

PRESBYTERIANS HONOR HOWELL ON ANNIVERSARY

Rev. W. J. Howell, minister of the Presbyterian church, celebrated his first anniversary as pastor by preaching to a large congregation gathered Sunday to honor him. The sermon topic was "Challenge of the World to the Church," and was a plea for the church to think and to let her people think.

Rev. Howell said that it is possible for the church to be alive and not to spread that life, to turn wheels without bringing anything to pass. "The most sober thought facing the church today is that the common people heard Jesus gladly, yet today they will not darken the modern institution called the church. It does not matter what the prophet said, we want to see what the prophet saw."

"It is not vitally important to use the language of the martyr, but it is important that we should catch the vision making us daring for God. These we can talk on religion in the language of today, how can we expect the man of the street to be able to use it in the problems of today."

"The church is losing today because she has made the way too easy. The church has not only the uncontestable right but the solemn duty to ask men to believe and it is only as they begin to believe enthusiastically in the challenge of Jesus that any advance in civilization can be made."

"So often the church has applied the word skeptic to the wrong man, Copernicus, Galileo, Tolstoy were all branded as skeptics, yet today with the light of history throwing its pitiless rays upon them, these are the world's great men of faith. The world's real skeptic is the dogmatist. The soul afraid to venture, to experiment, to become a pioneer in the world of the spirit. The danger of religion lies in lives of morality and spiritually suffocated worldliness, who give lip allegiance to her creed, but allegiance to her founder."

"When the church stops thinking about herself and begins to think about the community the community will begin to think about the church. In the presence of the church that merely preaches brotherhood, the world will remain cynical until the crack of doom, but in the presence of the church that dares to practice brotherhood, the last vestige of the world's cynicism would be blown away, and the Kingdom of God would come with power to the world."

Rev. Howell and his wife came to Medford from Spokane, Wash., and they have done remarkable work in this vicinity. More than 100 have been taken into the church, and the church is both socially and in civic spirit with the young people. They have made a place in the hearts of the people by their unselfish Christian work which has taken them into all walks of life, where they have personally cared for many down and out, leading them to a better life.

Rev. and Mrs. Howell were busy all day receiving flowers and congratulations.

D'ARCY, PIONEER OF SALEM DIES

SALEM, Oct. 9.—(AP)—Manifestations of sorrow were heard from many sources when news of the death of Judge Peter H. D'Arcy, Salem attorney, ex-clerk of the state supreme court and one time mayor of Salem, was circulated here late Saturday. He had been ill two weeks.

Born in Brooklyn, N. Y., in 1854, he came to the Pacific coast with his parents in 1855. As a youth he learned the printing business. In 1875 he was graduated from Willamette university and in 1876 was admitted to the bar.

He was a life member and director of the Oregon Historical society and active in the movement to found Champezo memorial. A recent philanthropy of his is a Catholic church building honoring the memory of his mother, which is under construction at Sheridan.

On many occasions he mentioned acquaintance with all Oregon governors except Abernathy and Gaines. For 73 years Judge D'Arcy lived on lot 1, block 1, ward 1 and precinct 1 in Salem.

Surviving are a sister, Miss Teresa D'Arcy of Salem, and a brother, W. John D'Arcy of Butte, Mont. Funeral services will be held here tomorrow morning.

Inflation to Make Jobs, Stabilize Dollar Value

NO. 2. Flat Money and Commodity Dollars. Flat money is paper currency issued by the government, not based on specie and contains no promise of redemption either in gold or in commodities having any fixed value.

Commodity dollars is paper money (non-interest bearing treasury notes) not based on specie but back of it is the promise of the government that its value in commodities will be fixed so that a generation from now its purchasing power will be maintained at an agreed upon value in commodities.

Nations in the past have resorted to the use of fiat money to meet governmental expenses and the result has been the rising prices of commodities but did not result in an increase in the employment of labor or a higher standard of living for the workers.

In these articles the purpose, use and control of commodity dollars will be designated: J. C. BARNES.

IT TAKES HEALTHY NERVES TO WIN THE WORLD SERIES

21 out of 23 GIANTS WORLD CHAMPIONS Smoke CAMELS

"GREAT TEAM WORK and healthy nerves carried us to the top," says Bill Terry, brilliant Giants' manager. "A check-up of the team shows that 21 out of 23 of the World Champion Giants smoke Camels."

"I LONG AGO learned that Camels are the cigarette for me," says "Blondy" Ryan. "I like Camels better, and they don't get on my nerves."

"I CAN'T RISK getting ruffled nerves! I smoke Camels," says Carl Hubbell. "I like their mildness and I know they won't interfere with healthy nerves."

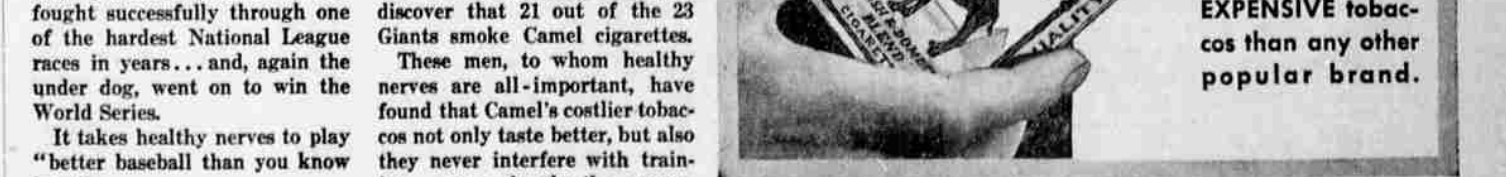

"JUMPY NERVES and home runs don't go together," according to Mel Ott. "So I stick to my Camels when I get a minute to enjoy a smoke."

"I prefer Camels. I am a steady smoker of Camels and they never give me jumpy nerves or a 'cigarette' aftertaste."

WELL, THE RETURNS ARE IN. Congratulations to the new World Champions—the Giants! Rated by the experts as a hopeless contender this amazing team, playing under inspired leadership, fought successfully through one of the hardest National League races in years... and, again the under dog, went on to win the World Series.

It takes healthy nerves to go on winning day after day through crucial series after series... delivering time after time in the pinches.

It means something when you discover that 21 out of the 23 Giants smoke Camel cigarettes. These men, to whom healthy nerves are all-important, have found that Camel's costlier tobacco not only taste better, but also they never interfere with training... never jangle the nerves.

IT IS MORE FUN TO KNOW Camels are made from finer, MORE EXPENSIVE tobacco than any other popular brand.

PACKERS BLANK SPARTANS 17-0

CHICAGO, Oct. 9.—(AP)—With the spark of resentment fanned into flame the Green Bay Packers were back in the national professional football league race with a 17 to 0 shutout over the powerful Portsmouth Spartans to their credit.

After being held to two ties and defeated once, the Packers' chances for the championship were regarded very slim, but yesterday's victory changed opinions although the road ahead is still hard.

The Chicago Bears gained undisputed possession of first place yesterday by defeating the Brooklyn club, 10 to 0 for their third straight. Boston nosed out New York, 21 to 20, and the Chicago Cardinals won their first game by beating Cincinnati 3 to 0.
