

FOREST PRIMERS ARE SENT TO CCC TO AID STUDIES

WASHINGTON, (UP)—For the 41st time, one hundred thousand copies of the Forestry Primer published by Charles Lathrop Pack, president of the American Tree association, have come off the press.

This edition, dedicated to the workers in the Civilian Conservation Corps established by President Roosevelt, is being sent into the forest camps throughout the country.

The previous four million copies were given to the schools as one phase of the forestry educational work being carried on by the American Tree association. The C. C. C. edition, which makes the total 4,100,000 copies issued, has been revised and carries President Roosevelt's message to Congress urging the setting up of the forest camp work as an unemployment relief measure.

"In hundreds of camps forest study classes have been started," Pack said. "The forest officers and army officers are using the Forestry Primers in these classes that are being attended voluntarily by the men after working hours. With the President's announcement of the plan to continue the work for an additional six months and with thousands of new workers coming into the camps, we want to put forestry and what it means to the nation before every one of these young men."

"The schools of the country will, during the next school year, 'read-up' on forestry and allied subjects as never before," Pack continued. "President Roosevelt has made forestry activities page one news. A constructive news topic of this kind nearly always is taken up in project work by the teachers. The nation is being made forestry minded by this relief enterprise. As a result of the great amount of work done in the camps, the big asset for the future will be the fact that new thousands will have come to see the value of such work both as a market for man power and for building up the forest resources of the nation."

Long Mountain

LONG MOUNTAIN, Sept. 12. — (Spl.)—Long Mountain school opened Sept. 4, with attendance of eight pupils. Several more pupils are expected to come.

Myrtle Pankey and S. B. Smith were callers at the Chas. Jackson home Monday.

Mr. and Mrs. W. R. Holman and children, Grace, Henry and Mary Ellen spent Sunday evening at Mr. and Mrs. Howard Short's.

Mr. and Mrs. George Givans, Mr. and Mrs. George Stowell and Pete Young were Sunday guests of Mr. and Mrs. Nick Young.

Mr. and Mrs. Howard Short and Mr. and Mrs. I. R. Kline attended Grange Tuesday.

Carlyle Natwick was a business caller at the Holman home Wednesday.

Is Your Child One of the 20%?

YOU'LL agree that defective vision uncared for is a serious thing, and yet tests have shown that over 20% of all school children have defective vision.

IS YOUR CHILD AMONG THAT GROUP?

Neither you nor the child can tell whether his eyes are normal without a thorough eye examination. Don't take chances with anything so precious. Have your child's eyes examined now.

CUT WILD FOWL SEASON TO TWO MONTHS IN YEAR

WASHINGTON, Sept. 11. — (AP) — The department of agriculture announced today that the open hunting season for waterfowl, coot and jacksnipe would be limited to two months this year, as it was last.

Until the department became alarmed because of the growing scarcity of wild fowl, the hunting season for ducks and geese ordinarily was three months.

The daily bag limit on ducks was reduced from 15 to 12, not more than eight of which may be canvasbacks, redheads, scaups, teal, shovellers or gadwalls. The possession limit for ducks was reduced from 30 to 24, and on the accepting species, from 20 to 16.

The amended regulations provide no open season for brant on the Atlantic coast, although hunting them on the Pacific coast is permitted. For the first time since 1930, cackling geese may be hunted.

The new open season for ducks (except wood ducks, ruddy ducks and buffleheaded ducks) geese, brant and jacksnipe was set for October 16 to

December 15 in Kansas, Oklahoma, Utah, Washington, Oregon, Idaho (except in the five northern counties and the northern zone of New Mexico); September 21 to November 20 in the five northern counties of Idaho; November 1 to December 31 in California; October 1 to November 30 in Montana.

BROWN BEAR KAYOES NEARSIGHTED RANCHER

PROVO, Utah. — (UP) — Nearsightedness almost cost Smith Brimhall his life when he mistook a large brown bear for a tree.

Brimhall, after tying his horse to a stump, started into the forest to cut wood. Fighting what he believed was a choice log, Brimhall raised his ax, but before the blow descended a large paw struck him in the chest, knocking him to the ground. The bruin ambled away, but Brimhall's troubles were not over. The bear so frightened his horse that it broke loose and dashed into the valley below. Brimhall was forced to walk 15 miles home.

Residents near the Newton woods, Cass county, Michigan, believe an elm 150½ feet high and more than 24 feet in circumference three feet above the ground is the largest in the state.

Phoenix

PHOENIX, Sept. 12. — (Spl.) — Phoenix Grange will meet its Grange hall Tuesday night.

The program planned for the lecture hour is of a recreational nature. At the last meeting of the Grange the members present were divided into three groups and each given the name of a college. These members are reminded that they are to see other

Grange members who were not at the meeting and ask them to become a member of their respective college.

The entire program will be a track meet between the three groups. Judge will keep score of the points gained, and prizes will be awarded the three colleges.

Refreshments will be served by the committee appointed at the last meeting, of which Mrs. Lucian Wilcox is chairman.

All members are urged to be present for this meeting.
