SYLVIA'S TANTRUM THROWS PICTURE FOLK OUT OF JOB

HOLLYWOOD, Cal., Aug. 2.—(AP)—A plea from her fellow actors to come back to Hollywood, "be a good trouper and let the show go on," was telegraphed today to Sylvia Sidney, motion picture actress, who yesterday refused to resume work on a picture in which she is co-starred with Maurice Chevalier, and boarded a plane for New York.

The telegram asking Miss Sidney to reconsider her walkout, was sent by the executive committee of the actors' branch of the Academy of Motion Picture Arts and Sciences, and was signed by Adophe Menjou, Chester Morris, Warner Baxter, Hedda Hopper and Reginald Barlow.

The actors' committee advised Miss Sidney there was a possibility of a battle between Paramount studio where she is employed, and the actors who have been employed in her picture. The telegram urged her to return "if humanely possible" and complete her engagement so that the "many needy people thrown out of work" because of her action may be kept at work.

New Machinery Installed For Snider's Butter

Another reason why Snider's butter will continue to be a favorite with hundreds of Rogue River valley families is the fact that a new Victor churn is being installed at the creamery on North Bartlett street. Another improvement in the butter room is a cream pasteurizer purchased in connection with the new churn. This strictly modern equipment will enable Snider's to further improve an already high grade product, Mrs. Maude Snider said today.

P. B. Sibley, representative of the Creamery Package company, arrived here yesterday from Portland to supervise the installation of the Victor butter maker.

HYDE PARK, N. Y., Aug. 2.—(AP)—Raymond Moley, assistant secretary of state, asserted after a special conference today with President Roosevelt on means of wiping out kidnaping and racketeering, that he intended "most certainly" to continue in his post in the state department.

GEOLOGISTS PLAN EASTERN OREGON FOSSIL BED TRIP

BEND, Ore., Aug. 2.—(AP)—A party of 50 leading geologists of the world will make an excusion across Oregon on Aug. 12 and 13, it was learned here to day, with the fossil beds of the John Day basin as one of the objectives. The party, headed by Dr. Ralph W. Chaney of University of California, will reach Eugene the morning of Aug. 12 and will travel to Bend across the McKenzie lava fields where glaciation and the so-called superstructure of the Cascade range will be examined.

From central Oregon the scientists will be taken to the newly discovered fossil leaf locality on West Branch creek near Mitchell where the remnants of a mighty forest which flourished in that distant epoch known as the eocene, will be studied. While in the Mitchell area, the geologists will be taken through the region once swept by mesolozoic seas, and later blanketed by Columbia lavas. Marine, mammal and flora fossils are found in this district.

In the Dayville, Picture Gorge and spray areas of the John Day Basin, the scientists will see a region known the world over for its abundant odgocene fauna, fossilized bones of semi-tropic mammals, including the three-toed horse and ancentral camels, which ranged over Oregon millions of years ago.

The geologists taking part in the field congress will leave a special train in Eugene and will make the trip to interior Oregon in buses. They will again board the train in the upper Columbia river valley, and proceed into Washington.

Send men who have made a study of the geology of interior Oregon will accompany the party to the John Day fossil beds.

FARM MORTGAGE REFINANCE PLAN TO BE HASTENED

WASHINGTON, Aug. 2.—(AP)—A county-by-county campaign to speed refinancing of farm mortgages will be undertaken by the farm credit administration, which was authorized to loan up to $2,200,000,000 to farmers at the last session of congress.

Henry Morgenthau, Jr., governor of the administration, explained today the campaign will be employed to expedite the mortgage refinancing program and to supplement plans already under way in five states for buying up farm mortgages held by closed and restricted banks to aid in their liquidation.

Returning from airplane visits to Wisconsin, Illinois, Iowa, Kentucky and South Carolina, he said the program for large scale refinancing will be carried into other states as speedily as possible and that from now on all applications for refinancing will be handled together with the bank campaigns.

He said he is increasing the appraisal staff of the 12 federal land banks from 210 on April 1, to from 2500 to 3000 men.
