CONSTRUCTION NEARING COMPLETION AT CAMP IN APPLIGATE REGION

APPLIGATE, June 23.—(Sp.)—Interest is shown by the boys in the construction work at Camp Appligate with many buildings almost completed, including the mess hall in the center of the camp. It is 20x144 feet including kitchen, pantry and the cook's room. To avoid unnecessary heat a lean-to is being built in which the stove will be placed. At one end of the mess hall open pits are arranged for heating dishes, also making it possible for four lines of boys to wash their dishes instead of only two. The meat cooler is completed with the exception of installing a windlass to lower and elevate the dumbwaiter in the cellar shaft. When completed the shower house will consist of 15 shower heads, a hot water tank, dressing room and laundry. The well has been dug to a depth of 22 feet and a gas pump, tower and tank have been installed. The tank has not been covered. The camp covers 8 to 10 acres and has been beautified. The camp formation has been carried out with the preservation of the trees in mind. Each tent has an arched over the entrance and many pictures have been formed near the entrance by white rocks being placed in such a fashion as to represent diamonds, skulls and cross-bones, etc.

Two new officers of the Vancouver baracks have joined the boys at Camp Appligate. Sergt. Charles Seyler and Corp. Andy Austin of Company C, 7th Infantry. Two boys, Mark Wrenschel, and Joe Wisdom of Jackson county, captured a rattlesnake on Elliott creek Friday. The snake has five rattles and a button. The collection of lizards and scorpions the boys have been gathering was turned out recently.

POLAND'S COAL INDUSTRY HURT

WARSAW (AP)—Depreciation of the British pound and trade agreements concluded by Great Britain with the Scandinavian countries are affecting Poland's coal industry.

During the "good years" 1927, 1928 and 1929, Poland's coal exports were more than 12,000,000 tons annually. In 1932 this figure dropped to ten million and this April only 600,000 were exported.

While the shrinkage is largely due to the general depression, there is the fact that the British are covering 80 per cent of the Danish demand for coal, 70 per cent of the Norwegian, and 47 per cent of the Swedish.
