MEDFORD, OREGON, MONDAY, JUNE 12, 1933.

No. 70.

## LARCENY IS ADMITTED BY LA DIEU

### Facts Prove Minor Crime Says Lawyer

The court in the trial of Arthur J. LaDieu this afternoon denied the motion of the defense for a directed verdict. Attorney A. C. Hough of the defense, in asking for the directed verdict, stated that LaDieu is guilty of larceny, "the facts show it," but maintained that he is not guilty of burglary not in a dwelling, the charge named in the indictment.

The court held that sufficient evidence had been produced linking LaDieu in the alleged conspiracy, to justify taking the case to the jury.

C. Jean Conner, who was the first defense witness called in the trial this afternoon, completion of which is expected Tuesday with the trial of Walter Jones, mayor of Rogue River, also indicted for the theft, scheduled to open Wednesday.

The state of Oregon rested its main case in the trial of J. Arthur LaDieu, former newspaper business manager, on trial for balloting theft in circuit court shortly before noon. The first defense witness was called at the opening of court this afternoon.

Further corroboration of the testimony of the Sexton brothers and other state witnesses, who placed County Judge Earl H. Fehl, Suspended-Sheriff Gordon L. Schermerhorn, Walter Jones, mayor of Rogue River, John Glenn, mayor of Medford, political worker in the last two campaigns, as in and around the courthouse before, during and after the balloting, was presented. The state contends the two county officials and appointees and Brechen engaged in a conspiracy to destroy the ballots to prevent the court-ordered recounts of votes.

Fehl Talked to Boys.  
Joseph Daniels, former courthouse janitor, now residing at Ruch, testified that on the evening of the balloting, he saw County Judge Fehl and John Glenn talking to the Sexton brothers on the basement floor; that with Brechen he walked past the vault window and saw the flickering light within, and Brechen asked him "is that where they keep the ballots?" Brechen also noticed a light in the clerk's office and asked Daniels if he knew who was in there, and if there was any way to find out.

Daniels testified that he saw Suspended-Sheriff Schermerhorn around the courthouse the night of the theft; once at the back door, once going around the northwest corner, once going up the jail steps while he was going to his office, the time being from 7:30 to 9:45 o'clock.

Daniels testified that he and the Sexton brothers and Janitor Bell packed the ballot pouches from the vault to the courtroom and back, on the afternoon before the theft, and he "noticed nothing wrong with the window."

Robbery Discovered.  
Daniels also said that the morning after the robbery, and before it was known, Attorney Elton Watkins of Portland, retained as counsel for Sheriff Schermerhorn in the recount proceedings, Attorney Frank DeBusch, himself and Charles Fischer, a locksmith, had met at the vault door, and that at Attorney Watkins' suggestion they all went outside to look at the window, and discovered the broken window.

### Delegates to London Meet

Senator James Couzens, (left) Michigan Republican, and Ralph W. Morrison, Texas democrat, attending the economic conference in London as members of the United States delegation.—(Associated Press Photo.)

Five long airplane flights, two of them in the state of final preparations, engaged the attention of the world today.

Jimmie Mattern, American globe flier, prepared at Khabarovsk, Siberia, for his trans-Pacific hop to Alaska.

Capt. Mariano Barberan and Lieut. Joaquin Collar, Spanish army aviators, completed a 4500-mile hop from Seville, Spain, to Camaguey, Cuba, Sunday, thereby establishing a North Atlantic non-stop record.

Stephen Darius and Stanley Giresa prepared for their non-stop good will flight of 4537 miles from New York to Kaunas, Lithuania.

Twenty-four planes, manned by 96 men, were tentatively due to leave Orbetello, Italy, by stages to the Chicago fair at 7 a. m. Wednesday.

Air Minister Balbo, chief of the squadron, pronounced men and machines in perfect condition.

There appeared to be nothing more behind this Howe toilet-kit case than some very bad management and a half dozen errors of judgment.

No one connected with it was entitled to any bonuses but the facts were not as bad as they sounded.

The two figures they are watching are showing up well. They are department store sales and factory employment. These indicate the pre-conditions for the lifting of restrictions placed on banks closed at the time of the banking holiday.

The indications are that retail trade maintained itself nationally the last week in May and the first week in June. Factory employment showed some increase in the larger centers.

There is not one man or any group of men living who can visualize, much less direct, the millions of small streams that, merging into a mighty river, constitute the economic life of this nation.

An electric shovel, built at Marion O., is big enough to pick up a 40-passenger bus, swing it over the roof of a 4-story building and drop it in the backyard.

### CUTTING DROPS EFFORT TO GET VETS MORE AID

Demand for Further Modification of Compromise Is Withdrawn — House Adjourns to Tuesday Morning

WASHINGTON, June 12.—(AP)—The house adjourned late today, thereby blocking all hope of sine die adjournment of congress tonight. It will meet at noon tomorrow.

WASHINGTON, June 12.—(AP)—Senator Cutting (R. N. M.), late today withdrew his demand for further modification of the Veterans' compromise reached by the president and the house.

WASHINGTON, June 12.—(AP)—Again the veterans' compensation dispute flared today in the senate, as the first of at least three vital questions which the Democratic leadership is determined to have settled in time for adjournment on the Glass bank bill.

WASHINGTON, June 12.—(AP)—An eleven-hour agreement by congressional conferees on the Glass bank bill today received hope for enactment of permanent banking legislation at this session of congress.

A complete agreement was reached by the house and senate conferees in a four-hour session, during which President Roosevelt's views were obtained by telephone.

The bill provides for insurance of bank deposits up to \$2,500 beginning January 1, 1934, and up to \$10,000 beginning July 1, 1934.

### HOT SUN BRINGS FLOOD DANGERS

PORTLAND, Ore., June 12.—(AP)—Working like beavers as they repaired their lowland dikes hundreds of farmers turned anxious eyes to the boiling flood waters of the Columbia and Willamette rivers as the streams rised higher and higher today.

The weather bureau predicted a flood stage of 28 feet by tomorrow. Not since the great inundation of 1894 when the gauge stood at the 33-foot mark in Portland, has this stage been equaled.

The Willamette river here reached 24 feet this morning, equaling the stage of 1928 which was the highest reached in a summer fresher since 1864.

### FEDERAL ROAD AID TO BE DISCUSSED

SALEM, June 12.—(AP)—A conference between the state highway commission, the highway department, forest service officials and bureau of public roads will be held in Portland tomorrow. It was announced here today.

Consideration of federal aid and state highway projects under the public works bill will be the subject for consideration, it became known.

Notices to all log haulers were sent out by the highway department today notifying them of permit renewals July 1. All haulers must have new permits on that date, corresponding to the automobile license year.

The new permits will be effective for six months.

### RANCH HAND IS KILLED WHEN TEAM RUNS AWAY

Wayne Guiley, about 22, of Creswell, Ore., was killed this morning at the Frank Bybee ranch, west of the city, when a team of horses he was driving in the hayfield, ran away, pinning him under a wagon wheel and crushing his chest. The accident occurred about 7 o'clock. Guiley was rushed to the Community hospital, where he died 20 minutes later.

Guiley had been haying but a short time, when the horses started to run. The wheel ran almost directly over his chest, crushing it badly over the heart, attending physicians stated. He also received several broken ribs and other internal injuries, which made recovery impossible.

Guiley had been employed at the Bybee ranch for the past three years and was well known in southern Oregon. He has a father and three brothers at Creswell with whom Mr. Bybee was endeavoring to confer this afternoon by wire.

Funeral arrangements are in charge of the Conger Funeral parlors. Cliff Cooper, another workman at the Bybee ranch, in a statement to Frank Perl, county coroner this

afternoon, told the story of the runaway, revealing that it was a broken line, which caused the horses to break and run. Cooper went into the field with Guiley about 7 o'clock to load hay and feed the cows. They were in the north field, Cooper slitting from the ground, and had about 800 pounds of hay on the wagon when the right line broke. The horses, which had already showed signs of nervousness, broke into a wild run. They circled the field twice and on the second time around Guiley tried to climb from the wagon. He was caught in the left line and dragged under the wagon wheel, which rolled over his chest.

Guiley was rushed to the Community hospital, where he died about 8:05 o'clock.

There will be no further investigation of the case, Coroner Perl stated this afternoon.

A wire was received late this afternoon from Wayne Guiley's father at Creswell, stating that the mortician in that city was en route to Medford to take the body of the youth north tonight for funeral services and burial.

### NINE LOSE LIVES WHEN HUGE PLANE CRACKS UP

CHICAGO, June 12.—(AP)—A huge twin-motored amphibian airplane, the Northern Light, plunged 600 feet to earth, carrying to death nine persons, including seven holiday-bent visitors to the Chicago world's fair.

Seven of the victims of the crash yesterday afternoon were men. Two were women.

Sudden heavy winds crumpled one wing of the big ship, sending it plunging to a field near suburban Glenview. Flames from the gasoline supply, which exploded, shot high into the air, driving back rescuers, and burning the victims beyond recognition.

Six of them had been positively identified early today. They were: Edward M. Fay, Chicago, Captain Carl V. Vickery, 35, pilot of the plane.

Harry Jacobs, 33, his mechanic, Wheeling, Ill. Joseph G. Robinson, 21, New York, a junior at Washington and Lee University.

Edward G. Schaller, 22, of Storm Lake, Iowa, a junior at the University of Chicago. Miss Stephanie Ogorek, Chicago. Cards found on other victims practically identified Mrs. Ida Goodwin, New York.

### RELIEF COMES TO HEATED SECTIONS

KANSAS CITY, June 12.—(AP)—An area of high atmospheric pressure sweeping southeast from Alaska routed torrid temperatures today in many sections between the Rockies and the Atlantic, where stifling heat had caused scores of deaths.

The sharp drop in temperatures expressed from western Canada, across Montana and Idaho, into northern Missouri and Kansas, and eastward through Michigan, Illinois, Indiana and Ohio.

The National Editorial association intends to retain its entity in the organization of the newspaper business to conform to the federal industrial control measure. The board of directors yesterday decided the problems of the country publisher are such that their association should not be submerged in any general grouping with the large daily newspapers.

### UNWELCOME ISSUE IS DRAGGED IN BY BRITISH MINISTER

MacDonald Says War Debts Must Be Dealt With Before World's Economic Recovery Will Be Possible

LONDON, June 12.—(AP)—The British government has made a tentative offer to pay ten per cent on the debt installment due the United States Thursday, but Washington refused to accept it, it was learned on high authority in French quarters tonight.

LONDON, June 12.—(AP)—Great Britain tonight was making a new move, reported in government circles to involve a proposal of a small "token" payment to the United States toward the Thursday installment, to bring the war debts discussions to a crisis.

The move follows the surprising declaration of Prime Minister Ramsay MacDonald at the opening of the world economic conference this afternoon that the war debts problem must "be settled once for all and without delay." An installment totaling \$75,880,000 falls due Thursday.

CONFERENCE HALL, London, June 12.—(AP)—Prime Minister Ramsay MacDonald opened the world economic conference today with an emphatic call for coordinated international action to put an end to the depression which has cost 30,000,000 workers their jobs and has cut the value of international trade in two.

Delegates from 65 nations, described by the British prime minister as perhaps the greatest assemblage of international authority ever held, heard the speech.

Springing a surprise which appeared unwelcome in some quarters, MacDonald brought up the delicate subject of the war debts, declaring they must be dealt with immediately. He admitted the conference was not so constituted that it could handle the problem, but he emphasized his belief that something must be done about the debts "before every one

### 662 GRADUATE AT STATE UNIVERSITY

EUGENE, June 12.—(AP)—Before a crowd of more than 3000 persons today, degrees ranging from bachelor of arts or science to doctor of philosophy were conferred upon 662 students of the University of Oregon by Dr. W. J. Kerr, chancellor of higher education in Oregon, at a colorful academic ceremony in McArthur court.

In addition to these degrees 10 students were awarded public health nursing certificates and 38 military students were designated as eligible for the commission of second lieutenant in the United States army.

### GUARDSMEN OFF FOR 15 DAYS OF TRAINING

SALEM, June 12.—(AP)—The movement of national guard troops of Oregon for the annual 15-day encampment at camp Glastop and Fort Stevens will be started this afternoon, Major General George A. White, in charge of the national guard of the northwest, announced. They will arrive at the camps tomorrow evening.

Eight special trains will take the 3076 men to the encampment, all converging at Portland tomorrow morning.

### UNION BANK HEADS PLEAD NOT GUILTY

CLEVELAND, June 12.—(AP)—Alvanley Johnston, grand chief of the Brotherhood of Locomotive Engineers, and James H. Cassell, secretary treasurer of the brotherhood, pleaded not guilty today to charges of misapplication of property of the closed Standard Trust bank.

No Fringe Carryover  
SAN FRANCISCO, June 12.—(AP)—President Hugh Hensman told the California press here at their annual meeting today he expected the 1933 crop selling season to start September 1 without a carryover of the previous year's crop, a condition not experienced for several years.

### BANKS IS GRANTED ADDITIONAL TIME TO FILE MOTIONS

Additional time has been granted Llewellyn A. Banks in the filing of a motion for a new trial in his conviction of second degree murder, according to Judge George F. Skipworth, who presided at the trial of the former Medford editor and agitator in Eugene.

According to Judge Skipworth additional time was sought by attorneys for Banks and in view of the judge's attention being given to the ballot cases now in progress here, the request was granted.

### TIMBER RESOURCE SHOULD BE GIVEN MORE ATTENTION

WASHINGTON, June 12.—(AP)—Greater attention to timber lands was urged by President Roosevelt today in a brief talk to the "future farmers of America."

Speaking to the youthful representatives of agriculture on the porch of the White House, Mr. Roosevelt urged that trees be considered a crop just as are potatoes and wheat.

"Timber is one commodity that is going to be indispensable to us," he said. "We have only a supply of what is known as virgin timber for 30 or 40 years. We are using it four times as fast as it grows."

Pointing to the advantages of agricultural life, the president warned his audience that "you who are going to engage in the profession of agriculture know that the odds are 1000 to 1 that you will never become millionaires."

"But there is more than money," he continued. "More important is that you will be building up for future generations the soundest kind of American life."

### GRANGERS GATHER FOR CONVENTION

PENDELTON, Ore., June 12.—(AP)—Members of the Oregon State Grange were arriving today for the annual convention of the farmers' organization, opening here tomorrow. The convention will last four days. More than 1000 members are expected to attend the sessions.

Tonight those who arrived early will be guests at a round-table entertainment at Happy Canyon where many of the Grange sessions will be held.

### SIX EARTHQUAKES IN VICINITY OF LASSEN

MINERAL, Cal., June 12.—(AP)—Six earthquakes were recorded on the Lassen volcano observatory seismograph last night and this morning, the heaviest at 7 m. being sufficiently strong to shake houses. The quakes apparently originated about ten miles from the seismograph.

### MATTERN POISES FOR FLIGHT OVER NORTHERN WATER

By the Associated Press.  
Five long airplane flights, two of them in the state of final preparations, engaged the attention of the world today.

Jimmie Mattern, American globe flier, prepared at Khabarovsk, Siberia, for his trans-Pacific hop to Alaska.

Capt. Mariano Barberan and Lieut. Joaquin Collar, Spanish army aviators, completed a 4500-mile hop from Seville, Spain, to Camaguey, Cuba, Sunday, thereby establishing a North Atlantic non-stop record.

Capt. J. Boyd and two companions left Sunday on a good-will flight from New York to Port Au Prince, Haiti.

Stephen Darius and Stanley Giresa prepared for their non-stop good will flight of 4537 miles from New York to Kaunas, Lithuania.

Twenty-four planes, manned by 96 men, were tentatively due to leave Orbetello, Italy, by stages to the Chicago fair at 7 a. m. Wednesday.

Air Minister Balbo, chief of the squadron, pronounced men and machines in perfect condition.

There appeared to be nothing more behind this Howe toilet-kit case than some very bad management and a half dozen errors of judgment.

No one connected with it was entitled to any bonuses but the facts were not as bad as they sounded.

The two figures they are watching are showing up well. They are department store sales and factory employment. These indicate the pre-conditions for the lifting of restrictions placed on banks closed at the time of the banking holiday.

The indications are that retail trade maintained itself nationally the last week in May and the first week in June. Factory employment showed some increase in the larger centers.

There is not one man or any group of men living who can visualize, much less direct, the millions of small streams that, merging into a mighty river, constitute the economic life of this nation.

### ROOSEVELT TRIED HARD TO DISMISS CONGRESS SESSION

By the Associated Press.  
WASHINGTON, June 12.—Mr. Roosevelt did everything but fumigate the capitol trying to get congress out of town last week.

He was excited particularly because the boys were getting out from under his thumb. He realized this was the beginning of the end of blind congressional loyalty. He did not want that idea to get abroad. It might hurt business confidence if he were to be involved in the usual presidential hickering with congress.

That is one reason why he was so anxious to compromise backstage on the various points in dispute.

Word was passed along to the boys in congress that the reason they had to adjourn was that the World Economic conference was convening today.

It was an absurd excuse. Nobody expects the conference to do anything for three weeks. A few days more for congress would make no difference. It might make some difference on the war debt issue. Installments are due next Thursday.

If the truth were known that fact probably has more to do with Mr. Roosevelt's haste than anything else.

There appeared to be nothing more behind this Howe toilet-kit case than some very bad management and a half dozen errors of judgment.

No one connected with it was entitled to any bonuses but the facts were not as bad as they sounded.

The two figures they are watching are showing up well. They are department store sales and factory employment. These indicate the pre-conditions for the lifting of restrictions placed on banks closed at the time of the banking holiday.

### PORTLAND SIZZLES IN TEMPERATURE NEAR 94

PORTLAND, Ore., June 12.—(AP)—The weather bureau expected a maximum temperature of 94 degrees here today.

At noon the mercury reached 83 degrees, a rise of 22 degrees during the morning, and only one degree less than the highest temperature of Sunday.

Cooler weather was forecast for Tuesday.

### SIXTY-FOUR BANKS REOPENED IN WEEK

NEW YORK, June 12.—(AP)—Sixty-four banks reopened in the week ended June 9, says the "American Banker." Most of these resumptions represented the lifting of restrictions placed on banks closed at the time of the banking holiday.

### McNARY WOULD BLOCK REORGANIZATION PLAN

WASHINGTON, June 12.—(AP)—Resolutions seeking to block sections of President Roosevelt's reorganization order were introduced in the senate today by McNary of Oregon, the republican leader, and Borah (R., Idaho).

### HIT, RUNNER FATALLY INJURES PORTLANDER

PORTLAND, June 12.—(AP)—A victim of a hit-and-run driver, E. E. Hartman, 45, was fatally injured here Sunday. A witness to the accident said the automobile was traveling at high speed. Its license number was not obtained but police today hoped they would be able to identify the machine through damage caused by the impact.
