BARNES INVENTS DEVINING DEVICE

Curtis Barnes, young inventor of this city, and son of J. C. Barnes, is now perfecting a machine, which is demanding the attention of southern Oregon miners, members of the association reported today.

It is aimed to detect the type of minerals located in an area 40 feet square and 35 feet deep. The machine, as now perfected, will locate minerals over that area without difficulty, but will not detect the kind of ore deposited, the mining men stated, expressing confidence in Mr. Barnes' device. He has been working on the mining invention for the past year and a half.

Barnes is remembered here as the youthful inventor of Medford's first home made airplane. His product was displayed by the chamber of commerce a number of years ago.

Portland, Ore., July 21.—(AP)—

Strength of the butter trade was suggested in operations on the open market for both prints and cubes. The late cut in the price on first cubes was not suggested on the open market where all scores were held firm irrespective of the price shown on the produce exchange.

Premiums over the exchange price list continued to be offered and paid for cubes on the open market, while under national conditions the price on the open market was 1/4 lb. below the exchange list.

Butterfat continued firm. Market for eggs showed general steadiness locally for top grade stuff during the day but some weakness was suggested in spots for storage and undergrades. Much storage stock was being offered as fresh goods.

Chicken market remains very slow but without quotable price changes for the day.

Considerable excitement was showing in the market for berries as a result of the sudden and liberal increase in demand and inadequate supply. Loganberries and raspberries were chiefly affected.

There was an acute shortage of apricots in the trade and prices on Californian and Yakima stock were firm to higher.

HALT GRAIN TRADE TO CATCH BREATH

By the Associated Press. The grain trade drew a long breath and relaxed as trading was suspended at all the principal American exchanges to allow rest from the violent

seasons which culminated yesterday in the worst price collapse in many years.

Following the action of the Chicago board of trade in suspending dealings for the day, Kansas City, Minneapolis, St. Louis and Duluth were quick to fall in line and take a holiday. When trading is resumed tomorrow there will be limits on daily fluctuations.

The action, taken by directors of the Chicago board of trade late last night caused but little surprise. The reason given for the suspension of trading was that tired employees needed some rest, but veteran observers saw it as a means of checking the frenzy which characterized transactions late yesterday.

From Shrine Hospital—Loren Baker, son of Mrs. Mabel Baker, returned to his home in Medford today from the Shrine hospital in Portland, where he has been for the past four and a half months. Mrs. Baker accompanied her son.
