Those who earned letters were: Irene Anderson, Marion Biglow, Edith Carter, Muriel Coke, Lucille Croucher, June Davis, Myrtle Davis, Ruth D'Albini, Betty Fallon, Bonita Hamcock, June Hooker, Lucille Knips, Aileen Latham, Leda O'Neal, Doris Rose, Winifred Roseborough, Anna Schuel, Velma Smith and Margaret Ward.

Three girls, June Davis, Velma Smith and Margaret Ward, earned 200 points and an honorary award this year. In addition, Margaret Ward won a chevron for 100 points earned in addition to the required.

The Burt Brown Baker trophy, emblem of the western Oregon debate championship, and the Oregon cup, emblem of the state debate championship, were presented to the Associated Students by Dolph, member of the team. President Dave Lowery accepted them.

Gold deute pins were presented to the members of the championship team: Elizabeth Perry, Frances Perry, Winifred Roseborough, O Leo Hicks, Dolph James, Katherine Stearns, Irene Stubbelfield and Willdon Colbaugh.

Emblems were also presented all members of the interclass teams participating in the class championship series last fall. They were Eva Pettit, Prentice Petty, Suzette Stennett, Betty Thordike, Joe Pierce, Dave Lowry, Barbara Holt, Mildred Drury, Dolph James, Irene Stubbelfield, Winifred Roseborough, Cleo Hicks, Frances Perry, Elizabeth Perry, Katherine Stearns, Willdon Colbaugh, Harold Grove and Adrian Fraley.

A cash prize, presented by the state committee, was given Willdon Colbaugh, recent winner of honorable mention in the national League of Nations contest.

The final award presented was the Al Piche trophy, emblem of the school tennis championship which went to Maurice ("Red") Scheel. The presentation was made by Ed Kirtley, tennis coach.

ELM TREES NEED SPRAY ON BEETLE

Elm shade trees should be sprayed within the next ten days to two weeks if control of the elm leaf beetle is desired, states L. P. Wilcox, county agent.

The adult beetle is now present and within a short time the worm larvae will be feeding on the under sides of the leaves. Both the cork and the American elm are susceptible to this insect and damage to the extent of complete defoliation may be expected if control measures are not applied.

Arsenate of lead, four pounds of the powdered material, plus one-half pound of the spreader to the 100 gallons of water applicator thoroughly to the under sides of leaves, will give control for the season. Thus, for a very low cost valuable shade trees may be kept free from this pest.

If spraying is done by commercial sprayers the property owner should supervise the work to the extent of knowing that the proper strength materials are used and that a thorough coverage of leaf surfaces, especially the under side, is obtained.

TO HONOR BEQUESTS OF LATE KATE STINE

A petition and order for the disbursement of the bequests of the late Kate Stine, well known local woman, who passed away last spring, was filed in circuit court today, by Emma M. Jones, executrix, a sister. The terms of the will bequeath the estate to a number of kin, and the residue to the executrix.

L. AND H. RANGES MAKING HIT WITH SCHOOL'S GUESTS

L. and H. ranges are making a real hit with Southern Oregon women who are guests this week of the Mall Tribune at the cooking school in the Craterian theater. Smart in appearance, efficient and economical in the kitchen, the L. and H. line of ranges is steadily growing in popularity with housewives throughout the country.

H. T. Timberlake, factory representative for the A. J. Lindeman & Hoover Company, and Ed Jackson, representative in this territory for the Sunset Electric Company of Portland, distributors for L. and H. ranges and Norge refrigerators, are in Medford this week supervising the L. and H. range participation in the Tribune cooking school.

The L. and H. range assure speed and economy, according to Mr. Jackson. There is a choice of three heats on each unit and automatic oven control which assures accurate temperature so essential to better baking. The oven of the L. and H. has rock wool insulation which retains the heat within the oven and assures a cool kitchen in the summer months.

COUNTY'S AUDIT NEARING FINISH

Finishing touches are now being made on the county audit, underway for the past three months, under the direction of C. T. Haines, auditor. The main portion of the work is expected between June 10 and June 15. According to Haines it will require two or three weeks to make the final summarization which will be embodied in a complete and detailed report, covering all county affairs, offices, and monies and their disbursement.

The final report will be filed with the county court, under the terms of the contract, as a body, and not any one individual thereof.

The audit is for the three years past—the period during which charges flew thick and fast, reflecting upon the conduct of officials, few escaping the tirades.

Three-wheel autos, which caused a sensation in Netherland India, are losing their popularity, they being so noisy that police in many cities forbid their use after nine o'clock at night.

MISSING ANGLER FOUND DAZED IN ROSEBURG CAFE

ROSEBURG, Ore., June 2.—(AP)—Boatmen who since early Wednesday morning have been dragging the north Umpqua river at Idley'd park, 25 miles east of Roseburg, in an effort to locate the body of Fred Weams, assistant postmaster at Hosalia, were recalled from the river this morning when Weams was found in a dazed and exhausted condition in Roseburg.

He was thought to have been drowned when his fishing tackle was found in the river at the edge of an eddy where he was fishing early Wednesday and scores of men have been utilizing all daylight hours in an effort to locate the body.

This morning Weams stumbled into a local restaurant where he was immediately recognized. He was apparently in a badly dazed condition and was exhausted from walking.

After he had been fed and given a brief rest he told friends that the remembrance falling into the river and being carried downstream by the swift current for more than a mile before he reached the bank. He says he remembers nothing more, except that he was terribly cold and walked for a long time through the woods.

50,000 MORE TO GET CCC TRAINING

WASHINGTON, June 2.—(AP)—President Roosevelt approved today 257 new forest work projects on which more than 50,000 young men will be employed this summer and fall in 35 states.

Robert Fechner, director of emergency conservation work, said 200 members of the civilian conservation corps would be employed at each of the camps.

Approval of the New York projects brought the total of approved forest camps to 1356.

The work to be done includes soil erosion, forest improvement, fire protection, construction of trails, the building of lookout towers and all types of reforestation work.

The states in which the camps are to be located and the number of camps per state, include: California, 1; Colorado, 2; Montana, 4; New Mexico, 1; South Dakota, 1; Texas, 8; Washington, 1; Wyoming, 1.

CROWD CRATERIAN IN FINAL SESSION OF COOKING CLASS

Equipped with notebooks and pencils, practically all of southern Oregon's housewives arrived at the Craterian theater soon after lunch today, anticipating the final session of The Mall Tribune's free cooking school under the supervision of charming Heester Heath.

Young women and old ladies, some accompanied by kitchen-minded husbands, filled all available space in the theater today, the attendance for surpassing any previous cooking school programs in Medford. In the opinion of visiting representatives of several national manufacturers, The Mall Tribune's culinary course was one of the most successful conducted anywhere on the coast this season.

Heester Heath each day held the interest of the crowd of women throughout two hours of cooking instructions, during which she talked informally about the ingredients and methods employed in preparing various dishes. After the food was in

readiness for serving, Miss Heath displayed the tempting articles on a table in the theater lobby for closer inspection.

More than 2400 women visited the cooking school Wednesday and Thursday afternoon, and although the official count has not been turned in today, it is estimated that the grand finale will establish a record for attendance.

Medford firms which co-operated in making the cooking school a success included the following: The Home Grocery, Smider Dairy & Produce company, California Oregon Power company, Leonard Electric, Hubbard Brothers, Inc., Bagley Canning company, Ashland, Fluhrer's Bakery, Lawrence's Jewelry Store, Murray's Beauty Shop, Medford Furniture and Hardware company, Montgomery Ward & Company, Economy Meat and Fish Market, M. M. Store, Palmer Music and Electric store, John Cupp Furniture store, E. J. Feldman, First National Bank.

Nationally known products featured by Miss Heath were Crawford Ranges, Frigidaire Refrigerators, Kelvinator Refrigerators, L. and H. Ranges, Majestic Ranges, Norge Refrigerators, Pillsbury Flour, K. O. Baking Powder, Pen Jel, Ghirardelli Chocolate, India Tea, White Star Tuna, Schroeder Chemical Co., Krispy Crackers, White King Soap.

KING MAKES PROFIT WAGERING ON DERBY

EPSON DOWNS, Eng., June 2.—(UP)—King George won approximately \$400 in the derby, it was learned today. It was understood the king drew Hyperion, the winner in the Marlborough club sweepstake. The monarch also held a ticket on Felicitation, it was learned.

Do not be deceived
by soap packages that look larger than the **WHITE KING** PACKAGE

THE White King Granulated package contains more pure soap than many packages of twice the size. That is because White King is made of condensed soap granules with no fluffing to make bulk. White King packs closely in the carton, like sugar.

- The White King package weighs most in the way that counts most, because it is all pure condensed soap with all excess moisture taken out—with no filler added.
- White King requires less rubbing, no bleach, no bluing. White King makes white things whiter and colored things brighter. For soap economy—soap satisfaction—soap efficiency—ask your grocer for White King Granulated Soap.
