NRA EXPLANATION GIVEN KIWANIANS BY GUS NEWBURY

Present conditions in the United States with an explanation of the National Recovery Act plans were described today to the Kiwanis club at luncheon at the Hotel Medford by Attorney Gus Newbury, speaker of the day.

Mr. Newbury drew a picture of conditions leading up to the present situation, and blamed the depression to excessive use of labor saving devices, and too great concentration of wealth.

The government, under the new program, he stated, is going to supervise the employed as well as the employer. The United States is going to step into the industrialist's business and tell him what to do.

Speaking of excessive use of labor devices, Mr. Newbury forecast an eventual discarding of things that have brought about unemployment. Ten million men are now out of employment and averaging just one meal a day. Employing them would bring about an immediate increase in consumption of food stuffs, the speaker pointed out, and a gradual consumption of all surpluses.

Guests at the luncheon today were Frank S. Glover and Walter E. Potter of the Portland Kiwanis club.

TURNER IN NEW FLIGHT RECORD

BROOKLYN, N. Y., Sept. 25.—(AP)—Colonel Roscoe Turner, speed flier, hung up a new west-east transcontinental record today, racing his swift plane at times at 315 miles an hour to cross the country in ten hours and five and one half minutes.

The wheels of Turner's ship touched the flying field at 11:43 1/2 a. m. Eastern Standard time. The previous record of ten hours and 10 minutes was set by James Haldip.

A severe headache, coupled with rough and windy weather and fog, caused Turner to abandon his previously announced plan to attempt a return flight to the coast today.

Turner said he averaged 273 miles an hour and that he might have done better if he had not been compelled to alter his course several times because of storm and low ceilings.
