## Ye Smudge Pot

The political pot has started to boil. This means that the wives of Grangers will be overworked next spring, frying chicken for a candidate for Governor, who is always busy spneaking up on the farmer vote, or ramming a pitchfork through the power trust.

Autolate do not seem to under-stand that the new Central Point short-cut, is intended as a short-cut to Central Point—not the hos-pital, or the morgue.

"The Harry Going family has went away."—(Paisley Items). Perfect co-

UNSUNG HERO

UNSUNG HERO
(Press Dispatch)
The fugitives found the whiskey in a car which they stole.
"Tney began passing it
around," Laws said. "With each
drink the leader of the gang,
Wilbur Undernill, became more
violent and more determined to
kill the warden and us two
guards. Pinally, in desperation,
I asked for the bottle. I almost
drained it.

"If the convicts had drunk it, we would have all been dead."

WEAK-END DANGING"-(Slaki you News). Observers say that for once the newspapers are right.

Female legs are once again worn without stockings.

A promising young outlaw returned yesterday from an enforced so-journ in the south. His folks used to boast they never spanked him.

Information from St. Paul, Minn says that a jobless man has invent-ed an attachment to a bread-mix-ing machine, that will do the work of four men.

n the middle of the assaon, set to for the mistaking of toadstools mushroons, a hunter gets shot a deer, in Douglas county.

A soprano-voiced lady complained yesterday, "the orchestra tried to drown me." The orchestra should be praised for its intentions, not redid not inform the so

WHAT? CHILDREN FIRST!
(School and System)
The proposals for grade-separation improvements, too, to prevent some careless or Tate-termiline, driver who accorns a tempting driver who scorns to "stop, look and listen" from killing himself, are tremendously killing himself, are tremendously expensive and could easily be postponed. One could maintain a good-size city school system for a year on what one important grade-separation project would cost. With the present would cost, With the present would cost, in the present would cost, in the present would cost, but the present would cost, with the present would cost, with the present of the present of the present of the presents of driver should be prevented from killing himself by trying to dis-pute the right of way with a locomotive.

There is some complaint on file about the June weather, which is as incapable of pleasing everybody as a newspaper. What the weather needs is a committee of guardians that will produce sunshine in the hayfields ind rain in the cornfields, and warm up the water in the swimming pools This thing of having the sar weather for every district, irres-ctive of the needs of the district quite sunoying.

## Flying With the Sun

WHAT do you think of traveling from New York City to Moscow in approximately two days?

This solo flier, Mattern, landed in Moscow, 51 hours and 37 minutes after he left Manhattan-only about three hours over the two-day limit.

This exceeds the time made by Post and Gatty by about three hours. Had Mattern not been forced by head winds and fog far from his course, and compelled to land on a light house island, off the coast of Norway, he would have broken the former record by at least 12 hours.

Two days from New York to Moscow, two more days to the Pacific ocean,-around the world in 80 days, will soon be reduced to EIGHT.

What was once the height of romantic imagination, is now so pedestrian and out-of-date, as to be ludierous.

Wings on a gasoline engine, supported by skill and courage, have put the magic carpet and Aladdin's lamp into the discard, for all time.

Believe it or not,-the time is not far distant, when man will literally travel with the sun!

## He Knows His Onions

DID YOU notice a small item in this paper last week, that President Roosevelt planned to take the air Sunday night and tell the people his views on veteran relief?

The report was correct. That is what the President told the press boys. But he made no talk over the radio last night, on veteran relief or anything else.

Why? Because he didn't need to. That suggestion was enough. As a matter of fact, there was a majority in both houses of congress, in favor of increasing the veterans' "economy" allowance 10 per cent-that is a 15 instead of a 25 per cent reduction. The very efficient veterans' lobby had the boys all steamed up.

President Roosevelt opposed such action. He insisted upon his 25 per cent reduction. "All right," his leaders mouned, 'you are due for a two to one besting."

"Fine," returned the President, "I will talk over the radio to the people Sunday night,"

That was enough. The boys didn't want the chief to talk to the people and get the popular reaction to boosting allowances for veterans.

The 25 per cent reduction was agreed to. Which shows two things. The President's present power and prestige, and the power of public opinion.

## When "Will" They Wake Up!

THE greatest single need in this community—in the entire country for that matter-is clear and independent thinking. Practically all our recent troubles have been due to so many people believing things which AREN'T TRUE.

It's a curious thing. In business matters, the people, as a whole, are pretty hard to fool. There are exceptions, of course, -here and there one can find victims of the old army game,buyers of gold bricks, bogus bonds and stocks, worthless gadgets, put over by high-powered sales talk, at a profit of several hundred percent.

But the sucker list is small, and steadily growing smaller. When the people have to hand over their good money, they stop, look and listen,-they don't as a rule, pay their money first and kick themselves afterward.

But when it comes to politics,-the oldest flim-flam of them all-similar prudence and perspicacity, are woefully

SLICK and unprincipled politicians, with nothing but the gift of gab, still have their lengthy sucker lists, and still work their racket, time without end. The graft is exposed once, only to be put over, in a slightly different fashion, a second,then a third and a fourth time. THE GULLIBILITY OF THEIR VICTIMS IS SIMPLY INEXHAUSTIBLE.

JACKSON County now has a practical demonstration of this. Mr. Thomas Mooney, the eminent highly publicized agitator, from his san Quentin prison cell announces, that not he, but "California stands convicted of the Preparedness Day bomb outrage." California stands convicted of the Preparedness Day bomb outrage." California stands convicted of the Preparedness Day bomb outrage." California stands convicted of the Preparedness Day bomb outrage." California stands convicted of the Preparedness Day bomb outrage." California stands convicted of the Preparedness Day bomb outrage." California stands convicted of the Preparedness Day bomb outrage." California stands convicted of the Preparedness Day bomb outrage." California stands convicted of the preparedness Day bomb outrage." California stands convicted of the preparedness Day bomb outrage. That May been flim-flamming the people of this section of Oregon.

They have repeatedly claimed our local government has been crooked, corrupt and criminal, they have repeatedly charged their opponents in public life with being dishonest, charged their opponents in public life with being dishonest, and venal, they have time and again maintained that all this I had sixes or sevens on my cards.

the bombing as long as were and venal, they have time and again maintained that all this that sixes or sevens on my cards.

How did I take these sixes and ommunity needed to have a perfect government, a government lily white and above reproach, was to defeat their opponents and place THEM in power.

> WELL, at the last election SOME of these apostles of political and moral perfection WERE placed in power. And trying to "shoot the works" when in because they were-and ONLY because they were-Jackson difficulties. I would have schieved Better results.
>
> Better Not to Gamble.
>
> I do not mean to say that a man playing for a national championship should not take chances at times, but there are important occasions where discretion is the better part of valor. For instance, if I am in the woods, with a long and dangerous carry to the green, my beat bet is to take the penalty, play safely for a four or five, and the green my beat bet is to take the penalty, play safely for a four or five, and the green my beat bet is to take the penalty, play safely for a four or five, and the green my beat bet is to take the penalty, play safely for a four or five, and the vital work itself government to the forward—to give employment to the forward—to give employed, and to ransom the William to give employed, and to ransom the Willia County has suffered the most inefficient, wasteful, and deplorable administration of affairs in the offices they controlled, ever recorded in the history of this section of the state.

> And yet in the face of these facts-facts which can't be denied,-there are people, how many no one knows but certainly SOME,-who are still falling for the same graft all over again. They are not only falling for the same graft but the rather than gamble on a three and wind up taking a six or seven.
