IT TAKES HEALTHY NERVES TO FLY EIGHT DAYS AND NIGHTS WITHOUT A STOP

FRANCES MARSALIS AND LOUISE THADEN set the world's endurance flight record for women when they brought their plane down at Curtiss Field, Long Island, after flying more than 196 hours without a stop through fog, rain, blinding sun, and pitch-black night.

IN ADDITION to their astounding endurance flight, Miss Marsalis (Left) and Miss Thaden hold many other flying records. Miss Marsalis is the women's champion stunt flyer of the world. It takes healthy nerves to fly...doubly so to fly like these two young women. It is significant that both are enthusiastic Camel smokers.

STEADY SMOKERS TURN TO CAMELS

MISS THADEN says: "Flying is a terrific strain at times. I frankly don't know what I should do without cigarettes. But I've found that different cigarettes have different effects on my nerves. For some years I've smoked Camels. They taste better. They're much milder. And I've noticed that they never upset my nerves." MISS MARSALIS says: "I started smoking Camels because most of my friends who were flyers seemed to prefer them. I've never changed because I can't afford to take chances with my nervous system."

Camel's costlier tobaccos do make a difference...in taste, in mildness. They never jangle the nerves. Your taste and your nerves will confirm this. Turn to Camels.

IT IS MORE FUN TO KNOW

Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand. You will find Camels rich in flavor and delightfully mild.

WHAT A THRILL! And how a good smoke adds to its enjoyment! Light up a cigarette. And for the sake of your nerves, make it a Camel...the milder cigarette that's made from costlier tobaccos.

Camel's Costlier Tobaccos NEVER GET ON YOUR NERVES NEVER TIRE YOUR TASTE
