Garden Show Draws Many Flower Lovers to High School.

The high school gymnasium on South Oakdale will be the gathering place today and tomorrow of all folk who love flowers and gardening...

The annual garden show opened to the public at 3 o'clock this afternoon and will remain open through this evening and tomorrow...

The show arrangements were headed again this year by Mrs. A. E. Reames, retiring president of the Medford Garden Club...

Other committees for the show included: Publicity—Miss Helen T. Carlton. Entries and Classification—Mrs. Leland Mentzer...

Flowering Shrubs—Mrs. James O. Owen, Mrs. C. M. Brewer, Mrs. Ralph Boutelle.

Flower Arrangements—Mrs. David Rosenberg, Mrs. R. O. Stuart, Mrs. Glen Smith.

Wild Flowers—Miss Helen Bullis, Mrs. Ethel Willett, Miss Venita Daley.

Children's Displays—Mrs. Elmer E. Wilson, Mrs. A. F. Goff, Mrs. Harry Prentice.

Occasional Tables—Mrs. A. S. V. Carpenter, Mrs. L. A. Salade, Jr., Miss Jane Snedeker.

Willert Students Given Ovation at Normal School.

Misses Moneta Melkie and Kathleen Bratten, piano students of Rosa Blackmore Willett...

The primary and intermediate pupils of Harvey Amos Moore will be heard in recital Friday evening...

The home of Mrs. J. F. Flegel on Queen Anne will be the meeting place Thursday evening of Chapter AA, P. E. O.

The last meeting of the summer will be held this evening by Colonel Sargent Auxiliary No. 13, U. S. Spanish War Veterans...

Miss Mary Burkhardt of Grants Pass, attended the commencement program at St. Mary's academy Tuesday evening.

Miss Swingle Leaves for Trip to Fair.

Pythian Sisters Plan Supper Party.

Mr. and Mrs. Reames Home From North.

Simon P. Hollis, 79, of Cadiz, O., boasts 113 children, grandchildren and great-grandchildren.

F. G. Clark, 76, of Corpus Christi, Tex., has started for Chicago to attend the world's fair...

Mrs. Butler and Daughter to Attend Commencement.

Mrs. John H. Butler and daughter Arline, plan to leave by motor Thursday for Eugene...

Miss Gill Plans Portland Vacation.

Miss Bernice Gill will soon join Medford's vacationing throng and plans to spend two weeks in Portland.

SPECIAL ELECTION FOR BOND SAVINGS PLAN OF COUNCIL

Calling of a special city election for June 30 to amend section 73 of the Medford charter to enable the city to save an important sum of money on refunding bonds...

In 1915 the city went through a financial reorganization and issued about \$700,000 in bonds. It was pointed out at last night's meeting...

Under the present city charter the council is authorized to issue refunding bonds to refund unpaid bonds, maturing in 1934.

Under the present city charter the council is authorized to issue refunding bonds to refund unpaid bonds, maturing in 1934.

In 1933 the Oregon legislature passed an act authorizing cities to issue, sell and exchange refunding bonds.

The election called here for June 30 to amend the city charter will amend it to conform with this state law.

For the first time in history, Pacific coast gasolines are to be tested under the impartial scrutiny of the American Automobile Association...

The primary and intermediate pupils of Harvey Amos Moore will be heard in recital Friday evening...

The home of Mrs. J. F. Flegel on Queen Anne will be the meeting place Thursday evening of Chapter AA, P. E. O.

Meteorological Report

June 7, 1933. Forecasts. Medford and vicinity: Cloudy tonight and Thursday; normal temperature.

Lowest temperature this morning 51 degrees.

Temperature a year ago today: Highest 78; lowest 40.

Total precipitation since September 1, 1932, 14.73 inches.

Sunset today, 7:44 p. m. Sunrise tomorrow, 4:39 a. m. Sunset tomorrow, 7:44 p. m.

Observations Taken at S. A. M. Meridian Time

Table with columns: City, High Temp, Low Temp, Prevailing Wind, Weather. Lists cities like Boston, Chicago, Eureka, Helena, Los Angeles, MEDFORD, New Orleans, New York, Omaha, Phoenix, Portland, Reno, Roseburg, Salt Lake, San Francisco, Seattle, Spokane, Walla Walla, Washington, D.C.

CLOSE CRATERIAN TO INSTALL NEW SOUND EQUIPMENT

Ever since the advent of talking pictures, engineers have been working almost day and night to make improvements in both recording and reproducing equipment.

Today and tomorrow, the Craterian theatre will be closed while engineers are busy installing the latest electrical and mechanical achievements developed by the world's greatest engineers of theatre reproducing equipment.

The new RCA Fidelity sound system, that will enable patrons to catch hitherto unknown sounds and musical notes, is the same sound system that was installed in the new Radio City Music Hall and Roxy theatre in New York City...

There is almost the same amount of improvement in this new equipment over the old system as there was four years ago when talking pictures suddenly made the silent picture a thing of the past.

Where the old system faithfully reproduced sound over a frequency of 100 to 4000 cycles, the latest mechanical development embodied in the new RCA High Frequency system, has a frequency of from 50 to 10,000 cycles, creating a realism almost unbelievable—the actors seem actually present in person.

They seem to stand out in bolder relief and one is not continually aware that it is, after all, only a picture.

Although high frequency primarily involves an extension of the frequency range, the volume range is also materially extended to insure the full effect being obtained.

In the past it has been the custom in recording studios to "compress" the volume so that an extremely loud passage are approached in recording, they are cut down, and extremely soft passages are increased.

With the greater volume range made possible by high frequency, music can be reproduced in such a way as to greatly enhance the emotional effect so vitally necessary to good music, especially orchestra music.

This last, especially, will be particularly noticeable when the new system will be used with the showing of the next Craterian program "42nd Street," in which musical plays such an important part.

Another forward step with the new sound system will be the elimination of "dead spots" in different parts of the auditorium.

Heretofore there have always been two or three spots in which the sound could hardly be heard. With the new speakers, which are being installed on the stage, these dead spots will be a thing of the past.

A person will be able to sit in any part of the auditorium and still be able to hear each sound perfectly. There will be no more of that straining to hear some certain line in the new show, and, failing to catch it, feeling thwarted in enjoying the picture.

Kentucky farmers indicated they would plant 13 per cent more acres of tobacco this year than last.

Essary for a complete lubrication. Glen Fabrick and Jay Glease were announced as the speakers for next week.

President McAllister appointed Leslie Van Doren, Harold Larsen and Jack Butler on the golf committee to make arrangements for an Active club tournament.

Crater Lake Gets Wide Publicity In Gilmore's Tabloid

Crater Lake park is given wide-spread publicity through pictures which make up a front page layout for the Graphic, a tabloid newspaper published by the Gilmore Oil company and exhibited in more than 4000 independent Gilmore service stations on the Pacific coast.

This feature is part of a campaign which has been conducted this year by the Gilmore company to aid in publicizing the attractions of the park in order to create travel to southern Oregon.

According to Chuck Ellis, local Gilmore manager, pictures obtained by the company were supplied to the Associated Press and United Press for national distribution, Ellis said.

If growers in Kentucky and surrounding states carry out their intentions, 1933 will have the largest acreage of Burley tobacco ever grown.

Price Reduction! During the summer months I will give a Chiropractic adjustment for \$1.00 cash. The regular treatments will be \$2.00 as usual. This drastic reduction is made to give you an opportunity to get help if you cannot afford to pay the regular price. Take advantage of this offer while it is available. DR. C. R. SIMKINS, Chiropractor. Over Woolworth Store. Phone 1290 for appointment.

LEONARD ELECTRIC Announces a Showing of the New Wringerless EASY WASHER. at a saving of \$45.00. New Low Price \$124.50. You Can Pay As Little As \$10. DOWN. Balance Easy Monthly Payments. SEE THESE fine, new wringerless Easy Washers... they make possible fast, effortless washing—the Easy has full capacity—new color and beauty—porcelain enamel tubs—quiet, floated mechanism—large, easy rolling rubber wheels—dual swinging drain-board—electric pump to lift all water—new simplicity of operation—two controls do all the work—absolute safety. The new Damp-Dryer is a great time and labor saver, too. Let us show you the many new Easy features! LEONARD ELECTRIC Holly Bldg. Morris B. Leonard. Phone 427

LARSON DESCRIBES TAILORS' ART FOR ACTIVIAN MEETING

Harold Larson spoke on, "The Tailoring of Men's Clothing," at the regular meeting of the Active club at the Medford hotel Tuesday night.

Larson described the steps in the manufacture of a man's coat and the various kinds of cloth used. He emphasized the importance of choosing materials according to the wear which will be required of them, and described the wearing qualities of the various fabrics.

Mr. Larson said that the United States now produces dye which is a good as any ever made in Germany and it is important to know that impure dye destroys the fabric.

Austin Dodge entertained the Activians with a talk on, "Automobile Lubrication." Mr. Dodge said, "Lubrication is fast becoming a science. Seventy per cent of the repair bills are due to neglect or improper lubrication. The highly specialized lubrication is very different from greasing. In order to get real motor economy it is necessary to take care of the automobile."

Mr. Dodge stressed the importance of lubricating every point of friction and the service necessary for a complete lubrication.

Glen Fabrick and Jay Glease were announced as the speakers for next week.

President McAllister appointed Leslie Van Doren, Harold Larsen and Jack Butler on the golf committee to make arrangements for an Active club tournament.

COAST GASOLINES WILL BE TESTED BY A. A. A. BOARD
