CHEER EXPONENT WINS ROTARIANS WITH PHILOSOPHY

"Cheerful Philosophy" was Mrs. J. W. Cray's subject when she addressed the members of the Medford Rotary club today at the weekly luncheon of that organization at the Hotel Medford. With her entertaining stories, poems and bits of philosophy, Mrs. Cray, whose home is in Pasadena, Cal., won the hearts of the Rotarians, and the program, which was presented by Dr. W. W. P. Holt, was a decided success.

The present depression has served a real purpose, Mrs. Cray said. "It has taught people to become less selfish, to lend a helping hand to those less fortunate and the lesson will have a definite beneficial effect upon the coming generation."

The importance of cheerfulness in the home was especially stressed by the speaker, who pointed out that proper home management and a "balanced budget" in home finances is a contributing factor in happiness within the family circle. Health was also emphasized by Mrs. Cray as an important factor in cheerfulness of individuals and a few simple rules for good health were outlined by the well-known cheerful philosopher. Mrs. Cray also predicted the success of the President's industrial recovery program.

Hamilton Patton spoke briefly of his interesting visit to the Chicago Century of Progress exposition. Business men in the east are decidedly more optimistic in general business recovery, according to Mr. Patton.

Judge H. D. Norton and Cecil Farnes were guests at today's Rotary session.
