

JUDGE HAMILTON DEAN OF OREGON BENCH SUCCEUMBS

ROSEBURG, Ore., July 31.—(AP)—James W. Hamilton, 76, dean of Oregon circuit court judges, died here Sunday from the effects of an extended illness. Judge Hamilton had served on the circuit court bench here for the past 35 years, having been elected circuit judge in June 1898 and served continuously to the time of his death.

In addition to his prominence in legal circles, he was an active educator, having served for 25 years as a regent of the University of Oregon, being president of the board from 1923 to 1929, when he resigned.

Judge Hamilton was born of pioneer parents in Roseburg, February 8, 1857, and obtained his education in the Roseburg schools, the Umpqua academy at Wilbur and the Oregon State Agricultural college at Corvallis. He was admitted to the bar in 1879.

He served eight years as district attorney, in addition to eight years of private practice, and was elected to the circuit court bench June 1, 1898, serving the courts in Lane, Benton, Lincoln, Douglas, Coos and Curry counties at a time when it was necessary throughout the greater part of the year to travel on horseback in all kinds of weather to reach the courts of the district.

Funeral services are to be held here at 2 p. m. Tuesday.

COST OF BEST FOODS LOWERED

An announcement of considerably lower prices on mayonnaise and salad dressing was made this week by the Ballif Distributing company, distributors of Best Foods mayonnaise and Gold Medal salad dressing in the state of Oregon.

This reduction in prices was made possible through the opening of a new kitchen by Best Foods Inc., in San Francisco, according to Mr. Leonard H. Ballif, president of the Ballif Distributing company.

Any housewife who has tried to make mayonnaise at home knows how difficult it is to make mayonnaise that is smooth and balanced in flavor.

Because of the American public's taste, the Best Foods, Inc., has had to expand its facilities constantly. The new kitchen is filled with elaborate and complicated machinery necessary to manufacture and package mayonnaise. The savings made possible by more efficient manufacture are simply being passed on to the consumer, although the cost of oil and eggs, the principal ingredients used in mayonnaise, have advanced rapidly in the past few months.

Local Delegation Reports

B. F. W. Conference, Success
A wonderful conference and a very pleasant time in Crescent City were reported here today by members of the Medford delegation to the Northern California district conference, held in the beach city over the weekend.

Attending from Medford were Mrs. Alice Copping, Mrs. Clarice Spohn, Medford club president; Miss Clara Wood and C. W. MacDonald, who represented the Chamber of Commerce.

A banquet was held at the Lauff hotel Saturday night and a breakfast at the Travelers hotel Sunday morning, following the dedication services at Mill Creek park in the Redwoods.

The local members had the pleasure of meeting at the conference Mrs. Ada May Fusselman of Marin county, California, state chairman of music, who gave an interesting talk on conditions at Washington. The women of the northern California district exhibited an understanding of the present tax situation, which was particularly enlightening, and advocated that all club members be more familiar with the tax situation and the reconstruction program of President Roosevelt.

At the park dedication Sunday morning, Mr. MacDonald of this city invited all club members to the Oregon Golden Jubilee celebration to be held in this city next summer. Ivy Winn of the Coquille club was an especially entertaining guest at both the banquet and breakfast, singing a number of songs. Novelty music played by Mrs. Ben Smith of the Crescent City club on a depression instrument improvised from a pitchfork and a tin can, was a jolly addition to the program.

The meetings were conducted by Mrs. Estelle Clooe, district president, with Ethel L. Pomeroy acting as chairman of the convention program.

The need for development of leadership in the club was emphasized and each club was asked to devote an hour's program each month to the club magazine. The members were urged to eliminate politics from their programs but to educate the members in legislation.

The New Hampshire plan of re-employment was discussed and the clubs went on record as opposed to the adoption of "spread work."

Members of the Medford delegation returned to this city last night.

PUPILS AND PARENTS GET CHEAP RATES TO VISIT OLD IRONSIDES

Elaborate plans have been made by the reception committee of the Portland chamber of commerce for arrival of southern Oregon students, their parents and others at Portland Saturday, August 12, to visit Old Ironsides according to A. S. Roenbaum, district agent for the Southern Pacific here.

From the interest displayed in the cheap rates, his company is naming Roenbaum stated there will likely be a solid train from Rogue river valley.

The railroad in cooperation with Portland chamber of commerce has agreed to name for students regardless of age four-tenths of a cent per mile and for adults eight-tenths of a cent per mile which means students from Medford can go to Portland and back for only \$2.65 and parents will pay only \$5.30. These cheap rates apply on the Shasta or Oregonian Friday, August 11 with return limit Monday, August 14th.

Through special arrangements those making the trip will be taken thru the battleship Oregon without cost and admitted to Jantzen Beach free and many other interesting features will be available through the cooperation of guides. C. R. Bowman, county superintendent of schools, urges all parents especially to make this trip available for that boy or girl who will probably never again have this opportunity.

TALK ON ARCHAEOLOGY GIVEN BY WM. GATES BEFORE ROTARY CLUB

An interesting and instructive talk on archaeology was enjoyed by members of the Medford Rotary club when Wm. Gates addressed his fellow members on this topic last Tuesday. Mr. Gates, who has made an exhaustive study of this subject, told his audience many interesting facts about the research carried on by prominent archaeologists and the information that has been revealed about the civilization of ten thousand years ago. "There is nothing new under the sun," said Gates, who supported his contention with a chart showing ancient writings which he interpreted for his hearers. These characters were of special local interest because they had been reproduced from writings found on the rocks when Tule lake was drained. Mr. Gates advised that these hieroglyphics were not unlike those of the ancient Egyptians and the early Indians. In closing he paid tribute to the archaeologists whose investigation of early civilization promises to be of material assistance in predicting what is to be expected in the future.

Hamilton Patton gave a short survey of the sewage disposal bonds and the benefits which might be expected from the installation of a modern disposal plant in Medford.

C. J. Toy was a guest at the meeting.

Reld, Murdock & Co., canners of the Monarch brand Bartlett pears, will be represented at Medford this season by Myron Root.
