

### TALENT DISTRICT WORKING TO GET FEDERAL MONIES

E. T. Newby, president of Talent Irrigation district, interviewed today by a reporter of The Medford Mail Tribune, stated "that for the past five or six years the Talent Irrigation district has been advocating the passage of a bill which would enable the federal government to refund the outstanding indebtedness of irrigation districts. It is common knowledge that practically all of the irrigation districts, particularly those within the state of Oregon, are over-capitalized, and as a result thereof the annual charges required to be levied by the district upon the lands of the landowners within the districts are excessive and beyond ability of the district to pay. Consequently, when the depression struck, very few of the landowners within the district have been able to meet their irrigation district assessments and are badly delinquent.

"As a part of the present government program to stimulate recovery and for farm relief, the reconstruction finance corporation has been authorized to loan to irrigation districts for the purpose of refunding their outstanding indebtedness, the sum of fifty million dollars. From information received from Senator Steiwer and State Engineer Stricklin, it appears that between one million and two million dollars of this sum will be available to irrigation districts within the state of Oregon.

"The present board of directors of Talent Irrigation district consisting of myself as president, Ed Robison and C. A. Brown, directors, has for some time past been doing everything within its power to enable the Talent Irrigation district to take advantage of a loan from the reconstruction finance corporation, and an application has been made to the reconstruction finance corporation for a loan with which to refund its present indebtedness.

"It is impossible at this time to say what amount of money will be loaned to the district for such purposes, but in any event the federal government requires that there shall be a substantial reduction in the indebtedness of the district as a result of such refunding.

"The district has caused its manager, O. Arnsperger, and attorney, F. P. Farrell, to contact the bondholders committee at Portland, and they have been assured that the bondholders will co-operate with the district in a refunding program and will accept a substantial reduction.

"It is to be hoped that the various districts in southern Oregon will be able to qualify and secure money from the Reconstruction Finance corporation for this purpose, as the result should be a complete financial rehabilitation of the districts receiving the same. Under the federal act those districts receiving a loan from the Reconstruction Finance corporation will be able to reduce their indebtedness by a very substantial amount, and the interest rate will be reduced from the present rate of 6 per cent to possibly 4 per cent. If the present program can be accomplished by the board of directors of the district, payment of indebtedness will be extended for a period of forty years, the final result being a substantial reduction in the annual acreage charge per acre, and within the ability of the landowners within the district to pay.

"This program, if successful, will be substantial farm relief to a large portion of the population in Jackson county. It is hoped by the directors of the Talent district that upon such a refunding program being accomplished, advantage may be taken of the so-called limited liability plan of district assessments, under which plan individual landowners within the district will be able to pay their indebtedness to the district and therefore be relieved from further payment of assessments for payment of district indebtedness."

### Annual Parade Of Army Worms Off This Season

A prediction, pleasing to the ears of all farmers, was voiced yesterday by R. G. Fowler, county agent, when he volunteered this information—"There aren't going to be any army worms this season."

The prediction was soon followed by reservations, however. For Mr. Fowler says he isn't making any definite statements, when it comes to pests. (The earwigs came back). The butterflies, however, or moths, as some choose to call them, which lay the eggs that hatch into army worms, were missing this season, Mr. Fowler stated. The time for their annual arrival is past and they have not been seen. So the forward march of the army worms isn't expected.

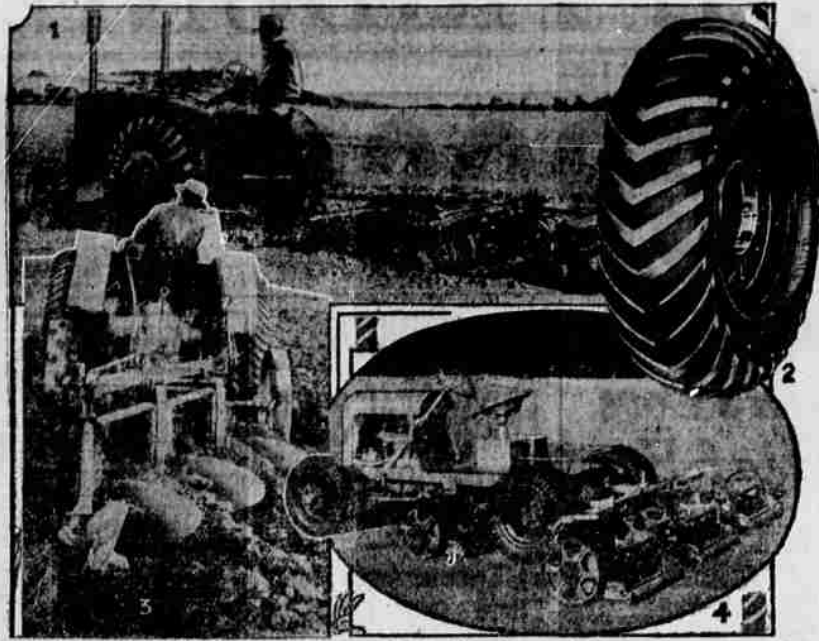

### WHEN YOUR DAUGHTER COMES TO WOMANHOOD

Most girls in their teens need a tonic and regulator. Give your daughter Lydia E. Pinkham's Vegetable Compound for the next few months. Teach her how to guard her health at this critical time. When she is a happy, healthy wife and mother she will thank you.

Sold at all good drug stores.

### New Tire Developed for Tractor

1. Tractor equipped with Firestone low pressure tractor tires is more efficient in loose soil and does not pack the seed bed. 2. Close-up showing Firestone tread which supplies the remarkable traction. 3. The low pressure tractor tires provide sensationally increased speed, economy and traction in plowing. 4. Ideal for all purposes at parks or golf courses—the tires are shown as equipment on a tractor that "walked up" a 30 per cent grade on a golf course, with five mowers operating after a two-day rain.

### TWO TO ONE VOTE FOR REPEAL SEEN IN OREGON FRIDAY

(Continued from Page One)

ticket in favor of the 21st, or repealing amendment.

In addition to balloting directly on the 21st amendment, Oregon voters will elect 116 delegates to the constitutional convention on repeal. These delegates will have no discretion at the convention, each having pledged himself to vote in the assembly as his county voted in the election.

Herman J. Maubetsch, chairman of the "committee of nine," a unit of the United Drys of Oregon, told the Associated Press the drys "have a fighting chance." He blamed "the depression, the hope of employment, and the expectation of circulation of funds held out by wet opponents" for the wet tide.

Will Continue Fight.

M. M. Hancock, president of the Oregon anti-liquor league, said "we will keep on fighting, win or lose. We had our inning and we will come back. We are not quitters. The wets now have the down-hill pull. If the voters do repeal prohibition they will soon learn to regret it."

Mrs. Ada Jolley, state president of

the W. O. T. U., said "the work of temperance education must go on. The liquor problem cannot be settled by repeal. The drink traffic must be destroyed."

Anti-prohibitionists expressed no concern as to the outcome. The women's organization for prohibition reform, the Crusaders, the Oregon League for Repeal of the 18th amendment, and the Association Against the Prohibition Amendment joined in covering the state with advertisements, speakers and repeal "tickets."

In addition to the two repeal measures, Oregon will vote tomorrow on a 2 per cent state sales tax, the revenue to be used to lift part of the burden of the property tax.

### GARLOCKS ENCOUNTER TORRID WEATHER ON RETURN FROM CHICAGO

Reporting "mighty hot weather" from Chicago to here, Mr. and Mrs. L. C. Garlock and children returned this week from the world's fair. During their stay in the fair grounds, Mr. Garlock, local manager of the Out of State Motor association, stated this morning, the 200 foot thermometer, which records the heat for

all fair goes, registered 106 degrees. The weather was also hot in the Dakotas and Minnesota. From the fair the Garlocks stopped in La Grange, Ill. where they were guests of Mrs. Garlock's relatives and many friends. In Minnesota they visited Mr. Garlock's brother and sister and continued on to the Dakotas and Yellowstone park, where they spent some time before returning to Medford.

Speaking of the fair, Mr. Garlock today described the lighting features and the building construction as well worth the trip to Chicago, without considering the many other wonderful features of the Century of Progress exposition. Good highways were encountered throughout the trip, making travel pleasant in spite of the heat.

### FORMAL CITATION IS GIVEN WALKER

Amos H. Walker, former deputy sheriff, twice hired by County Judge Fehl and twice fired by the county commissioners as a probation officer, was this morning formally served with a citation in the contempt proceedings instituted against him yesterday by the state. Walker is charged with violating the home of George B. McClain, a dismissed juror in the Schermerhorn trial, and interviewing his wife, after McClain had been sworn as a juror.

Walker is cited to appear before Judge Skipworth on August 1 at 10 o'clock and show cause why he should not be punished for contempt of court.

Accident Filed—L. W. Brown of 203 North Grape street filed an accident report with the city police today as did Wayne White of the CCC headquarters concerning a collision this forenoon at 11:45 o'clock at the corner of Eighth and Central avenues. White was driving an ambulance.

### WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

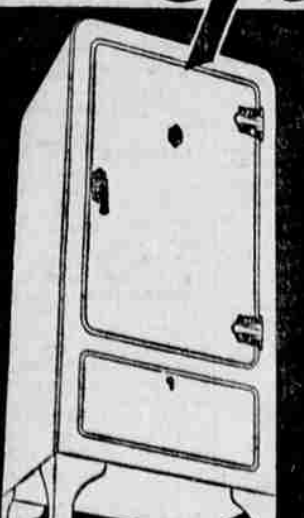

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas blasts up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills on the red label. Dissent a substitute. 25c at drug stores. © 1931 C. M. Co.
