Presbyterian Women's Bible Class Begins Year's Work
 Mrs. E. N. Warner, teacher of the Presbyterian women's Bible class of the Presbyterian church has announced that the class will resume activities, following a two months' vacation Sunday morning, September 17, at 9:45 o'clock.

The topic will be "World Events in Light of Prophecy."

The following are some of the questions that will be discussed:

"Is human government a failure?"

"Is the world headed toward one dictatorship?"

"Does the N. R. A. forebode the future?"

This discussion will be a message of hope to the troubled and perplexed mind. Even in these days one may have joy and peace of mind by believing and knowing God's truth.

All are invited. Bring your Bibles and search out God's word with us in the message. Mrs. Warner has issued today.

Degree of Honor Juveniles Meet

The Degree of Honor Juveniles met in regular Monday afternoon and enjoyed program and contests, following presentation of the ritualistic work.

There were a number of visiting members present and the contests engaged in were won by Benny Dietrick in his boy's competition, and by Catherine Campbell in the girls'.

The next regular meeting of the order will be held October 7 at 2 o'clock in the Labor Union hall, Mrs. Ida M. Wilson, director, stated yesterday.

Miss Ramstrom and Mrs. Fisher on Trip

Miss Ruth Ramstrom and Mrs. W. E. Fisher are leaving this evening by train for Hill, Cal., where they will be house guests of Mrs. T. Walden, before continuing to Yreka for the Gold Rush celebration.

Messrs. Donnelly and Bagley to Visit Here

William Donnelly and William Bagley of Portland are expected here this evening to be house guests over the week-end of Messrs. Bob and Bill Prentice. Both are students of Oregon State college.

Miss Stewart Hosts at Bridge This Evening

Miss Katherine Stewart will entertain at bridge this evening at the home of Mrs. C. M. Brewer. She has invited guests to make up two tables of cards.

D. A. R. Resumes Activities Saturday

Saturday at 2 p. m., Crater Lake chapter, D. A. R., will resume work after the summer vacation, and the program will consist of the annual observance of Constitution day.

Mrs. J. O. Gray will talk on recent legislation; members will answer the roll-call by repeating the preamble.

The meeting will be held at the home of Mrs. G. Q. D'Albini, with Messdames J. H. Cochran, M. W. Morris and C. A. Meeker assisting.

Mrs. C. C. VanSoozee, who is chapter chairman of correct use of the flag, asks that everyone become familiar with the proper way to display the flag and the dates sanctioned by all patriotic societies when flags should be flown.

They are: Constitution day, September 17; Oregon admission day, February 14; Lincoln's birthday, February 12; Armistice day, November 11; Washington's birthday, February 22; Decoration day, May 30; Flag day, June 14, and Independence day, July 4.

Miss Parrett Hosts at Bridge Party

Miss Meira Parrett entertained at bridge Wednesday evening for a number from the local younger set. There were three tables of bridge in play and prizes at cards were awarded.

Misses Ruby Stone and Justine Miller.

Present were: Misses Dorothy Slead, Ethel Chord, Ruby Stone, Margaret Childers, Nellie Green, Sybil Jean Young, Frances Moller, Barbara Hawk, Janet Wray Smith, Peggy and Justine Miller and Adra Edwards.

Johnstone Take Edgell House for Winter

Mr. and Mrs. T. Slater Johnston have taken the Corbin Edgell home in Siskiyou Heights for the winter. Mr. and Mrs. Edgell will occupy the E. G. Burgess home in Griffin creek, while the Johnstones are living at Topside on the Old Stage road, the home of Mr. and Mrs. Alfred Carpenter, who left yesterday for an extended eastern trip.

Miss Huhl Leaves for School in New York

Miss Roxane Huhl, eldest daughter, of Mr. and Mrs. Robert Huhl, left for Poughkeepsie, N. Y., yesterday, where she will complete her senior year at Vassar. As far as Chicago, where she will visit her grandfather, A. S. Huhl, she will make the train trip with Mr. and Mrs. Alfred Carpenter.

Sunshine Biscuits Used on Expedition

Top: Explorer Norcross. Left: Schooner Morrissy. Right: Eskimo child. Bottom: Sunshine Biscuits in containers like this were selected as part of the special supplies for the Norcross-Bartlett expedition.

Upon the Arctic explorer's good judgment in choosing his food supplies may depend life itself. The rigors of the icy north demand careful preparation by those challenging its frozen wastes.

This is the reason Loose-Wiles Biscuit company are proud of the Norcross-Bartlett expedition's choice of Sunshine biscuits as one of the important food stores carried by the schooner Morrissy.

The purpose of this expedition is explained in the following letter: "Norcross-Bartlett Expedition Arctic Ocean—1933."

June 18, 1933: "Loose-Wiles Biscuit Company."

"Greetings: The Norcross-Bartlett expedition, headed by Captain Bartlett and Arthur D. Norcross, was formed in 1931 to make a two-year scientific survey of the surroundings of northern Greenland and Arctic ocean, as to ice life, currents, animal life, bird life and botanical growth. Specimens of the above with

pany's Birdseye patents and marketed in other territories.

General Foods recently contracted for the purchase of a large consignment of Pacific coast wheat to be shipped to its flour mills in other sections of the country.

Indirectly, through a substantial stock ownership in The Best Foods, Inc., General Foods is providing additional employment in the Pacific coast mayonnaise plant of Best Foods.

A goodly share in the ownership of General Foods is distributed along the Pacific coast through the wide spread holdings of the company's stock. Dividend checks are mailed to 3,000 stockholders in California alone.

These quarterly disbursements are of interest also to the thousands of stockholders, as well as depositors and employees, of leading local financial institutions.

Through warehousing, rail, truck and ship transportation, and many other ramifications of a large business organization, Mr. Whitmore points out, General Foods is responsible directly or indirectly, for the welfare of many thousands of citizens of the far west.

The principal ingredients needed at the Jell-O plant are Pacific coast products. All of the wax paper for Jell-O packages and the shipping cases required at the three plants are provided by local suppliers. Coffee cans for packing Maxwell House, Sanka and other brands of coffee, are furnished by far western factories.

Several basic commodities are purchased in the far western states for sale in other territories. The Frosted Foods organization, a General Foods division, appreciates the choice fruits, vegetables and meats that are produced in this section. These are quick-frozen here under the com-

MEIER URGES DAM TO PROVIDE JOBS

SALEM, Sept. 14.—(AP)—In a telegram to President Roosevelt, Governor Julius L. Meier declared that construction of the Bonneville power dam across the Columbia river would do more to alleviate unemployment in Oregon than any public undertaking that the federal government could inaugurate.

The people of Oregon are solidly behind the project and all power from the project would be sold, Meier stated.

"It having come to my attention through Washington press dispatches that the proposed Bonneville dam across the Columbia river is encountering opposition despite the favorable recommendation of the board of army engineers and your own favorable attitude, I am again earnestly renewing my petition to your excellency for the construction of this meritorious project." Governor Meier's telegram read.

ALL-BRAN RELIEVED HIS CONSTIPATION

Delicious Cereal Brought New Health to Mr. Bartholomew

When I had considerable trouble with my stomach, digestion was out of the question. I got medicine which gave me only temporary relief.

"Then I thought of taking ALL-BRAN. I started eating a cereal dishful two or three times a day.

"It has been over a year now since I ate that first dish of bran, but from that day to this I have had the pleasure of enjoying the proper functioning of the digestive organs.

"Thanks to ALL-BRAN, I still eat it regularly and like it better all the time." Lester Bartholomew, Cadillac, Mich.

Constipation is usually due to lack of "bulk" to exercise the intestines, and vitamin B to promote elimination. ALL-BRAN supplies both, as well as iron for the blood.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. Certainly this food is more natural than taking harmful patent medicines. Two tablespoonfuls daily will overcome most types of constipation. With each meal in chronic cases. If not relieved this way, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

Dr. Carl L. Hubbs, director of the Institute of Fisheries at Ann Arbor, Mich., says fish sleep with their eyes open.

The Kentucky game and fish commission has obtained 4,218 quail at \$1.50 each for distribution on hunting preserves.

Oil and gas well drilling in Michigan in the first six months of 1933 made better than a 25 per cent gain over the same period of 1932.

2. FRESHNESS

The roasting process of packing coffee, originated by Hills Bros. in 1905, is the only method that fully preserves coffee freshness—the air is removed from the can and kept out. There is no smoky taste or bitterness—no loss of flavor or strength. Hills Bros. Coffee will give you the best results by the dry process or any other method.

3. GRANULATION

Hills Bros. Coffee is ground right to taste right. Its coffee, however good, can be crushed to taste unless uniformly ground and uniformly granulated. Hills Bros' exclusive, continuous process—Controlled Roasting—and correct granulation insure this uniformity. Hills Bros' granulation will give best results by the dry process or any other method.

1. UNIFORMITY

Every pound of Hills Bros. Coffee tastes exactly the same every pound! Hills Bros. Coffee isn't roasted by hand methods. It is roasted a little at a time in the latest Berry roaster, continuously through the roasters. This is Controlled Roasting—Hills Bros' exclusive process which roasts every coffee berry to perfection.

There are 3 reasons for the matchless goodness of HILLS BROS COFFEE

Hills Bros. Coffee is roasted, ground and packed to perfection! It has everything you could want in a coffee—and it has it in every pound. There is never any variation! Just wait till you begin using Hills Bros. Coffee regularly, and you'll know what we mean. There's nothing—not even a single word that fully describes the delight you will find. You must drink Hills Bros. Coffee and taste it for yourself. Order your first pound today, by name, and look for the Arab trademark on the can.

VALLEY SCHOOL REGISTRATIONS SLATED MONDAY

Monday, September 18, will be registration day at the Valley school, and plans are being completed to care for an increased enrollment, which has necessitated the employment of an additional member to the teaching staff, which will be composed of four educators this year. It was announced today.

The two new instructors hired are: Miss Dorothy MacLean, graduate of the University of Oregon, who will teach physical education and interpretative dancing, and direct work in the pre-primary department; and Mrs. Roy Duncan, the former Maurine McClure of Medford, who brings to the staff extensive experience and training in elementary work. She will teach music and drama, as well as instruct a group of the smaller children in the essential studies.

Miss E. Marie Poas, principal of the school, will again head the primary department and art instruction throughout the school. Miss Naomi Holman, who has also been with the school during the past several years, will again direct education in the upper grades and teach French and Nature study.

The addition of the fourth member of the teaching staff will make possible, in spite of the increased enrollment, accomplishment of the aim of the Valley school, which is to give individual instruction, possibly only in small groups.

Miss MacLean, who recently graduated from the University of Oregon, has been in Medford this summer, acquainting herself with the work desired in the Valley school. She majored in physical education at the university, obtaining special work in interpretative dancing and various other courses offered in the department.

Mrs. Duncan, who taught in the Medford public schools, had previously been an instructor in private schools in New Jersey, where she gained much experience, which will enable her to carry on the particular type of work sought by the Valley school. She majored in music in the east and in education particularly designed for elementary channels.

In addition to increasing the teaching staff at the Valley school this year, numerous improvements are being made in the buildings. The furniture is being re-decorated to afford a bright greeting for the opening days.

In connection with the instruction of music this year, arrangements may be made for special practice hours for those children taking piano lessons.

NRA PARADE FEATURE SALEM FALL OPENING

SALEM, Ore., Sept. 15.—(AP)—Salem's fall opening will be inaugurated here next Tuesday night with a NRA parade.

Salem merchants and industrial firms eligible will display blue eagle banners from floats or cars.

The Brazilian government is calling for bids on the opening of a new weekly air service between Belem, Para, and Manaus, Amazonas, a distance of 900 miles.

GENERAL FOODS UNITS IN WEST

On the Pacific coast is located one of the three main centers of activity of the nationwide General Foods organization, according to Ralph Whitmore, vice-president in charge of sales activities for that company in the far western states.

"General Foods' sales activities, like all food, are divided into three parts," states Mr. Whitmore. "There is a General Foods sales headquarters in the east, another in the middle west, and a third in the far west.

A large number of salesmen in the far western territory work out of eight district offices located in San Francisco, Los Angeles, Seattle, Portland, Boise, Denver, El Paso and Salt Lake City.

Three of the company's nationally known grocery specialties have production facilities in factories in the far west. These consist of a roasting plant for Maxwell House and other brands of coffee, a special processing plant for roasting Sanka coffee, and a Jell-O factory.

The principal ingredients needed at the Jell-O plant are Pacific coast products. All of the wax paper for Jell-O packages and the shipping cases required at the three plants are provided by local suppliers. Coffee cans for packing Maxwell House, Sanka and other brands of coffee, are furnished by far western factories.

Several basic commodities are purchased in the far western states for sale in other territories. The Frosted Foods organization, a General Foods division, appreciates the choice fruits, vegetables and meats that are produced in this section. These are quick-frozen here under the com-

UTAH FARM YOUTHS RAISING PHEASANTS

LOGAN, Utah.—(UP)—Raising ring-necked pheasants has almost become an industry to 60 juveniles of three northern Utah counties. The practice is sponsored by the Utah state fish and game commission as part of a drive to increase pheasant population.
