

### KARASICK DRAWS WITH DEMETRAL ON ARMORY MAT

Harry Demetral and Al Karasick went 60 minutes of dreary grappling on the Armory mat last night to a draw, each having won a fall. Karasick had the ancient Demetral in the agonies of a Boston crab as the gong sounded ending the match. Demetral chalked up the first fall in approximately 35 minutes with what Referee Les Weiss designated as a wristlock, but which had more of the aspects of a body press. The Russian Lion evaded the count 15 minutes later with a Boston crab and again clamped on the spine-wrenching hold just before the time limit was reached.

The dark-skinned gladiators perspired like men in a stockhold, owing to the heat in the Armory, and found it difficult to make their grips hold. Joe Reynolds clamped on a punishing hammerlock to take the first fall from Swede Anderson, Medford matman, in their curtain-raising 40-minute match. The Swede came back with a series of Sonnenbergs to tie the score, bouncing Reynolds from one corner of the ring to the other with crashing impacts which left Reynolds helpless.

Anderson attempted to repeat his football tactics for the deciding fall, but after missing the first three charges, was on the defensive as Reynolds went after him with renewed vigor. Referee Weiss finally awarded Anderson the match on a foul, Reynolds having applied his feet and knees to the local boy's midsection. Weiss earned a round of boos by his solicitude for the Swede in the latter part of the match. Reynolds finding it almost impossible to apply a hold which met with the arbiter's approval.

Local mat fans are promised a real show next week with the announcement by Promoter Mack Lillard that Karasick and Pete Belcastro will be carded in the main event. Belcastro, a two-legged chunk of dynamite, should give the wily Russian a run for his money and win, lose or draw, the evening will be exciting enough to please the most exacting.

Lillard is looking for a big opponent for Swede Anderson for the preliminary, but wants a grappler with less experience than that possessed by Reynolds, in order to make a more even match.

### ATHLETES OF NATION IN ACTION FRIDAY AT FAIR

By CHARLES DUNKLEY  
Associated Press Sports Writer  
CHICAGO, June 15.—(AP)—The big eclipse of 1933 may be seen at Soldier field by a record world's fair crowd.

Headed by Coach Dean Chonswell's Trojans from the University of Southern California, 500 athletes from all sections of the nation charge into action tomorrow at the twelfth national collegiate and prep track and field meet with a rush that threatens to set a mark for eclipsing world's records by the time it stops under the arc lights of Soldier field Saturday night.

Almost every event will offer such keen competition that record or near record time will be required for vic-

tory. For thrills of track and field, glance at these promised strutting duels:

Ralph Metcalf of Madquette, the world's record holder in the dashes, matching strides against one of the fastest fields ever assembled.

A sizzling mile race between Glen Cunningham of the University of Kansas, Ray Sears of Butler university and Dean Woolsey of Illinois, all threats to the world's mark. Two University of Oregon athletes will be here for the meet. They are Paul Starr, ace sprinter who one time set a world record which was disallowed because a breeze favored him, and Warren DeMaris, javelin expert, who has held the Pacific northwest record for several seasons.

### ROGUES POINTING FOR COQUILLE IN IMPORTANT TILT

The Medford Rogues, who journey to Coquille Sunday, are working hard preparing themselves for the game in the latter city. As both teams are tied for the league leadership, neither having lost a game as yet, a hard and interesting battle is anticipated.

A long practice session was held Tuesday evening and all players will again be out tonight and Friday evening to partake in the gruelling drill in order that they be in the best possible condition for the game.

Fans who journeyed to Eagle Point Sunday and witnessed the hot battle between the locals and the Cheese-makers, were amazed at the marked improvement of the team over the previous week's form. The infield especially looked mighty good and worked like veterans. The Coquille loggers, who are referred to as one of the strongest members of the league will have a tough job on their hands in disposing of the Medfordites.

Word from Coquille is to the effect that the entire Coos bay region is agog over the game and the management there is preparing to handle a large crowd. Fans will come from many points.

Several local fans have signified their intention of making the trip. Manager Haight of the Rogues would like to get in touch with any of the above who will have room in their cars to take some of the players. He can be reached by phoning 537-Y or leaving word at the Tribune office.

Compiling of averages show the team hitting at a .292 clip. Individual leaders are Manager Harold Haight with four hits out of eight trips to the plate and Pitcher Charles Pritchett with two hits in four times up, for an average of .500. Following closely are Del Anderson and Bill Lake, with averages of .375.

Following are the averages:

A COMPANY THIRTY YEARS OLD

This week Friday the Ford Motor Company completes 30 years of automobile making.

It is also my fortieth year at the same job. I made my first engine in 1893, and it still runs. This is the engine that won the Selden Patent Suit—which took the motor car out of the exclusive class, and opened the automobile industry to hundreds of manufacturers who started during the last 30 years.

Some of the men who began with me that June day in 1903, are working here yet. All of the principles we laid down then, are still operative; we find that they have great survival value for the future. To date they have produced and sold over 21,000,000 Ford cars.

Although we created the automobile market we have never thought it was good for anyone to monopolize it. We have always believed that before business could be good for one, it must be good for all. Our discoveries and improvements have always been open to other manufacturers without patent restrictions.

Of course, there is one thing we cannot share—everyone must get it for himself—and that is experience. Money could duplicate our buildings and machines, but it cannot duplicate 40 years of experience. And it is experience that makes a motor car.

But the past does not especially concern me; it has all been a preparation for the future. For myself, I feel that I have just been gathering the tools to do something worth while, and that my real task is still ahead.

Great changes are upon the world. False ideas of every kind are vanishing in the general upheaval. Those who built truly on principle will survive—their service will carry over. Business integrity and commodity honor will be fully justified. And newer and better ways of living will appear.

That is the outlook for this young thirty-year old Company of ours.

Henry Ford
