the Medford district Civilian Conservation Corps, it was announced here today.

He has been placed in charge of the C. C. C. warehouse and has been appointed procurement officer. Captain Sadler comes here after a year's duty as a student at the Command and General Staff school at Fort Leavenworth, Kansas.

Orders have been issued for the rear cadres for camps F-41 at Applegate, F-45 at Agness and F-48 at Cliff Springs, to proceed from Vancouver Barracks, Washington, to their respective camps at once, it was also announced at headquarters here today.

The men will be arriving tomorrow or Friday. It is expected that the local quota of 69 men will be enrolled in the near future and sent to the Applegate camp. Among other new arrivals at the local Conservation Corps headquarters are Lieut. Lewis T. Ross, executive officer, and Lieut. George A. A. Jones, assistant executive, who will direct public.

'AMERICAN MADNESS' OPENS AT ROXY TODAY

"American Madness," a story of today, and starring Walter Huston, opens at the Roxy theater this afternoon. Due to an error in yesterday's paper the picture was advertised one day early. Walter Huston, regarded as one of America's finest actors, is a great banker whose courage and foresight prevent the ruin of his bank.

STUDIO IS SHOWING 'PROSPERITY' TODAY

"Prosperity" starring Marie Dressler and Polly Moran, opened at the Studio theater today. High spots of the comic episodes are a scene in which Miss Dressler and Miss Moran break up the formal wedding party of their respective son and daughter; and various occurrences in the joint home of the in-laws in which broken dishes, carpet beaters, mud and even castor oil have a share in providing hilarious humor.

MAJESTIC KEEPS FOOD SEALED IN PERFECT SAFETY

"Electro-sealed for life" is the slogan of the Majestic refrigeration company, which guarantees the handsome Majestics to be safe for life against dust, dirt, moisture and abuse since the perfection of the electro-sealed unit protected within a metal dome. Heater Health has selected a Majestic from Palmer Music and Electric store for demonstration at the Mail Tribune's cooking school, Craterian theater Friday. As the heat circulates the blood in the human body, so the "compressor" circulates the refrigerant in an electric refrigerator. Any interruption in its performance must necessarily affect the constancy and intensity of cold in the food chamber. Consequently, the compressor must be thoroughly protected from moisture, dirt, and tampering in all Majestic De Luxe models the compressor is Electro-Sealed for life—and for safety—within a solid steel dome—secure as the Nation's from the action of any elements or disturbance. Naturally, this could only be possible with mechanism so precisely made, so carefully tested and so entirely dependable, that its operation without the least attention can positively be assured. With this Electro-Sealed process, Majestic refrigerator engineers have made a distinct advance over the previous practice of hermetic sealing. Available only in Majestic refrigerators, it provides an unquestioned superiority, which is of itself, sufficient reason for demanding—and getting—a Majestic. Clayton Isaac stated in discussing the model which will be shown at the cooking school.
