Garden Club Show.
Center of interest
It's "All eyes to the garden" in Medford society this week as flower fanciers watch their choice blooms unfold in anticipation of entering them in the annual Garden club show, which opens Wednesday.

All other social ambitions will be squelched for a few days as preparations for the show demand the time of those who plan to enter blossoms and those who plan to spend Wednesday and Thursday at the high school auditorium learning more about gardening.

An invitation to make entries has been extended to all growers of the Rogue River valley and it is hoped the 1933 show will be Medford's largest and best. Exhibitors have been urged by the committee to study carefully the rules and regulations, published in last Thursday's and today's Mail Tribune.

Entries will be received at the high school auditorium from 8 until 11 o'clock Wednesday morning. The judging will follow completion of entries and the show will be opened to the public at 2 o'clock Wednesday afternoon.

The doors will close to entries at 11, so exhibitors are urged to be prompt and to follow rules in making entries and arranging displays. A classification will be strictly observed.

Mrs. Koonce Plays Own Compositions in Recital.

Medford people, who remember Mrs. Dorothy H. Koonce, formerly of this city and daughter of Fred Alton Haight, local pianist, will be interested in the following press comment from Annapolis, Md., concerning her work at Boston University's College of Music. It reads:

Original compositions by students in Boston University's College of Music featured a recital presented recently in the College of Music building, says an announcement in the "Boston Transcript."

The recital was given by the students of composition and counterpoint, under direction of Alfred H. Meyer, assistant professor of theory of music.

Among those taking part in it was Mrs. Dorothy H. Koonce, wife of Lieutenant (jg) Henry T. Koonce, U. S. N., and daughter of Mrs. R. G. Chaney of Annapolis, Md.

Mrs. Koonce presented "An Impression" and her second number, a trio for violin, cello and piano, was played by Robert Cohen, of Dorchester; Alta Denmore of Natick, and the composer, Mrs. Koonce.

Mrs. Koonce will be awarded her Bachelor of Music degree at this college in a few weeks.

SUCCESSFUL YEAR FOR GIRL SCOUTS COMES TO CLOSE

A year, crowded with accomplishments, is shown in the report released by the Girl Scout committee, following the close of activities for the summer. Jackson school troop, number 5, was reorganized under the leadership of Ruth Meusel. Troop 7, Washington school, membership was increased during the year from 12 to 32 girls. Mrs. Harold Johnson is captain of the troop.

The Girl Scout leaders' association was formed with Miss Naomi Holman as president and Miss Ruth Meusel as secretary-treasurer. Many scout teas and courts were planned by the organization, members of which are Miss Hartsook, Miss Humphrey, Leda O'Neal, Mrs. Hilding Bengtson, Mona Hedges, Miss Kerr, Miss Lucy Davis, Dorothy Burgess, Ruth Meusel, Dorothy Daniels, Naomi Holman, Jane Dixon, Grace Voss, Joyce Gage, Mrs. Harold Johnson, Elizabeth Gillingham, Irene Stubbsfield, Miss Lynch and Miss Watkins.

A completed list of proficiency badge examiners, their addresses and telephone numbers, was made and posted at the Girl Scout office.

A court of awards was held in January at the court house auditorium with 100 badges awarded by Mrs. Hamilton Patton, chairman of the court of awards committee. Another court was held in May at the Junior high school where 120 badges were awarded. The affair took the form of a festival, where games, races, exhibits of troop projects, speeches and refreshments were included in the program.

Many individual hikes and parties were held during the year. The list of three registered troops with a membership of 39, was increased to seven with a membership of 130. One registered Brownie Pack and one Girl Scout troop in Phoenix were also organized during the past year. All Phoenix Girl Scout troops will be under the jurisdiction of the Medford community committee.

One of the largest events of the past year was the mothers and daughters tea, given by the Girl Scouts for their mothers in March. It was attended by over 300 guests.

Most troops will not meet regularly throughout the summer months but all will be ready to start with renewed enthusiasm in September. Between now and then plans for summer camp will hold the interests of Girl Scouts.

WOMEN'S CONTRIBUTION TO THE MOTOR CAR

There is some doubt that people care to hear very much about what goes on under the hoods of their cars.

The driver knows that "driving qualities" are not accidental; they are put there. How the manufacturer creates or evolves those results may not interest him. He judges entirely by the results he gets in driving.

Well, it is not essential to talk "shop"; let us talk Results. Smoothness. Drive the Ford V-8 and you will find that the engine runs with surpassing smoothness, due to its design and the extra precise methods of its manufacture.

Power. There it is, 75 horsepower (we could say 80) at the drive-shaft for the driver's use. With less weight to pull around, the mettle of this car—its life-like response—is rather remarkable.

Economy. Our V-8 develops more power on a gallon of gasoline than any car we have made. Mileage is partly a matter of individual driving, but under average conditions the Ford V-8 does 17 to 20 miles a gallon. Of course, car economy is not only a matter of fuel. Ford V-8 has that too, but it is also economical in the complete sense—initial cost, operation, maintenance.

Appearance. This is woman's contribution. The motor car must not only be useful, but also good-looking. View the Ford V-8 and you will not need our comment on its fine appearance.

Comfort. This also is woman's concern. In 30 years she changed the motor car from a wagon to a coach. Comfort is a quality made up of numerous ingredients. There is no comfort without a quiet, smooth-running engine. We have all the other ingredients too—color, good taste, quality, ease, safety, roominess and convenience.
