

MEDFORD GUARD WIN PROMOTIONS AT DRILL CAMP

By Capt. C. Y. Tengwald
CAMP CLATSOP, Oregon, June 17.—Three of the fourteen days that Company A and Headquarters company are spending here at Camp Clatsop have already passed and both companies are now getting down to hard, serious camp life.

The trip from Medford was carried out on scheduled and various services here the cooks, who had come on before us, had a good hot meal awaiting the boys, and did they eat—well we would hate to tell you the quantities of food that were consumed—and speaking of eating—they are better this year than ever and that's saying a whole lot for they have been far from here in past years.

Over three thousand members of the Oregon National Guard are camped here, all companies being filled up to full quota. Since arrival Company A has been engaged in various studies and preliminary work incidental to the heavy program which will start next Monday in preparation for the tactical exercises which will keep the boys out in the field most of the time, including an overnight bivouac and hike.

Robert B. Elson of Company A has been promoted to the rank of Corporal; other promotions in Company A since arrival at camp are Ralph Smith, Roy M. Love, and Willard L. Dudley to private first class. Very few of the boys have answered "sick call" and then only for minor ailments such as sore feet, stomach aches and so on.

FISH COMMISSION DECLARED LAX IN COLLECTING FEES

SALEM, June 19.—(AP)—The state fish commission will be asked by Governor Julius L. Meier to explain the accumulation of \$88,601.30 of delinquent fish poundage fees at a meeting in Portland early this week. Packers are required by law to pay \$10 a ton packing fee. State department auditors criticized mildly the conduct of the fish commission in not requiring bonds covering anticipated poundage fees. "The law authorizing the posting of these bonds was enacted as a protection to the state," the report said. Alleged laxity in following up fines for law violations was also criticized. The report recommended an adequate follow-up system which would assure the fish commission of all fines to which it is entitled. "In some cases fines collected by justices of the peace are still in their possession," the report read. "These fines should be remitted to the commission without delay. Poundage fee obligations of various packers ranged from \$13,305.41 to less than \$90 between 1928 and 1932. On November 30, 1931, \$61,420.57 poundage fees were owing to the state as
