

SOUTHERN OREGON GOLD IN LINE FOR FOREIGN MARKETS

Rule Against Export of Smelted Metal Gives Impetus to Demand for Free Gold, Gold Concentrates

GRANTS PASS, July 28.—(AP)—Establishment here of gold-buying agencies of foreign concerns, taking this country's and southern Oregon's big output of free gold and gold concentrates at the world price around \$30 an ounce, was predicted in Grants Pass this morning by mining engineers following announcement of Attorney General Cummings's ruling that unsmelted but water-washed gold concentrates or free gold would not be held under the federal export ban at the \$20.7 American mint price.

Is Favored Section A great impetus for this gold section where free metallic gold, high percentage concentrates and ore so rich it can be shipped in its native form are the rule is seen here as contrasted with other western mining sections where the gold is a by-product secured in lead-silver-gold, lead-zinc-gold, gold-copper and other forms requiring smelting.

Miners here who have been working at high pitch during the depression period were full of praise for the administration's act in opening the way for \$30 gold immediately, declaring that in addition the foreign purchase of local gold at the higher rate would choke off mint purchases of gold at the lower figure and speed the arrival of the administration's money revaluation through advancing the mint price somewhere between \$30 and \$35 an ounce as urged by the committee of national organization.

Aid to Miners It was declared that prospective establishment of foreign gold-purchasing agencies here would preserve for the miner his depression period advantages. Such agencies are already in communication locally, it was reported.

Any gold ore, or concentrates, rich enough to ship to smelter is rich enough to sell unsmelted, at the world price for foreign shipment, engineers indicated. Metallic jewelry gold as produced locally is of course also in demand at the world price, it was said.

AVON E. HALL OF GRIFFIN CREEK IS CALLED TO REST

Avon E. Hall, resident of the Griffin creek district for the past 22 years, passed away at a local hospital Friday morning after an illness of the past two weeks, due to heart trouble. He was born at Wilmington, North Carolina, March 17, 1866.

Mr. Hall spent his early life in the south, and at the age of 20 went to California, where he became interested in mining, dividing his time between California and Nevada. In 1907 he was united in marriage to Miss Mable Morrow, at Santa Ana, Calif., they lived four years in California before coming to Oregon. During his entire period in Oregon he has been farming.

He leaves his widow, Mrs. Mable D. Hall of Griffin Creek, Ore., and one sister, Mrs. Alice Elliott of Thorthorpe, North Carolina. Funeral services will be conducted from the First Funeral Home tomorrow, Saturday, at 4 o'clock, Rev. W. J. Howell officiating. Interment will take place in the Medford I. O. O. F. cemetery. Mr. Hall was a member of the United Presbyterian church of San Jose, Calif., also a member of the Watsonville, Calif., lodge of Masons.

WALTER ALLEN RITES SATURDAY MORNING

Funeral services for Walter S. Allen, who passed away Tuesday, will be held at the Conger chapel at 10:30 a. m. Saturday with Rev. W. R. Baird officiating. Interment will be in the I. O. O. F. cemetery.

Kills Policeman

A sensation was caused in a Chicago criminal courtroom when John Schack, 21 (above), a gunman facing trial for bank robbery, made a dash for liberty and shot a policeman dead before he was wounded seriously himself. (Associated Press Photo)

Society and Clubs Edited by Eva Nealon Hamilton

Writers' League Meets Again on August 27 The Southern Oregon League of Western Writers will meet again on Monday afternoon, August 27, at 2 o'clock at the Hotel Holland, it was announced today by Mrs. G. R. Satchwell, president, who urges all persons interested in becoming charter members to be present.

Organization plans will be completed at the meeting and a special invitation is extended to all persons of Ashland and other neighboring towns and communities. The next meeting of the league, date of which has not yet been determined, will be held at the Lethia hotel in Ashland, it is planned.

Leona Hayward is Honor Guest Mrs. Harry Foster and daughter Delina Marie, of 512 North Bartlett street, entertained Wednesday at their home in honor of Mrs. Foster's sister, Leona Hayward of Tacoma, who is her guest here. Refreshments were served during the afternoon.

Guests included Willette Lindley, Margaret Merriman, Doris Rohrer, Jeanette Showers, Phyllis Fulton, Dean Showers, Herbert Merriman and Wilson Church.

Party Planned to Honor Mrs. Hendrickson Mrs. Sam Hendrickson of Harriman, Tenn., who is a guest with her daughters, Nannie and Marjorie, of Mrs. D. W. Dickey, south of the city, will be feted this evening at a birthday dinner at the Dickey home.

Invitations have been issued to 20 guests for the occasion. Mrs. Harriman and daughters expect to leave for the south next Monday.

Miss Walters Guest Of Cousin Here Miss Sophie Walters of San Francisco is a guest in Medford of her cousin, Mrs. Jim Pellett for a summer vacation.

Mrs. Fuson Expected Home Next Week Mrs. Thos. J. Fuson, who has been guest of her sister, Miss Isabel Stuart for some time in Hollywood, is expected home the first of next week.

One of Georgia's outstanding textile operators, W. D. Anderson, president of the Bibb Manufacturing company, who presented the case of the southern operators at the conference on the code, says he is enthusiastic over the recovery act.

"To those who ask, 'Will it work?' I say: It is working right now," Anderson stated. "The textile industry is 100 per cent behind President Roosevelt in his recovery program, and the business people of the country are behind it, too.

"These telegrams here are from business concerns accepting increased prices on goods ordered before the textile code of the recovery act became effective. That means they are behind it."

He has always obtained his flowers from the outstanding specimens exhibited at Atlantic City and his home garden, above that glads and dahlias are not the only blossoms that respond to his care.

In a large pool, backed by a rock garden eight varieties of pond lilies, some tropicals give the impression that they have grown there many years. Lotus is among the most beautiful. The pool, the little Japanese bridge which adorns one end of it, and the rock garden, all have been added to the garden of the Beums' home on South Oakdale, by them since their arrival here last November.

Dr. Caswell changed planes three times enroute from the capital. The dog is expected to recover.

Brookline, Me., July 28.—(UP)—After a 700 mile flight from Washington in answer to an emergency call, Dr. Irving Caswell, veterinarian, performed an operation last night on a prize winning Samoyed dog, owned by Mrs. Sidney Graves, distant relative of President Roosevelt, at her summer home here.

Dr. Caswell changed planes three times enroute from the capital. The dog is expected to recover.

Mr. Reum has grown them for a number of years, and he declared yesterday, "Next year I will have more beautiful ones. They respond. Nothing responds more readily to care than a glad." Before coming to Medford last November, the flower fancier grew glads and dahlias in Canada for 10 or 15 years. His flowers were always prize winners, especially the dahlias, he explained yesterday, promising Medford another beautiful one, that begins to bloom.

He always took first prize on his dahlias, where ever entered in competition, and although he has been in Medford only since the fall, a glance into his garden reveals there are many prize winners in this city.

Blues are the hardest colors to achieve in the glads, he said yesterday, and it is for blues that he is working. It takes three years to tell what one is developing, he explained, but he hopes to get results in a variety he is producing in his own garden.

REUM GLADIOLUS GARDEN RIVALS RAINBOW'S HUES

By Eva Nealon Hamilton "A poet could not but be gay, in such a jocund company"—so wrote Wordsworth many years ago of a "Host of golden daffodils" in one of his most beloved poems.

But what would he have written had he suddenly come upon a field of gladioli? More than an acre of them, lifting many thousands of heads in "sprightly dance," flashing many hundreds of colors upward toward the morning sun. Perhaps he would have remained silent. Frank Reum did yesterday as he led the way into just such a blaze of natural glory, created by himself (with nature's aid, of course).

Down Stewart avenue from his attractive home on South Oakdale, Mr. Reum has located his gladiolus plantings in the midst of a corn field. The flowers cannot be seen from the road—corn stalks waving high above them conceal their luxuriant leaves and petals from the world outside.

More than 100 varieties, displaying shades and colorings, which develop all possibilities offered in nature's spectrum, fill the field, reached by a short trail from the road.

Row upon row of the flowers, which gained their name from their very military erectness, flaunt spirals of steamed blossoms from swordlike stems and foliage.

A scarlet red appears beside a celestial white, rivaling the Madonna lily in the whiteness and waxyness of its petals. Five or six orchids, yellows, maroons, faint blues, deep purple and combinations of all, blended into petal colorings, for which no names have been found, fill the field. All of them that luxuriance of growth and wealth of color, which marks them unusual specimens in the eyes of the botanist.

"Jenny Lind," "Dr. Bennett," "Victor," "Emily Auburn," "Mildred Louise," and a host of other names, Mr. Reum calls them. An exceptionally beautiful white one is known as the albatross.

Mr. Reum has grown them for a number of years, and he declared yesterday, "Next year I will have more beautiful ones. They respond. Nothing responds more readily to care than a glad." Preserving Time is Here Again

By Jane Rogers

IF you are one of those wise housewives who last summer stocked her pantry shelves with jams, jellies and preserves you know how much they can add to the pleasure and economy of winter meals. If not, let "live and learn" be your motto and resolve that your activities this year shall make up for the omissions of the past.

The products of orchard or garden in whatever form they are put up have everything to recommend them. The fruits and berries furnish vitamins and mineral salts while the sugar is an invaluable source of energy. Ease of preparation is another consideration, and modern methods, including the short-bottle method and the use of prepared pectin, have greatly lessened the time and effort required.

Ripe Peach Jam 4 cups (2 lbs.) prepared fruit 7/8 cups (3 1/2 lbs.) sugar 1 bottle pectin To prepare fruit, peel about 3 pounds fully ripe peaches. Pit and grind, or chop, very fine. If peaches lack flavor or tartness, add juice of 1 lemon.

Measure sugar and prepared fruit, tightly packed, into large kettle, mix well, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove kettle from fire and stir in pectin. Then stir and skim by turns for just 5 minutes to cool jam slightly, to prevent floating fruit. Pour quickly. Cover with 1/4 inch of hot paraffin.

When cool cover with tin covers. Makes about 11 glasses (6 fluid ounces each).

Ripe Pear Jam 4 cups (2 lbs.) prepared fruit 7/8 cups (3 1/2 lbs.) sugar 1 bottle pectin Peel, core, and crush completely, or grind, about 3 pounds fully ripe pears. If desired, about 3 teaspoons spice may be added.

Measure sugar and prepared fruit into large kettle, mix well, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove kettle from fire and stir in pectin. Then stir and skim by turns for just 5 minutes to cool jam slightly, to prevent floating fruit. Pour quickly. Paraffin and cover as above. Makes about 11 glasses (6 fluid ounces each).
