

FORD RAISES PAY OF WORKERS BUT IS SILENT ON NRA

(Continued from Page One)

Mr. D. Whitehead. Indications were that policies for price control had been evolved by Whitehead, but pending Johnson's scrutiny of the draft the deputy refused to discuss its contents. An impression prevailed that the administration would seek to have the company go into force September 15, as a suitable date for bookkeeping transitions in the retail business.

An effort to bring together divergent views on the union question within the NRA organization was intended for the immediate future, to end strife which has brought the industrial and labor advisory boards to opposing stands on the "merit" clause under which employers could hire, fire and promote men strictly on their capacity, regardless of union affiliations.

Buying Drive Soon.
To help boost consumption, Johnson promised in Chicago yesterday to launch around September 20, a vigorous campaign to promote buying. He warned that NRA's program must lift the cost of doing business and therefore the cost of goods, adding that "the slightest move toward inflation might send prices skyrocketing overnight."

It was by the yardstick of buying power that Johnson expected to gauge within the next few weeks whether the country was definitely headed upward economically or whether even more vigorous steps were needed.

Enforcement Next.
With the main push of rounding up business under the blue eagle over, enforcement became paramount. Discipline for "chiselers" who fly the eagle, but dodge doing their part in re-employment was the objective. Johnson planned to single out conspicuous cases and take them to a hearing and a chance to conform before taking away the eagle.

FEDERAL EMPLOYMENT OFFICE IS INSTALLED HERE; ULRICH IS HEAD

Establishment of a branch in Medford has been announced by the National Re-employment service through the state director, E. L. Merreseau, and Lewis Ulrich of this city is manager of the district, comprised of Jackson, Josephine and Douglas counties, with headquarters here.

Mr. Ulrich was presiding in the office today, opened in the city hall on the third floor, joining the county relief committee headquarters.

Appointment of an advisory committee in this new department was also announced today to include: Floyd Hart, chairman; Alfred S. V. Carpenter and F. J. Runtz.

The purpose of the service is to obtain workers for the public works program, the first phase of which will be realized in this county in the Sitkum highway project.

Those persons who have registered through the relief lists, will not be required to register again as they are automatically registered with the re-employment service.

All persons registering must be bona-fide residents of the county which they represent.

PAR NO STRANGER TO THIS TRIO

GRANGERS EAGER TO SUPPORT NRA DRIVE IS REPORT

A wonderful response to the call for aid in carrying on the consumer's pledge drive under the National Recovery Act campaign here was reported today at the Chamber of Commerce, where participants in the drive were calling for materials and equipment. From all sections of the valley, particularly among the Grangers, the people are flocking in to answer the call, and the spirit shown is one of the finest ever evidenced in the Rogue River valley, the committee declared today.

The spirit of cooperation and support of the campaign is evidenced on every side and the pledges are coming in by the hundreds.

Grangers, particularly, are combing the countryside in an effort to contact all residents, exhibiting the same attitude of helpfulness, the committee stated, which they have shown throughout the drive. Mrs. Lund, a resident of the Thompson creek community, was reported today covering her territory by horseback, bicycle and on foot.

Indications point to a 100 per cent support in this county of firms which have complied with the National Recovery Act and the President's Re-employment Wage Agreement. Many Grangers were waiting at the Chamber of Commerce building for instructions this morning before the doors were opened.

Some cleanup work is yet to be accomplished in the employes' drive, staged last week, and it is being carried on by Major J. C. Thompson.

Montana has to get along without a 1933 state fair, no appropriation having been made for the event.

LOCALS

Missionary Meeting—The Woman's Missionary society of the First Christian church will meet in the recreational hall of the church, on Wednesday afternoon at 2 o'clock. Group III, with Mrs. Everett Euda as chairman, will have charge of the program and social hour.

Corps to Meet—Women's Relief Corps will meet at the Armory Thursday at 2 p. m.

Called to Grass Fire—The city fire department was called to Glen Oak court on East Main street yesterday to extinguish a grass fire. No damage resulted.

Gladly we cooperate

with President Roosevelt and pledge ourselves to live up to the spirit and the letter of the National Recovery Act. We have reduced working hours in all departments at no loss of pay to any employe. As a matter of fact, all through the depression, we have maintained wages at the 1929 level. Our employes have not suffered from cuts, layoffs or shut downs.

Neither have we reduced our advertising. During 1933 we plan to use approximately 2,000,000 lines of newspaper space. 20,000,000 booklets will be distributed from house to house, covering every state in the Union.

Latest sales reports show that the year to date is 10% ahead of last year. We do appreciate this evidence of the confidence of the American people in the Pinkham products.

U. S. BATTLESHIPS ARE DISPATCHED TO CUBAN WATER

(Continued from Page One)

Richmond alone carried from 75 to 100 marines. As to any danger of bloodshed, American officials could make no prediction. Even Ambassador Welles at Havana was unable to estimate the danger, with conditions changing from moment to moment.

Secretary Hull was called from his bed early this morning to learn of the new movement in Cuba. Although there was no official word, dispatch of the warships was understood to have been ordered after communication with President Roosevelt. That the situation was viewed with gravity was indicated by the fact that a cruiser was ordered to Cuba, where as in the previous instance only destroyers were sent at the outset.

It was hoped the vessels would exercise a quieting effect at Havana. Secretary Hull said the warships were ordered to Cuban ports under conditions similar to those which caused the movement of three destroyers to Cuban waters August 13. At that time President Roosevelt issued a statement in which he said: "No possible question of intervention or of the slightest interference

with the internal affairs of Cuba has arisen or is intended by this precautionary step to protect, if necessary, the lives of American citizens, pending the restoration of normal conditions of law and order by the Cuban authorities. I am giving strict instructions accordingly to the commanders of each vessel."

San Francisco Fruit Market
SA FRANCISCO, Sept. 5.—(AP)—State Market News Service:
