OPERATORS SIGN SOFT COAL CODE, PRESIDENT WINS

WASHINGTON, Sept. 16.—(AP)—The bituminous coal code, fraught with controversy through all the negotiations for its formulation, was signed tonight by the operators of the various producing regions.

The ceremony made the document of strife ready for promulgation by the president. All the way through the troublesome negotiations, it had thrust innumerable difficulties before the administration, obstacles that had been reflected in strikes in the coal fields themselves.

Two nights ago, after an outbreak of fighting in the Pennsylvania strike area, President Roosevelt summoned various leaders of the government and the White House for a long conference. During it, he allotted 24 more hours for the formulation of the code. The 24 hours ended yesterday with the operators still far from their goal. More time was granted.

Through long conferences in hotel rooms, the work went on through today. There were lengthy debates over wages.

Finally, the administrator emerged from a room at the Shoreman hotel to say the compact would be signed at his office at 7 p. m.

A little after the time set, the operators began filing into Johnson's office to put their names at the foot of the document.

J. P. Francis, one of the operators who had been working with the code for weeks predicted that these contracts, which would unionize completely the soft coal fields, would be ratified soon.

Johnson smiled broadly as the operators left his office.

School opens tomorrow and preparations have been completed to care for an increased enrollment.

WASHINGTON, Sept. 16.—(AP)—European debtor nations tonight let their last opportunity for a legal postponement of war debt principal payments totalling \$30,000,875 slip by without action.

The sum falls due December 15, in addition to interest payments of \$102,747,785, the funding agreements provide that if a nation gives 90 days notice it may defer an installment on principal. When the treasury closed its doors today no such notices had been received.

COLUMBIA FISHER STRIKE NEAR END

ASTORIA, Ore., Sept. 16.—(AP)—The first break in the Columbia river fish strike appeared tonight with the announcement by leaders of cannery workers that they had decided late today to return to work Monday.

The senior Montana senator, Mrs. Wheeler, three of their children and a Filipino servant, all suffering injuries of varying degree, recovered sufficiently to be brought here several hours after the mishap.

Senator Wheeler, unconscious when removed from the wreckage of his sedan, was dazed for sometime and was unable to say what occurred. A shattered rear tire, however, was believed to have thrown the heavy car out of his control.

Famous Stars in Craterian Show

A sudden switch in booking brings Helen Hayes and Robert Montgomery to the Craterian theatre for three days in place of "The Stranger's Return," the Lionel Barrymore picture which was advertised to open there today.

"Another Language" shows the two stars as a pair of newlyweds who find the honeymoon is over when the husband's ineffectual relatives take charge of their domestic affairs. It is said to be a swiftly paced, brilliant story that sparkles with tense interest from start to finish. Louise Closser Hale plays the role of Montgomery's mother, meddlesome and selfish.
