

NON-HIGH SCHOOL DISTRICTS ELECT BOARD MEMBERS

Mrs. Alex Sparrow Named for Five-Year Term for New Group to Administer County Tuition Fund

(By County School Superintendent) Voters in the non-high school districts of Jackson county held an election June 19 for members of a board that will hereafter administer the county high school tuition fund. This election was one of the steps in the process of putting the new law for the administration of this fund into operation. The district boundary board of Jackson county made up of the county judge, two county commissioners and the county school superintendent, were charged with the duty of canvassing the vote which canvass was completed on Wednesday, June 28. The following are the results:

Zone 1. Votes
Mrs. Alex Sparrow 1018
Zone 2.
Harry Herzford 958
W. H. Merriman 938
Zone 3.
A. E. Brockway 870
Mrs. R. E. Carley 826
L. Pennington 286
Zone 4.
Edwin H. Taylor 962
Zone 5.
Ben Gibson 420
J. R. McCracken 572

The new law states that of the five members elected the one receiving the highest number of votes gets the five-year term, the next highest the four-year term, etc. In accordance with this plan the new board will be as follows:

Mrs. Alex Sparrow, 5-year term.
Edwin H. Taylor, 4-year term.
W. H. Merriman, 3-year term.
J. R. McCracken, 2-year term.
A. E. Brockway, 1-year term.

The board selects its own chairman and vice-chairman and the County School Superintendent, C. R. Bowman, is the ex-officio secretary without a vote.

The people of Jackson county are to be complimented on the fine personnel of the board. Mrs. Sparrow, the wife of our former county judge, needs no introduction to the people of Jackson county. Mr. Taylor, a

prominent dairyman of the Applegate district, is well and widely known, and has been active in Orange and educational work in his section. Mr. W. H. Merriman is a resident of the Trail district and is widely and favorably known in his section, having been connected with school affairs at Prospect several years. Mr. McCracken, a resident of the Volley View section near Ashland, is widely known throughout the county and has been a prominent rancher and orchardist for many years. A. E. Brockway, a resident of the Oak Grove district near Medford, is a prominent rancher, member of the Orange and has been for several years a member of the county educational board. He has always been active in educational work in his section.

The board will be called together very soon by County Superintendent C. R. Bowman, and will begin to function during the coming month.

ALASKA ISLANDS REPORT QUAKES

DUTCH HARBOR, Alaska, June 29.—(AP)—Islands in this vicinity reported a series of earthquakes of considerable intensity, but no damage was done.

Dutch Harbor is located on Unalaska Island in the Aleutians. The area is noted for volcanic activity, Mt. Shishaldin on Unimak Island being particularly famed for its activity.

KINGSTON, Jamaica, June 29.—(AP)—A violent earthquake lasting several seconds was felt here this morning. No injuries were reported and the damage was slight.

LAD WANDERING IN IDAHO WILDS

MCCALL, Idaho, June 29.—(AP)—Lost in the rugged Hainy Ridge country 165 miles north of here, the seven-year-old son of Frank Lobera was the object of a search today.

Rangers at the Big Creek ranger station, the one nearest to the place of the search, said the lad, whose name was not known here, had been missing since Sunday.

Miners and timbermen in the vicinity followed the boy's trail two miles to where he had abandoned snowshoes to travel at a lower level out of the snow. Beyond that point little trace was left.

The country is a sparsely settled wilderness.

They Shouldn't Be Up There

But What Can You Do With A Team Like Those Giants

Above are three reasons why their critics contend the Giants have no business leading the National league. Critz and Ryan can't hit, much; Mancuso is erratic and O'Doul can't peg a ball from here to there. But they can win ball games, which, after all, is the main idea.

By GAYLE TALBOT (Associated Press Sports Writer)

NEW YORK.—(AP)—One of the most pleasurable afternoons available this vacation season is one spent in the press box at the Polo Grounds, observing the puzzled expressions worn by the baseball experts of the metropolitan sector.

They are the same jolly group who had a peck of fun late last season with Bill Terry, who at that time was very serious about rebuilding his Giants.

"Yesir," Bill would say, "we might not win that flag next year, but we'll be up there in the race." And how the boys would chuckle and wink wisely when Bill wasn't looking. It was good—Bill wrecking a second division club and making a pennant contender out of the pieces. Slightly Flabbergasted

So they're sitting there each afternoon now, watching those Giants win ball games and feeling—well, flabbergasted. They don't believe it. The more they watch the 'Jints' the less they believe it.

"It must be what they call a 'team of destiny,' or something," one veteran observer sighed after watching Bill's rascales make five errors and four hits and win a ball game going away. They've done that so many times this season it has ceased to be a novelty.

Maybe it is 'destiny.' It's bound to be something. The Giants have been getting sensational pitching from Hubbell, Fitzsimmons and Schumacher. That's granted, but even pitching isn't enough to account entirely for the miraculous success of a team with so many uncertain links.

A Bunch of Sluggers

The club can't hit. Only Mel Ott and Johnny Vesper of the regulars are over the 300 mark. At last re-

Meteorological Report

June 29, 1933
Forecasts
Medford and vicinity: Cloudy and unsettled tonight and Friday. Moderate temperature.
Oregon: Cloudy tonight and Friday. Unsettled at times. Moderate temperature.

Lowest temperature this morning, 55 degrees.

Temperature a year ago today: Highest, 95; lowest, 59.

Total precipitation since September 1, 1932, 14.88 inches.

PIERCE RETURNS IN GOOD HEALTH, STRONG FOR F. R.

PORTLAND, Ore., June 29.—(AP)—Enthusiastic, cheerful and looking physically fit, Representative Walter M. Pierce visited Portland today for the first time since he went to Washington, D. C., early this year as congressman from the Second Oregon district.

He said, "I'm feeling fine," when asked about his recent illness. He drove to Portland from his La Grande home with his son, Lloyd. Mrs. Pierce, the former Cornelia Marvin, remained at home to fix up the Pierce congressional office. They will remain in Oregon until after Christmas and then return to Washington for the next congressional session.

Pierce is "solid," he said, on the president's determination to put men back to work. He believes that if the world economic conference at London does not meet with success that the president will swing into a program which will impel the United States to take care of itself and trade with other nations as it sees fit rather than in the much talked of cooperative spirit.

"I regret one thing that has come into the Roosevelt program," the former governor said, "and that is branch banking. I am gratified that the feature guaranteeing bank deposits is included in the new banking legislation, but I don't like branch banking.

"However, I learned enough not to throw rocks at the wedding procession."

Pierce believes dollar wheat on the Pacific coast is here to stay. Wheat men are jubilant, he observed, and sheep men are cheering, too, because wool is up.

him stagger around under a high fowl. But in the tight spots he looks like a combination of every good catcher who ever trod on an umpire's bunions.

The latest addition to the 'destiny' team's family circle is Frank 'Lefty' O'Doul, late of the Brooklyn, who couldn't peg a ball from left field to second base with a sling-shot. However, if you think the fact is of any moment you don't know the Giants.

Chances are that any baserunner who tries to take advantage of Lefty's weakness will fall and break three bones and be tagged out while he lies there in pain.

RECOVERY PROGRAM FOES ARE WORKING

GRAND RAPIDS, Mich., June 29.—(AP)—Senator Arthur Capper told the advertising federation of America today that a widespread campaign already is under way to defeat the recovery program of President Roosevelt.

Pains and Cramps

Salem, Oregon—When I was thirteen years old I became delicate, I had many nervous headaches, poor appetite, felt sick and weak, and had bearing pains and cramps at monthly periods so that I would be in bed two and three days.

Said Mrs. Theima Daily of 1028 Highland Ave. "Mother gave me Dr. Pierce's Favorite Prescription. I took two bottles of it and grew stronger and healthier and was relieved of all feminine weakness." All druggists.

Write to Dr. Pierce's Clinic, Buffalo, N. Y., for free medical advice.

Reach for a Lucky

—for always Luckies Please!

To my brothers... I owe the pleasure of smoking Luckies

When I first had a desire to smoke, I knew exactly where to start. You see, for years I had heard all the men in the family saying "Luckies Please". They said it was "Toasting" that made Luckies so good. I've never questioned the reason—because I have always found Luckies so fragrant, so mild—and (perhaps a man will smile at this) so pure to my lips! I can smoke lots and lots of them and still find them refreshing to the taste. Now I'm telling my brothers "Luckies Please", and each of them says, "You're telling me?"

because "It's toasted"

GRUNOW AT THE World's Fair

CHICAGO

THE only refrigerating unit in the Hall of Science at A Century of Progress (World's Fair) Chicago. "There's a reason." Grunow is super-safe, has a SAFE refrigerant that you can see, smell and hold in your hand, and operates without pressure.

Shown as one of the wonders of modern science—operating largely under glass. Millions will see it and realize how SAFE, how DEPENDABLE, and how SIMPLE and EFFICIENT the Grunow refrigerator is.

If you cannot visit The World's Fair you can see this Grunow unit operating right here in our store. It's a thrill to watch it and make the amazing "safety tests."

If you do visit The World's Fair see the Grunow unit in the Hall of Science, at Part I, Section F, Exhibit No. 13.
