

FROZEN DEPOSITS WILL BE THAWED AS BANKS REOPEN

Total of \$398,735,000 On Deposit in 376 Banks Closed During Depression Climax May Be Loosed

WASHINGTON, Oct. 6.—(AP)—A total of \$398,735,000 in frozen deposits is involved in the list of 376 banks for which reorganization plans have been approved by the treasury.

Of this amount, the treasury estimated today, depositors will receive approximately 50 per cent if the banks carry out the plans agreed upon and are licensed to reopen. When plans are approved, it has been explained here, the situation then is up to the banks, and in some instances they have not been able to meet the conditions imposed.

376 Banks Closed.

A total of \$31,151,000 in unrestricted deposits is held by the 376 banks.

While frozen deposits of these national banks amount to \$398,735,000, this does not mean that such a sum will be released to depositors when and if reorganization plans are acted upon and individual banks are reopened," the treasury said.

"The total represents the amount of deposits carried on the books of these institutions when conservators took charge of them after the bank holiday. It is obvious that the banks would have reopened immediately had they been able to pay 100 per cent of their deposits.

50 Per Cent to Depositors.

"However, it is estimated that, in most instances, depositors will receive an average of slightly better than 50 per cent of their balances when and if these unlicensed banks reopen, with additional percentages being available as slow or doubtful assets are converted into cash.

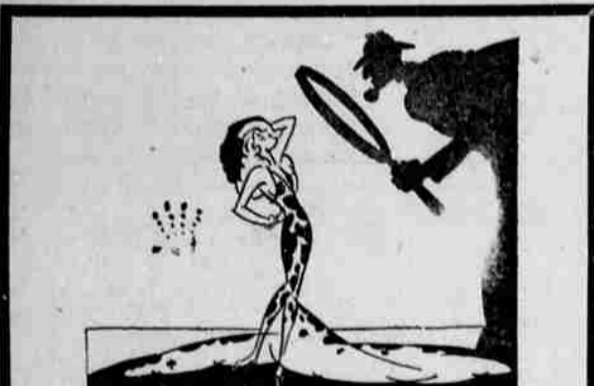

"The \$31,151,000 in unrestricted deposits represents deposits made since conservators have been in charge of these institutions. Such sums are segregated under conservatorships."

The unlicensed national banks whose reorganization plans have been approved as of September 30, with the location, name of bank, amount of frozen deposits and amount of unrestricted deposits, listed respectively, include:

- Oregon.
- Clatskanie, First N. B., \$557,000 and \$58,000.
- Fendleton, First Inland N. B., \$3,005,000 and \$114,000.
- Salem, First N. B., \$1,136,000 and \$52,000.
- Total, \$4,698,000 and \$204,000.
- Idaho.
- Lewiston, Lewiston N. B., \$962,000 and \$133,000.
- Moscow, First N. B., \$523,000 and \$29,000.
- Total, \$1,485,000 and \$162,000.
- Washington.
- Medical Lake, First N. B., \$112,000 and \$11,000.
- Palouse, Security N. B., \$282,000 and \$18,000.
- Reardan, First N. B., \$222,000 and \$27,000.
- Ritzville, First N. B., \$298,000 and \$15,000.
- Spokane, Old Natl. B., \$10,451,000 and \$920,000.
- Sprague, First N. B., \$290,000 and \$27,000.
- Total, \$11,682,000 and \$1,018,000.

Uptown New York has Oakie, dumb about love but smartly ambitious, about his penny-in-the-slot gum-machine business, finally waking up to the fact that the girl (Shirley Grey) means everything to him, but with the girl romantically inclined toward a young doctor. His romance finally ends successfully, but not without going through some hilarious moments, in which Oakie is aided by the comedy work of Moran, Hatton and Armetta. The picture, on the whole, can be said to be all Jack O'Kelly, with his own particular brand of comedy to make everything lively.

PLEASANT WAYS TO SERVE FRESH PEARS ARE TOLD

Every woman who is responsible for the family's meals faces the problem frequently — "What can I have different for a change?"

There is one fruit that is as old as civilization yet does not appear on the table nearly so often as it should when its excellent food qualities are considered—the pear.

During the past few years, however, the culture of pears, particularly the late varieties, has increased enormously and with better methods of storage and transportation this delicious fruit can be obtained at almost any grocery store or fruit stand at prices that permit it to be used freely.

Here are a few ways of serving pears that will help you to add variety to your meals:

Fresh Pear Pie

Cook 4 or 5 ripe pears with 1½ cups sugar and little water. Cook until fairly dry and tender; place half of pears in baked pastry shell and cover with 2 tablespoonfuls pear conserve; then add rest of pears and cover with 1 tablespoonful rich cream. Add top crust and bake 30 minutes in moderate oven.

Fresh Pear and Cheese Salad

Mix a package of soft cream cheese with a little sweet cream and add 1 teaspoon of chopped nuts. Fill centers of two halves of freshly peeled Bosc pears and fasten halves together. The salad is made more attractive by coloring the pear with pink vegetable coloring or beet juice. To add to naturalness of effect, replace stem and put clove in blossom end. Set pear on lettuce leaf and serve with nut dressing.

Pear-Pecan Salad

Cover the halves of a pear with a sour cream dressing, garnish with pecans and maraschino cherries. Set on lettuce leaf and serve.

Pear-Bate Salad

Take half of a fresh pear, peel and place on lettuce leaf which has had the edges dipped in paprika, forming an uneven edge around the lettuce. Fill hollow pear with three dates stuffed with soft cream cheese. Serve with cream dressing.

Baked Pears

Cook unpeeled fruit in water, sugar and cloves at simmering point until tender but not broken. Remove to serving dish. Cook syrup down, pour around fruit and serve with whipped cream.

Baked Pears

Relet firm, medium sized pears.

Place in baking dish, sprinkle with brown sugar. Add a piece of stick cinnamon or few cloves; add enough water to cover bottom of pan; bake after. When tender remove pears to glass dish, cook down syrup and pour over pears. Serve cold or with ice cream.

Pear Shortcake

Pear shortcake can appear, very inexpensively and appetizingly, on any menu during fresh pear season. Split a roll, rather generously sprinkle the halves with sugar. Close with a filling of chopped ripe pears and crown the whole with thick whorls of whipped cream, each whorl interspersed with a ripe white grape. The latter is optional.

Pear Pick-Up

Pear Pick-Up is deliciously like its name suggests — whether styled a salad or dessert. On a bed of cream lay a ripe pear half and "garnish" about the edges with thinly sliced banana. Vanilla ice cream seems to blend best with pear.

In a good diet a balance of acids and bases is essential. The alkalinity of pears is of value in the maintenance of this acid-base balance.

TAX AND DUTY FOR LIQUOR SET FORTH

WASHINGTON, Oct. 6.—The bureau of internal revenue has de-

patched to all of its collectors a memorandum setting forth taxes and duties which would become automatically effective upon the repeal of the 18th amendment.

This shows a levy of \$1.10 a gallon on all distilled spirits with an additional 30 cent tax on rectified spirits. It places the tariff on distilled spirits at \$5 a gallon, the figure stipulated in the Smoot-Hawley law.
