Interesting Note on Mr. and Mrs. Maddox Read

They are still holding an important place in the musical spotlight, undimmed by domesticity—Mr. and Mrs. George Maddox, formerly of this city, now of Seattle. That's the tale a note in the society columns of the Seattle Times reveals to their friends. It reads in part: "Behind the Time Tables" . . . the preparation as to the purchase of thin clothes for tropical climes, the fads and fashions of other cities, the call of the open road and the response . . . these seemed to be the table topics yesterday in the Georgian room of the Olympic, for there were luncheon guests who had just returned from trips, those who are planning journeys and honor guests from other cities.

The tables were gay and festive with their waves of vividly colored painted daisies. The room hummed with chatter and low musical laughter which was entirely stifled when Mr. George Maddox, lyric tenor, sang "Irish Love Song" by Lang and "My Jean" by Clara Reina. The women luncheon assembly showed by their generous plaudits that they liked the tenor's voice of this young tenor, also the playing of his dark, slender attractive wife, who accompanied him. Mrs. Maddox—she liked the way too she had her name on the program simply "Mrs. George Maddox"—was very charming in a printed flowered gandy. It had a white background, and the flowers were in gay shades of green, red, and coral while her hat was of white.

Mrs. Maddox is remembered here as the former Ellen Crawford, daughter of Mr. and Mrs. Oris Crawford. Her marriage to Mr. Maddox, local soloist, was a social event of three years ago here.

AID TO VETERANS WILL DEPEND ON ROOSEVELT ORDER

Cuts in Disability Payments and Pensions Are Outlined According to Present Understanding of Policy

WASHINGTON, June 15.—(AP)—Veterans' aid changes made by congress this session will depend much on executive orders yet to be issued interpreting the newly-made compensation laws.

In general, cuts will be made along the following lines, according to the best information of veterans' authorities:

Mexican War. No soldiers living. Widows' pensions of \$50 monthly cut 10 per cent.

Civil War. Soldiers' pensions, service, \$75; disability, \$60, cut 10 per cent. Widows, \$30, \$40 and \$50 monthly cut 10 per cent.

Indian Wars. Soldiers, \$20 to \$50 monthly, cut 10 per cent.

Spanish-American War. Final compromise provides that all Spanish war veterans over 55 years of age, who are 50 per cent or more disabled and who are in need, shall remain on the rolls at a basic rate of \$15 a month.

Since the basis of what constituted "need" is to be determined by the president, the entire status of the Spanish war veterans' situation depends upon the executive order.

Wright Means, chairman of the national legislative committee of Spanish war veterans estimated that if all now on the rolls listed at 50 or more per cent disabled are retained, about two-thirds of the Spanish war veterans will continue to receive compensation.

It will range from \$15 to \$100 a month, instead of from \$20 to \$75 as before the economy act.

Means estimated about a thousand totally disabled Spanish war veterans will receive more than before the passage of the act, all the rest less the average cut being about 60 per cent, and from 60,000 to 65,000 names to be dropped entirely.

World War. Whereas the first regulations issued by the president under the economy act provided that the average veterans' pay from \$44.16 to \$20.10, the final compromise guarantees that no service-connected case will be cut more than 25 per cent, and the average only 18 per cent.

The economy act regulation cut all presumptive from the rolls, while the compromise sets up reviewing boards to pass on whether their injuries were really war-connected, and pending such a decision, continues them on the rolls until October 31 instead of cutting them off July 1.

Neuro-psychiatric diseases, if developed within a year from the close of the war, are made presumptive, and tuberculosis, if within two years.

The rate of \$30 a month for a widow, and \$6 for each child, of presumptive and service-connected cases was restored, whereas, under the economy act orders, widows were to have been cut to \$20, with \$4 for each child.

Non-service connected cases were wiped from the rolls entirely except for the totally, permanently disabled. The flat \$20 a month they were to have received under the economy act was raised to \$30 by the compromise.

Estimate was made that from 90 to 95 per cent of these cases will be dropped from the rolls.

The original Roosevelt regulations were designed to save \$420,000,000 a year, while the compromise finally agreed to is expected to trim expenditures by \$220,000,000.

Whereas the first regulations issued by the president under the economy act provided that the average veterans' pay from \$44.16 to \$20.10, the final compromise guarantees that no service-connected case will be cut more than 25 per cent, and the average only 18 per cent.
